Comments for Public Posting: Instead of using parking lots at the ocean could we at least consider inland parking lots or space under freeway overpasses? I'm thinking of locations similar to where the Larder bakery is on Pico and National. Those locations are perfect for building out units and won't impede on families trying to get their children outdoors. Most of us can't afford beach front property so it's nice as a tax payer to access the waterway or parks safely.

Comments for Public Posting: Please come up with a better solution than to warehouse people in parks and beaches. We've had enough of the band aid solutions that do little to put a dent in the 60,000 plus people that sleep on the streets and impact the well being of where we live, work and pay our taxes.

Comments for Public Posting: This solution to help the homeless is not viable. It would negatively affect the beaches, the neighborhood and the homeless. What is needed is a well thought plan to provide the many services to deal with all their needs.

Comments for Public Posting: I strenuously oppose this measure. The homeless problem is rampant in our city and it poses severe health and safety threads to our neighbors and families. Turning our taxpayer-funded parks and beaches into homeless encampments will make the unusable for people in the city who pay for their upkeep. When homelessness is given support by the city in the form of an encampment on public ground, crime will rise, pollution will rise, and our neighborhoods will be less safe. This is not speculation. We have seen it happen firsthand in our neighborhoods and beaches. Westchester park and Venice beach are no longer safe to walk through alone as an adult much less for children. A real solution to the homeless problem will be a multi-faceted approach that works with private organizations who specialize in helping to get people off the streets rather than keeping them there. This proposal merely kicks the can down the road into our neighborhoods. Please, I beg you, do not approve this measure.

Comments for Public Posting: Motion 21-0350 requests the City to prepare a feasibility report studying the the use of public parks and beaches for homeless housing, specifically Will Rogers Beach and Dockweiler Beach, as well as parks in Westchester and Mar Vista. The BCC opposes the use of public parks and beaches for homeless housing and opposes this Motion unless Amended to remove public parks and beaches from consideration for homeless housing. Re: 21-0350 Oppose Unless Amended to Remove Public Parks and Beaches?? Dear Councilmembers:?? As a resident of Westchester, I oppose the use of public beaches and parks for the use of homeless housing and oppose 21-0350 unless amended to remove them from any feasibility studies. ??Public spaces were developed and codified for the recreation and enjoyment of all residents and should not be subject to the extensive environmental, sanitation and safety issues related to placing homeless shelters in those locations. Respectfully submitted,

Comments for Public Posting: Re: 21-0350 Oppose Unless Amended to Remove Public Parks and Beaches Dear Councilmembers: The Brentwood community represents 33,000 residents and 3 business districts covering 15 square miles of the City of Los Angeles. As a resident of Brentwood, I oppose the use of public beaches and parks for the use of homeless housing and oppose 21-0350 unless amended to remove them from any feasibility studies. Public spaces were developed and codified for the recreation and enjoyment of all residents and should not be subject to the extensive environmental, sanitation and safety issues related to placing homeless shelters in those locations. Respectfully submitted,

Comments for Public Posting: The reason I am objecting is because it places homeless people, many of whom have mental health and / or drug addiction problems, in an area with young children and families close by. It impacts both the residential and commercial activities currently at Fisherman's Village. We know from the homeless Bridge housing in Venice that the crime rate around the area has soared, including dramatic increases in robberies, assault with deadly weapons, auto theft, burglaries, aggravated assaults, etc.
