Comments for Public Posting: I strongly oppose creating homeless living spaces near beaches, parks, and residential areas. This is a band aid on a larger problem. Identify abandoned buildings such as the old Big Lots on Sepulveda near National Blvd. in West LA and down the street the old Albertson's on Sepulveda/Palms to repurpose to create sustainable long term living situations indoors with nearby metro transportation and local businesses for those less fortunate. The social services building is a few blocks away on Sepulveda at Pico for easy access and there are mental health services at Sepulveda and Olympic. Moving the unhoused from place to place will not solve anything. That is merely sweeping a problem under the rug until it burst open again. Please find better, safer solutions for the homeless and for the surrounding community. My neighborhood of West LA looks like a trash dump on many corners and is many times deemed unsafe to walk near underpasses or other past homeless encampments. Please restore our great city to a place of safety, cleanliness, and peace and help the homeless with the larger problem of permanent housing, mental health services, counseling, and job placement. Thank you.

Comments for Public Posting: I do NOT support this motion suggesting we build homeless villages throughout Los Angeles at our public beaches, parks and within close proximity to our residential communities. No Way!!!!

Comments for Public Posting: Since our elected officials created this problem, I suggest we put the shelters on their private property. If something happens to one of my children because of this petition passing, who do I get to sue? I think the official that put this together should be liable.

Comments for Public Posting: Placing displaced people in housing in close proximity to where children play is a recipe for disaster. Please provide your home address where your children reside and that is where I endorse a homeless encampment to be built.

Comments for Public Posting: Starter Template: "I OPPOSE the proposal to allow encampments on Beaches & Parks. Our PUBLIC Beaches & Parks were not intended for encampments. This will increase crime, decrease child safety & increase pollution in our public spaces & ocean. Councilman Bonin admitted that he is not in a position to increase services, increase enforcement of criminal behavior, nor address the larger root issues of homelessness such as mental illness, addiction, job training, job placement, etc. Encampments should be allowed in the many underutilized City owned properties."
