Dear LA City Council,

The stress that council Mike Bonin has created by proposing such a ridiculous proposal is uncalled for and unacceptable.

While I do believe Homelessness and Poverty should be addresses, I do NOT believe the use of beach parking lots is a realistic approach. Perhaps there is vacant land that the city/county owns in less populated and under-utilized areas that the City/County should focus on.

BEACH PARKING LOTS are not the proper place for homeless housing. Especially when those parking lots are right next to the fast moving PCH and directly across the street from the BLUFFS, which are in danger from fires. Beach parking lots should be maintained for the people from all over the City who come here to rest and relax and go to the beach! There are many other proper areas in our vast City where homeless people can be housed and helped with services for mental issues, alcoholism, drug problems etc. Beach Parking Lots are for beach-goers! AGAINST 21-0350 (CD 11)

Best,

Cliff
