**Comments for Public Posting:** Hello, Here are my thoughts regarding plans for the LA Zoo. At a time of climate chaos and critical biodiversity loss, it seems insane to cut down trees and remove native habitat. • Don't destroy 23 acres of native habitat, including 227 LA City-protected trees • The full project is counter to City priorities, including the Biodiversity Report and the LA Sustainability Plan • The LA Zoo will still benefit from zoo animal care improvements and many visitor amenities if Alternative 1 is implemented Thank you,
