Honorable Members of the PLUM Committee:

I urge you to support motion CF 21-0777, and stand with thousands of Los Angelenos who actively oppose this unnecessary commercial hotel project in a residential community that sits in a high fire severity zone. Your colleague Councilmember Paul Koretz has heard the pleas of his constituents and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city.

This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

Leaders like yourselves have protected the Santa Monica Mountains — and the zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today.

With gratitude,  
Stephen Ginsburg

Honorable Members of the PLUM Committee:

I urge you to support motion CF 21-0777, and stand with thousands of Los Angelenos who actively oppose this unnecessary commercial hotel project in a residential community that sits in a high fire severity zone. Your colleague Councilmember Paul Koretz has heard the pleas of his constituents and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city.

This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

Leaders like yourselves have protected the Santa Monica Mountains — and the zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today.

With gratitude,

Honorable Members of the PLUM Committee:

I urge you to support motion CF 21-0777, and stand with thousands of Los Angelenos who actively oppose this unnecessary commercial hotel project in a residential community that sits in a high fire severity zone. Your colleague Councilmember Paul Koretz has heard the pleas of his constituents and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city.

This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation and the Tree People

This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

Leaders like yourselves have protected the Santa Monica Mountains — and the zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today.

With gratitude,

Honorable Members of the PLUM Committee: I urge you to support motion CF 21-0777, and stand with thousands of Los Angelenos who actively oppose this unnecessary commercial hotel project in a residential community that sits in a high fire severity zone. Your colleague Councilmember Paul Koretz has heard the pleas of his constituents and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city. This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning. We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Honorable Members of the PLUM Committee:

I urge you to support motion CF 21-0777, and stand with thousands of Los Angelenos who actively oppose this unnecessary commercial hotel project in a residential community that sits in a high fire severity zone. Your colleague Councilmember Paul Koretz has heard the pleas of his constituents and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city.

This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

Leaders like yourselves have protected the Santa Monica Mountains — and the zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today.

With gratitude,

Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

Leaders like yourselves have protected the Santa Monica Mountains — and the zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today.

With gratitude,

Honorable Members of the PLUM Committee:

I am a member of the impacted community and I urge you to support motion CF 21-0777 because there is literally no public minded reason to support this development other than enriching a developer at the expense the environment and our community. This developer isn't doing much to engage our community, protect the environment, or respect some of the last remaining urban beauty in Los Angeles — but he is doing all he can to hire high priced lobbyists and curry favor within city hall.

Your colleague Councilmember Paul Koretz has heard the pleas of his constituents and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city.

This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

Leaders like yourselves have protected the Santa Monica Mountains — and the zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today.

With gratitude,

Honorable Members of the PLUM Committee:

I urge you to support motion CF 21-0777, and stand with thousands of Los Angelenos who actively oppose this unnecessary commercial hotel project in a residential community that sits in a high fire severity zone. Your colleague Councilmember Paul Koretz has heard the pleas of his constituents and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city.

This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

Leaders like yourselves have protected the Santa Monica Mountains — and the zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today.
