Attached for your approval and signature is an Intradepartmental Correspondence addressed to the Board of Police Commissioners and a corresponding fact sheet, responding to the Los Angeles City Council Public Safety Committee's (PSC) follow-up research request stemming from Council File No. 21-0264. The PSC initially directed the Department to "report on recent reports of increased hate crimes targeting Asian Americans in the City and on LAPD's response to this troubling trend, as well on potential resources that could be used to reduce instances of hate crimes targeting Asian-American communities and cultural sites; and to identify and prosecute those responsible for these crimes."

In the attached fact sheet, Robbery-Homicide Division addressed the follow-up requests stemming from PSC's motion:

1. "DIRECT the LAPD, with the assistance of the City Attorney, to report on recent reports of increased hate crimes targeting Asian Americans in the City and on the LAPD's response to this troubling trend, as well as on potential resources that could be used to reduce instances of hate crimes targeting Asian American communities and cultural sites; and, to identify and prosecute those responsible for these crimes."
2. "DIRECT the LAPD to dialogue with the Asian American Pacific Islander community in a very structured way on the topic of disaggregation and to get feedback from the community on what they would like to see in terms of collecting data about nationality, country of origin, etc. and how to do so, if that is the direction that the community would like."
3. "DIRECT the LAPD to develop an online platform to provide additional opportunities for individuals to report on hate incidents and the LAPD to be able to track incidents geographically."

If you should have any questions or concerns, please contact Detective III Orlando Martinez, Hate Crimes Coordinator, Robbery-Homicide Division, at (213) 486-6890.

FOLLOW-UP RESPONSE TO PUBLIC SAFETY COMMITTEE RELATIVE TO RESEARCH REQUESTS ON REPORTED ANTI-ASIAN AMERICAN PACIFIC ISLANDER HATE CRIMES, COUNCIL FILE NO. 21-0264

October 28, 2021

BACKGROUND: On Wednesday, April 7, 2021, members of the Los Angeles City Council Public Safety Committee (PSC), passed a motion directing the Los Angeles Police Department (LAPD) to:

“report on recent reports of increased hate crimes targeting Asian Americans in the City and on LAPD’s response to this troubling trend, as well as on potential resources that could be used to reduce instances of hate crimes targeting Asian-American communities and cultural sites; and to identify and prosecute those responsible for these crimes.”

The PSC asked the Department to follow up on requests which arose during the motion regarding bias-motivated crimes, commonly referred to as “Hate Crimes.”

FINDINGS: The Department completed the analysis as requested by the Los Angeles City Council PSC motion:

- 1) “DIRECT the LAPD, with the assistance of the City Attorney, to report on recent reports of increased hate crimes targeting Asian Americans in the City and on the LAPD’s response to this troubling trend, as well on potential resources that could be used to reduce instances of hate crimes targeting Asian American communities and cultural sites; and, to identify and prosecute those responsible for these crimes.”
- 2) “DIRECT the LAPD to dialogue with the Asian American Pacific Islander community in a very structured way on the topic of disaggregation and to get feedback from the community on what they would like to see in terms of collecting data about nationality, country of origin, etc. and how to do so, if that is the direction that the community would like.”
- 3) “DIRECT the LAPD to develop an online platform to provide additional opportunities for individuals to report on hate incidents and the LAPD to be able to track incidents geographically.”

The Robbery-Homicide Division (RHD) Hate Crime Coordinator (HCC) provides the LAPD with quarterly statistics on hate crime and hate incident trends from throughout the City. An analysis of these trends has demonstrated a substantial increase in hate crimes and hate incidents directed towards the City’s Asian American Pacific Islander (AAPI) community.

Robbery Homicide Division was tasked with responding to the PSC’s request. The HCC contacted the Department’s Information Technology Division (ITD), Application Development and Support Division (ADSD), COMPSTAT Division, Volunteer Coordinator, Evaluation and Administration Section (EAS), and Office of Operations (OO) for the following information.

The following tables depict 2021 year-to-date occurrences of hate crimes and hate incidents that have targeted the Asian American/ Pacific Islander (AAPI) communities in the City of Los Angeles. Through August 31, 2021, there were 32 anti-AAPI hate crimes and 46 anti-AAPI hate incidents in the City of Los Angeles.

On December 17, 2020, the Department issued Special Order No. 32, titled, “Reporting Incidents Motivated by Hatred or Prejudice – Revised.” The Department directs responding officers to complete the Request for Confidentiality of Information form, (not required for hate Incidents), provide the victim with a hate crime resource pamphlet, a Marsy’s Law pamphlet, and request a field supervisor to their location.

The Area Watch Commander’s responsibility is to make an entry in the Watch Commander’s Daily Report upon being notified of a crime or incident motivated by hatred or prejudice. The

Watch Commander shall then forward a copy of the Watch Commander's Daily Report entry along with a copy of the Sergeant's Daily Report documenting the contact with the victim to the Area HCC. The Watch Commander shall then forward a copy of the report to the Department Operations Center (DOC) and notify their Area Community Relations Office (CRO).

The Area CROs are directed to conduct outreach efforts with the affected community members by conducting the following:

- Continually meet with the public to build and strengthen relationships with the community; and,
- Liaise and engage with each community's most vulnerable individuals and groups and inform the Department about the issues and concerns specific to those communities.

The CRO will also provide the public with information regarding Department policy, enforcement efforts, safety, security, crime prevention, and with cultural diversity training.

The Department HCC is responsible for ensuring the Department produces and disseminates a "Hate Crime Brochure" as required by the California Penal Code. The HCC ensures that all officers receive training on the requirement to distribute the "Hate Crime Brochure" to all suspected hate crime victims and all other interested persons. The HCC compiles a quarterly hate crime report to the Commanding Officer of Detective Bureau and provides copies of reports and documents to any agencies working in partnership with the Department via a Memorandum of Understanding (MOU). The HCC provides quarterly training for all Area HCCs, ensures all hate crime cases are entered into the Department of Justice (DOJ) hate crime database, confirms that copies of all hate crime reports are forwarded to DOJ, and liaise between Department training entities to certify hate crime training accuracy and uniformity.

In response to the number of increased hate crimes, the HCC and OO have leveraged the Department's social media accounts and the City's 311 system to provide greater awareness and prevention tips through the following strategies:

- Creation of protocols for documenting instances of hate;
- Increased foot patrols in Chinatown and Little Tokyo; and,
- Educating the Chinese Consolidated Benevolent Association (CCBA) and the Chinese Chamber of Commerce.

Additionally, the Department and the Federal Bureau of Investigation (FBI) have partnered to create the Los Angeles Hate Crime Task Force (LAHCTF). The LAHCTF also includes the Los Angeles County Sheriff's Department, Beverly Hills Police Department, Glendale Police Department, and the Burbank Police Department.

The Department has also created and posted hate crime awareness videos and "Hate Crime Tools and Resources" cards in several AAPI languages, as well as translated the "Hate Crime

Brochure” in AAPI languages. The HCC has worked with the Korean American Coalition (KAC) and Korea Town Senior and Community Center to make hate crime videos with advocacy groups. Additionally, the Department works with the Hate Crimes Prosecution units of both the Los Angeles District Attorney’s Office and the Los Angeles City Attorney’s Office to ensure proper investigation and prosecution of all hate crimes and incidents.

Further, the Area Senior Lead Officers (SLOs) address hate crimes and hate incidents during Community Police Advisory Board (CPAB), Civilian Police Academy, Building Association, Neighborhood Council, “Coffee with a Cop,” and Business Association meetings. The Chief of Detectives and Department HCC also hosted a virtual “Hate Crime Summit” addressing anti-AAPI hate crimes and incidents and do so every year.

The Department has an existing robust volunteer program, the Community Volunteer Program (CVP), which is available to the residents of each geographic Area. The CVP volunteers are assigned to specified tasks to assist the Department with providing services to the community. Volunteers are intended to supplement and support, rather than supplant, sworn officers and civilian personnel. However, the utilization and proactive responses by CVP over the past year have been shuttered and delayed due to the COVID-19 pandemic.

Although the volunteer program is not being utilized at this time due to the pandemic, the Area Commanding Officer may assign CVP volunteers with specific tasks after being deemed safe by the Los Angeles County Department of Public Health. The Area Commanding Officer may task the CVPs to provide extra patrols, engage with community watch groups, and conduct surveillance of cultural/heritage sites to assist the Department in meeting its mission of safeguarding lives, reducing the fear and incidence of crime, and enhancing public safety.

RECOMMENDATION: The HCC recommends that the Department Area commands reinstate the CVP when appropriate and safe to do so and direct them to specifically engage in programs impacting the AAPI community.

Research Item 2: *“DIRECT the LAPD to dialogue with the Asian American Pacific Islander community in a very structured way on the topic of disaggregation and to get feedback from the community on what they would like to see in terms of collecting data about nationality, country of origin, etc. and how to do so, if that is the direction that the community would like.”*

In direct response to the City Council’s request, the Community Relations Section, Office of the Chief of Police, conducted meetings with AAPI community and advocacy groups and inquired as to the community’s thoughts on disaggregating Race and Ethnicity data on this topic.

The Department determined that asking for disaggregated “Race” information would negatively affect the Department’s relationship with immigrant communities and instill fear of immigration-related reprisals when reporting crimes to the police. The community feedback was consistently negative regarding this research item as they believed it would increase the fear of the Department’s sharing of immigration status information with the federal government. Los

Angeles residents may be fearful of their immigration status and personal information seized and used by immigration officials for deportation purposes.

Furthermore, the Department uses the Consolidated Crime Analysis Database (CCAD) for its Records Management System (RMS). The crime data captured in CCAD adheres to the Federal Bureau of Investigation's (FBI) Summary Reporting System (SRS) requirements. The LAPD RMS system currently adheres to California Department of Justice (CALDOJ) California Incident-Based Reporting System (CIBRS) protocols for "race of victim" via our Department codes. In accordance to the CALDOJ requirements, the Department adheres to the State data values to merge data. Current CCAD race of victim or "Descent" codes are comprised of the following:

- Other Asian
- Black
- Chinese
- Cambodian
- Filipino
- Guamanian
- Hispanic/Latin/Mexican
- American Indian/Alaskan Native
- Japanese
- Korean
- Laotian
- Other
- Pacific Islander
- Samoan
- Hawaiian
- Vietnamese
- White
- Unknown
- Asian Indian

The Department strictly adheres to State crime reporting systems to remain compliant with state and federal crime reporting systems. The victim values are pre-set and cannot be changed. These "race of victim" data values will not change and will continue to be collected per CALDOJ guidelines. Department "race of victim" values are reported to CALDOJ, who in turn modifies the data to be compliant with FBI Uniform Crime Reporting (UCR) valid data values. It is necessary to remain consistent in data values across all California agencies to properly report data to the FBI and maintain an accurate database of law enforcement activity in California.

Additionally, in 2018, the Department convened a working group comprised of the Department and community members, and representatives from the Los Angeles District Attorney's and City Attorney's offices, to develop best practices when interacting with Los Angeles' immigrant communities to build public trust, increase crime reporting and allay fears of civil immigration enforcement. The working group developed new Administrative Orders (AO) concerning Department contacts with the public, including the collection of information related to the place of birth and national origin, noting the community fears that place of birth or nationality "may be indirectly used to determine immigration status."

Administrative Order No. 17 (dated October 15, 2019), Automated Field Data Reports (FDR) / Completion and Tracking, delineates the procedures for LAPD officers to follow when completing FDR information for every person detained or searched. Administrative Order No. 17 directs officers to report their perceptions of specified characteristics regarding the person stopped, detained, or searched. This includes the perceived race or ethnicity of the person. Administrative Order No. 5 (dated March 17, 2020), Field Interviews and Field Interview Report, similarly states "Some members of the public may misperceive the purpose of inquiring about a person's birthplace when questioned during a law enforcement contact, especially when contacting the police as a victim or witness. To minimize the potential misperception and possible degradation of public trust, the following procedures shall be followed: Officers ***shall not*** ask a victim, witness, or temporarily detained person for his or her place of birth unless necessary under particular circumstances in order to investigate a criminal offense."

California Penal Code section 422.55 defines a hate crime as "a criminal act committed, in whole or in part, because of one or more of the following actual or perceived characteristics of the victim: (1) disability, (2) gender, (3) nationality, (4) race or ethnicity, (5) religion, (6) sexual orientation, and (7) association with a person or group with one or more of these actual or perceived characteristics." The actual or perceived characteristic of the victim, from the offender's perspective, is paramount to meeting the elements of the hate crime. Therefore, what the suspect believes the victim's protected characteristic to be is more relevant than the victim's actual characteristics.

NOTE: An anti-AAPI crime committed against a non-AAPI by a suspect who perceives the victim to be Chinese, is a crime against the Chinese community, even though the victim is non-AAPI.

The Department believes the risks of disaggregating victim race data outweighs the benefits of tracking specific victim race, nationality, and ancestry. The immigrant residents of Los Angeles historically have distrusted the Department's collection and use of race, nationality, and ancestry data. Fears that the Department would share the information with federal partners, such as Department of Homeland Security are barriers to public trust and decrease the reporting of crimes and cooperation of witnesses in immigrant communities.

FACT SHEET

FOLLOW-UP RESPONSE TO PUBLIC SAFETY COMMITTEE RELATIVE TO RESEARCH REQUESTS ON REPORTED ANTI-ASIAN AMERICAN PACIFIC ISLANDER HATE CRIMES, COUNCIL FILE NO. 21-0264

October 28, 2021

RECOMMENDATION: The HCC recommends that the Department continue to follow LAPD policy and CALDOJ guidelines when inquiring and documenting victim race, nationality, and ancestry to maintain public trust. The LAPD currently uses 12 separate AAPI related “race of victim” data values that are consistent with CALDOJ policies.

Research Item 3: *“DIRECT the LAPD to develop an online platform to provide additional opportunities for individuals to report on hate incidents and the LAPD to be able to track incidents geographically.”*

The HCC contacted ADSD and EAS for details on the LAPD Community Online Reporting System (CORS). The Community Online Reporting System is facilitated by an outside vendor (Lexis Nexis) under contract with the Department. When completing an online report, members of the community visit the official Department public website and are directed to an external website when making a police report in either English or Spanish. The Department currently allows eight types of reports eligible for online reporting:

- Harassing/Annoying telephone calls (e.g.-any person who repeatedly, with the intent to annoy, telephones or makes contact by means of an electronic communication);
- Hit and Run (e.g.-leaving the scene of an accident without providing required license, insurance, or vehicle information);
- Identity Theft (e.g.-when your personal identifying information was used to obtain goods or services without your permission);
- Lost Property (e.g.-lost property is personal property that was unintentionally left by its true owner);
- Theft (e.g.-property is taken without owner’s permission);
- Theft from Vehicle (e.g.-property is taken from vehicle without owner’s permission);
- Vandalism (e.g.-any person who maliciously damages, destroys or defaces the property of another person); and
- Vehicle Collisions (e.g.-a traffic accident where both parties have exchanged information).

Once a member of the community completes an online report, the system forwards a copy of the report to the Department’s DOC where it is reviewed by line officers and/or trained civilian workers for preliminary approval. The report is reviewed to ensure the elements of the criminal offense are included and appropriate, and for thoroughness, accuracy and eligibility. Online reports that do not include the necessary or incorrect information, such as elements of crime or location information, are rejected and returned to the filer with a request for additional information. Reports that do not have the correct criminal elements to be classified as an eligible report are returned to the filer with instructions to file the report with their local community police station.

The report is then forwarded for supervisory review at the DOC. Once approved by a supervisor, the online report is forwarded to the Area Records Section of the LAPD community police

station responsible for handling, processing and investigating the report. Incoming reports form a queue at the local records Area and are entered into the Department system. Online reports are assigned Division of Records (DR) numbers as soon as processed and distributed to the relevant detective sections.

The contract between Lexis Nexis and the Department provides for the inclusion of additional reports to CORS. However, any reports which deviate from the norm and necessitate substantial changes would require an amended or renegotiated contract with the company. Currently, hate crime and hate incident reports include the additional Department's "Request for Confidentiality of Information" report (Form 03.02.00), two-page "Hate Crime Supplemental Report" (Form 03.01.05), "Hate Crime Resource Pamphlet" (Form 15.91.00) and "Marsy's Law-Victim's Bill of Rights information" forms.

The Department believes the public would be better served with officers responding to, investigating, and completing a thorough hate crime or hate incident investigation during instances which could be motivated by bias or hate.

Community members generally do not know whether the elements of a crime have been met during public encounters, as evidenced by the variety of service calls to the 9-1-1 system that do not qualify as emergencies and clog the system. The Department believes in the priority of hate crime and hate incident investigations and prioritizes each case as a serious offense, no matter the underlying crime. Community members rarely call the police to report being the victim of a hate crime or hate incident. Community members report suspected crimes and the responding officers complete a preliminary criminal investigation and related crime or incident reports based upon the articulated facts of the incident and applicable California Penal Code sections.

Additionally, the CORS system is only available in English and Spanish. The City of Los Angeles is one of the most diverse cities in the world. According to the Department's language roster maintained by the DOC, sworn officers speak approximately forty different languages in addition to having access to the AT&T Language Bank twenty-four hours a day. Community engagement in the victim's preferred language increases public trust and assists the community in understanding the criminal justice system and their victims' rights.

RECOMMENDATION: The HCC recommends that hate incidents not be included in the Department's CORS and that officers continue to be dispatched to each individual reported instance for preliminary investigation.

POLICY STATEMENTS:

The City of Los Angeles values the great diversity of its people and recognizes that a threat against any portion of our community is truly a threat against our diverse way of life. Acts or threats of violence motivated by hatred or prejudice are serious acts, often vicious in nature, which tear at the fabric of our community. These occurrences generate fear and concern among victims as well as the entire community and have the potential of recurring, escalating and possibly causing counter-violence.

It is the policy of the Los Angeles Police Department to ensure that the rights of all people, as guaranteed by the Constitutions of the United States and the State of California, are protected. Among those constitutional guarantees is the right of all people to live without fear of attack by or threat from an individual or group due to hatred or prejudice. An act or a threat of violence motivated by hatred or prejudice threatens this constitutional guarantee and generates fear and concern among victims and the public. When any act motivated by hatred or prejudice occurs, the Department will ensure that it is dealt with on a priority basis and use every necessary legal resource to rapidly and decisively identify the suspects and bring them to justice.

**DEPARTMENT MANUAL
VOLUME IV
Revised by Special Order No. 32, 2020**

203.25 REPORTING INCIDENTS MOTIVATED BY HATRED OR PREJUDICE.

It is the policy of the Department to safeguard the rights of all individuals irrespective of their race or ethnicity, nationality, religion, sexual orientation, gender, gender identity or gender expression, disability (whether temporary, permanent, congenital, and no matter how it is acquired), and/or association with a person or group with one or more of these actual or perceived characteristics. Any acts or threats of violence motivated by hate or bias, including property damage, harassment, intimidation, or other crimes shall be viewed very seriously and given high priority.

Hate Crime-Defined. A hate crime is any criminal act or attempted criminal act directed against a person(s), public agency or private institution based *in whole or in part* on the victim's actual or perceived race or ethnicity, nationality, religion, sexual orientation, disability, gender, gender identity or gender expression; or, because the agency or institution is identified or associated with a person, or group of an identifiable or perceived race, nationality, religion, sexual orientation, disability, gender, gender expression, or gender identity.

A "bias" is a pre-existing negative attitude toward actual or perceived characteristics referenced in California Penal Code Section 422.55 (see characteristics from Hate Crime Definition above). Depending on the circumstances of each case, bias motivation may include, but is not limited to, hatred, animosity, resentment, revulsion, contempt, unreasonable fear, paranoia, callousness, thrill-seeking, desire for social dominance, desire for social bonding with those of one's "own kind," or a perception of the vulnerability of the victim due to the victim's perceived protected characteristic, or association with a person who has an actual or perceived characteristic, including – but not limited to – disability or gender.

A hate crime includes any willful act that by force or threat of force:

- *Injures, intimidates, interferes with, oppresses, or threatens any other person in the free exercise or enjoyment of any legal right(s) or privilege(s); or,*
- *Defaces, damages or destroys the real or personal property of any other person for the purpose of intimidating or interfering with the free exercise or enjoyment of any legal right(s) or privilege(s), in whole or in part because of one or more of the actual or perceived characteristics of the victim, or the victim's association with a person as listed in subdivision (a) of Section 422.55 (see characteristics from Hate Crime Definition above).*

Statutory Definitions. California Penal Code Section 422.56 further defines the below characteristics and circumstances:

'Victim' includes but is not limited to, a person, individual, family, group, entity, community center, educational facility, office, meeting hall, place of worship, private institution, public agency, library, or other victim or intended victim of the offense.

**DEPARTMENT MANUAL
VOLUME IV
Revised by Special Order No. 32, 2020**

'Association with a person or group with [the] actual or perceived characteristics,' includes advocacy for, identification with, or being on the property owned, rented by, or adjacent to the individual, family, community center, educational facility, office, meeting hall, place of worship, private institution, public agency, library, or other entity, group, or person which has, or is identified with the persons who have the characteristics targeted.

'In whole or in part because of' means that the bias motivation must be a cause in fact of the offense, whether or not other causes also exist. When multiple concurrent motives exist, the prohibited bias must be a substantial factor in bringing about the particular result. There is no requirement that the bias be a main factor, or that the crime would not have been committed but for the actual or perceived characteristic. This subdivision does not constitute a change in, but is declaratory of, existing law under In re M.S. (1995) 10 Cal. 4th 698 and People v. Superior Court (Aishman) (1995) 10 Cal 4th 735.

'Gender' means sex, and includes a person's gender identity and gender related appearance and behavior whether or not stereotypically associated with the person's assigned sex at birth.

'Nationality' includes citizenship, country of origin, and national origin.

'Race or ethnicity' includes ancestry, color, and ethnic background.

'Religion' includes all aspects of religious belief, observance and practice and includes agnosticism and atheism.

'Sexual orientation' means heterosexuality, homosexuality, or bisexuality.

'Disability' includes mental and/or physical disability regardless of whether said disability is temporary, permanent, congenital, or acquired by heredity, accident, injury, advanced age, or illness.

Hate Incident-Defined. A hate incident is any non-criminal act including words directed against a person(s) based on that person's actual or perceived race, nationality, religion, sexual orientation, disability, gender, gender expression or gender identity that is not punishable under the California Penal Code or federal law. Hate incidents are differentiated from hate crimes because they do not violate criminal or civil law. Rather, such incidents are generally protected free speech under the First Amendment to the United States Constitution.

Hate incidents include, but are not limited to, epithets, distribution of hate material in public places, posting of hate material that does not result in property damage, and the display of hate material on one's own property. However, if over an extended period of time a person directs numerous bigoted, biased or prejudiced statements to the same person, such a pattern of conduct could rise to the level of unlawful criminal harassment or stalking under certain state laws, including but not limited to California Penal Code Section 646.9 - Stalking.

DEPARTMENT MANUAL
VOLUME IV
Revised by Special Order No. 32, 2020

In compliance with California Penal Code Section 422.87, officers shall specifically evaluate the following when investigating a crime or incident of suspected disability-bias:

- *Whether there is any indication that the suspect was motivated by hostility or other bias, occasioned by factors such as, but not limited to, dislike of persons who arouse fear or guilt, a perception that persons with disabilities are inferior and therefore “deserving victims,” a fear of persons whose visible traits are perceived as being disturbing to others, or resentment of those who need, demand, or receive alternative educational, physical, or social accommodations.*
- *Whether there is any indication that the suspect perceived the victim to be vulnerable and, if so, if this perception is grounded, in whole or in part, in anti-disability bias. This includes, but is not limited to, if a suspect targets a person with a particular perceived disability while avoiding other vulnerable-appearing persons such as inebriated persons or persons with perceived disabilities different than those of the victim, those circumstances could be evidence that the suspect’s motivations included bias against persons with the perceived disability of the victim and that the crime shall therefore be reported as a suspected hate crime and not a mere crime of opportunity.*

The general underreporting of hate crimes, especially anti-disability and anti-gender crimes is an identified issue in California. Underreporting is caused by victims not reporting hate crimes or hate incidents due to a number of factors, including fear of reprisal and the belief that law enforcement will not properly investigate them. The Department recognizes the prevalence of underreporting of hate crimes in the City, and its commitment to vigilantly identify, document, investigate and pursue prosecution of hate crimes is one of its strategic enforcement goals.

Employee’s Responsibilities. A Department employee, either civilian or sworn, who becomes aware of a crime or incident motivated by hatred or prejudice shall:

- Investigate the crime or incident in a timely manner *directly, or by way of notification to the appropriate personnel, entity and/or agency if:*
 - *Personally involved in the incident; or,*
 - *Made aware of the incident while off duty;*
- Notify the watch commander of the Area of occurrence;
- Notify Department Operations Center (DOC), *Communications Division* and document the notification in the related report;
- Complete the appropriate *incident, crime or arrest report(s)* and check the “MOTIVATED BY HATRED/PREJUDICE” box. If the incident does not constitute a specific crime, the Investigative Report (IR), Form 03.01.00, shall be titled “Hate Incident;”
- Complete the Hate Crime Supplemental Report, Form 03.01.05;
- Complete the Request for Confidentiality of Information, Form 03.02.00 (not required for Hate Incidents); and,

**DEPARTMENT MANUAL
VOLUME IV
Revised by Special Order No. 32, 2020**

- *Provide the victim with a Hate Crime Resource Pamphlet, Form 15.91.00, and a Marsy's Law pamphlet.*

Investigation by Field Units. Field units assigned to calls or discovering crimes or incidents motivated by hatred or prejudice shall:

- Investigate the crime or incident and take appropriate action;
- Telephonically notify *the watch commander* of the crime or incident;
- *Request a field supervisor to their location;*
- Complete an IR and/or Arrest Report, Form 03.01.00, on all crimes or incidents motivated by hatred or prejudice and check the "MOTIVATED BY HATRED/PREJUDICE" box;

Note: An IR shall be completed whenever an officer becomes aware of any incident, whether criminal or non-criminal, which meets the criteria of an incident motivated by hatred or prejudice. The unwillingness of the victim related to an incident motivated by hatred or prejudice to sign a report, or the absence of a victim to the incident, does not exempt officers from the requirement to complete an IR regarding the incident.

- Complete the Hate Crime Supplemental Report and attach it as the last two pages of the IR and/or Arrest Report;
- *Complete the Request for Confidentiality of Information, Form 03.02.00 (not required for Hate Incidents); and,*
- *Provide the victim with a Hate Crime Resource Pamphlet, Form 15.91.00, and a Marsy's Law pamphlet.*

If the circumstances of an incident do not provide the corpus delicti of a specific crime, *officers shall complete* a short form IR titled "Hate Incident." In cases where there is no specific crime, *officers shall not list persons possibly responsible for the incident as suspects, rather such persons shall be listed in the "Involved Persons" section of the IR.*

Note: Absent reasonable suspicion of a crime, officers do not have the legal authority to detain persons involved in a hate incident, where the individual is exercising his or her constitutional right to free speech.

Note: When investigating a crime, officers should remain mindful that there are, at times, individuals who call the police and make false or ill-informed claims of misconduct about persons they dislike or are biased against (e.g., ethnic and religious minorities, disabled individuals, homeless people). California Assembly Bill 1775 (enacted on September 30, 2020), reiterates the Ralph Civil Rights Act of 1976, whereby it not only prohibits, but also assesses civil and criminal penalties for instances when an individual knowingly and willfully threatens to notify, contacts, or files false claim with law enforcement personnel in furtherance of his or her bias(es) against another.

**DEPARTMENT MANUAL
VOLUME IV
Revised by Special Order No. 32, 2020**

Therefore, Department personnel must be vigilant in their investigations with presumptive victims and witnesses, so as not to engage in bias-motivated detentions, interrogations or arrests. As in all situations, officers are reminded to act professionally and accurately evaluate the facts and risks of each individual case. A biased individual who makes a report to the police can generate accusatory claims by police and outraged denials of wrongdoing by the accused – all of which can lead to unjust outcomes.

Watch Commander's Responsibilities. Upon notification that a crime or incident motivated by hatred or prejudice has occurred, the watch commander shall:

The CCHU has identified most of the unsolved cold homicide cases in the City of Los Angeles, dating back to the year 1969, and will reopen and assume investigative responsibility, based on solvability factors, which include, but are not limited to, the following:

- Cold homicide cases that originally lacked sufficient evidence for a criminal filing, but could now be proven through the application of DNA processing techniques;
- Cases with latent print evidence that were never processed or can be resubmitted to the Los Angeles Automated Fingerprint Identification System (LAFIS) and/or the Federal Bureau of Investigation's (FBI) Integrated Automated Fingerprint Information System (IAFIS), which did not exist or was not available when the crime occurred;
- Cases with ballistic evidence that were never processed and can now be submitted to CROSSFIRE/National Integrated Ballistics Information Network (NIBIN);
- Cases with modus operandi and/or signature aspects that were sufficiently unique to match with other cases captured in the FBI's Violent Crime Apprehension Program (ViCAP); and,
- Cases that were not prosecuted because identified suspects and/or witnesses could not be located or were uncooperative at the time of the initial investigation.

Note: If a homicide is still within the initial five-year period from the date of occurrence, RHD will have the authority to selectively assume the investigative responsibility for certain cases. If the case is assumed by RHD, a Follow-Up Investigation Report, Form 03.14.00, will be completed in accordance with Detective Operations Manual (DOM), Volume I, Section 120.00, and all protocols for the transfer of an investigation will apply.
