Honorable Members of the PLUM Committee:

I urge you to support motion CF 21-0777, and stand with thousands of Los Angelenos who actively oppose this unnecessary commercial hotel project in a residential community that sits in a high fire severity zone. Your colleague Councilmember Paul Koretz has heard the pleas of his constituents and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city.

This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

Leaders like yourselves have protected the Santa Monica Mountains — and the zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today.

With gratitude,
Anya Rex

AE

Honorable Members of the PLUM Committee:

I urge you to support motion CF 21-0777, and stand with thousands of Los Angelenos who actively oppose this unnecessary commercial hotel project in a residential community that sits in a high fire severity zone. Your colleague Councilmember Paul Koretz has heard the pleas of his constituents and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city.

This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

Leaders like yourselves have protected the Santa Monica Mountains — and the zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today.

With gratitude,
Alan and Beverly Engelberg

Honorable Members of the PLUM Committee: I urge you to support motion CF 21-0777, and stand with thousands of Los Angelenos who actively oppose this unnecessary commercial hotel project in a residential community that sits in a high fire severity zone. Your colleague Councilmember Paul Koretz has heard the pleas of his constituents and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city. This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning. We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment. Leaders like yourselves have protected the Santa Monica Mountains — and the zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today. With gratitude, Raymond Fouladian 9767 Blantyre Dr Beverly Hills, CA 90210

LW

Honorable Members of the PLUM Committee:

I urge you to support motion CF 21-0777.

Please stand with the thousands of Angelenos who actively oppose this unnecessary and unsafe commercial hotel project in a residential community that sits within a CAL FIRE-mapped Very High Fire Hazard Severity Zone (VHFHSZ).

Your colleague, Councilmember Paul Koretz, has heard the pleas of his constituents and has made a motion to recommend that the Director of Planning bring an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city.

This project would create an environmental disaster, open the door to a future of uncontrolled commercial development in the City's precious natural resource of the Santa Monica Mountains, and create additional safety hazards in an area already subject to increasing wildfire risks as our climate changes. This is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz; both of the Los Angeles Mayoral Candidates, Karen Bass and Rick Caruso; and both CD5 City Council Candidates, Katy Young Yaroslavsky and Sam Yebri -- all of whom have vocally and unequivocally opposed this project.

Every major environmental group in the region, as well as local neighborhood organizations, stands with our community in opposing this project — among them, the Santa Monica Mountains Conservancy, the Sierra Club Santa Monica Mountains Task Force, the Hillside Federation, the Bel Air-Beverly Crest Neighborhood Council, the Benedict Canyon Association, and Tree People.

Please join the thousands of Los Angeles citizens who need your support in bringing an end to this scandalous and highly inappropriate proposed General Plan Amendment.

We urge you to protect the natural resources that remain in our City, and support the Koretz motion today.

Sincerely,

Linda Whitford, Ph.D.
Bel Air

E

Honorable Members of the PLUM Committee:

I urge you to support motion CF 21-0777, and stand with thousands of Los Angelenos who actively oppose this unnecessary commercial hotel project in a residential community that sits in a high fire severity zone. Your colleague Councilmember Paul Koretz has heard the pleas of his constituents and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city.

This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

Leaders like yourselves have protected the Santa Monica Mountains — and the zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today.

With gratitude,
Elise Perer

Honorable Members of the PLUM Committee:

I urge you to support motion CF 21-0777, and stand with thousands of Los Angelenos who actively oppose this unnecessary commercial hotel project in a residential community that sits in a high fire severity zone. Your colleague Councilmember Paul Koretz has heard the pleas of his constituents, including myself, and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city.

This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning. I am also very concerned about the likely additional fire risk, heavier traffic, and resulting increases in crime to our neighborhood.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project.

Thank you very much.

Sincerely,
Carolyn Hunt Trattner

Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

Leaders like yourselves have protected the Santa Monica Mountains — and the zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today.

Honorable Members of the PLUM Committee:

Please....I urge you to support motion CF 21-0777, and stand with thousands of Los Angelenos who actively oppose this unnecessary commercial hotel project in a residential community that sits in a high fire severity zone. Your colleague Councilmember Paul Koretz has heard the pleas of his constituents and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city.

Everyone knows and it is not a mystery or anything remotely logical.

Come drive Benedict Canyon in the morning or afternoon. Furthermore, if Benedict gets over crowded and people the take Coldwater or Beverly Glen, it will be a total traffic disaster.

Of course a solution is a freeway through the canyons. Maybe a four lane. We just have to stop believing the developer who have already made our wonderful city and country a traffic nightmare.

I beg you, this is ludicrous to continue even considering this preposterous proposal. A new hotel is going up in Beverly Hills, the Beverly Hilton will expand, etc. We the People of this great city and County do not need more hotels and especially in a residential area or where our last frontier for our wildlife resides.

This project would create an environmental disaster, a traffic disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

Leaders like yourselves have protected the Santa Monica Mountains and should continue to do so. We have so much to protect and Mother Nature is already so upset.

The zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today.

With gratitude,
Martin Pichinson

Honorable Members of the PLUM Committee:

I urge you to support motion CF 21-0777, and stand with thousands of Los Angelenos who actively oppose this unnecessary commercial hotel project in a residential community that sits in a high fire severity zone. Your colleague Councilmember Paul Koretz has heard the pleas of his constituents and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city.

This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

Leaders like yourselves have protected the Santa Monica Mountains — and the zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today.

With gratitude,

This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.

We urge you to stand with Councilmember Koretz, both Los Angeles Mayoral Candidates Karen Bass and Rick Caruso, and both CD5 City Council Candidates Katy Young Yaroslavsky and Sam Yebri all of whom have vocally and unequivocally opposed this inappropriate project. Every major environmental group in the region stands with our community in opposing this project — among them are the Hillside Federation, Tree People, The Santa Monica Mountains Conservancy, the Bel Air Beverly Crest Neighborhood Council, the Benedict Canyon Association, and the Sierra Club Santa Monica Mountains Task. Please join the thousands and thousands of citizens of Los Angeles who need your support in ending this proposed General Plan Amendment.

Leaders like yourselves have protected the Santa Monica Mountains — and the zoning regulations that have been essential to the Los Angeles region — for generations. We urge you to continue that legacy and approve the Koretz Motion today.

With gratitude,
Jackie Canton

Honorable Members of the PLUM Committee:

I urge you to support motion CF 21-0777, and stand with thousands of Los Angelenos who actively oppose this unnecessary commercial hotel project in a residential community that sits in a high fire severity zone. Your colleague Councilmember Paul Koretz has heard the pleas of his constituents and he has made a motion to recommend that the Director of Planning brings an end to a proposed General Plan Amendment that would have a severe impact on the environment and set a dangerous precedent for our city.

This project would create an environmental disaster, open the door to uncontrolled commercial development in the precious natural resource of the Santa Monica Mountains, and create real life-safety hazards. At this moment of unprecedented climate crisis, this is no time to destroy decades of careful zoning and planning.
