**Comments for Public Posting:** Dear representatives of the people of Los Angeles. You are single-handedly ruining small businesses. You are putting us in a very uncomfortable position. Do you want to be left with nothing but big corporations and watch the small mom and pop stores shut down? If this wasn't your intention, then what would you be doing differently? People do not like being asked to show vaccine cards, people do not like being asked to put on a mask. People are born with their god-given rights and freedom happens to be one of them. The people will govern themselves, let them choose. This is complete government overreach. Do you not see small businesses closing everywhere you look? Do not enforce this. We are no longer scared of covid, we have moved on. I suggest you follow the science and move on too. Stand for the resident's right to choose. Stand with us, not against us. Stand for freedom.

**Comments for Public Posting:** Council members, it's time Los Angeles drop the vaccine check, it's clear that anyone that wants to be protected by the vaccine has chosen to receive it from low to high income, every has access to it. Let people choose and stop hurting small business with this ridiculous rule.

**Comments for Public Posting:** Oppose vaccine mandates. Where there is risk as with this vaccine, there must be a choice.
