Comments for Public Posting: COVID - 19 is not a threat to public health. The number of "cases" has been grossly exaggerated. How can anyone claim to know the number of cases when we now know the very test that was used to diagnose said cases was never designed to diagnose disease. The inventor of the PCR test, Kari Mullis, stated that the PCR test was never designed to diagnose for disease. Therefore, no one can claim to truly know how many cases of COVID - 19 actually exists. In addition, we know the fraud, or you should know, and corruption behind the number of cases is ubiquitous. The number of "cases" is fraudulent because a positive test does not equal a case. In addition to the number of false positives claimed as cases. The bottomline is the number of COVID cases has been grossly exaggerated to instill fear and panic in the citizens of our world and the legislation should know the truth. This motion claims that the unvaccinated are the cause of the increase in those contracting the delta variant. Again False and misleading information. Israel has the highest number of citizens vaccinated and the highest number of delta variant cases. This "vaccine" cannot make the claim that it prevents contraction of COVID because it does not prevent contraction. In addition, those vaccinated still spread the disease and contract the disease. No one can claim to know who is "spreading" COVID 19 because there are no true studies to compare who and who is not spreading the disease. How can lawmakers make such a claim to pretend to know who is spreading this delta variant - this is nothing but pure fear based mongering and a narrative that is not based on science but is based on false premises throughout this entire motion. The unvaccinated do not make their communities vulnerable because no one is truly immune from this disease, except maybe those who have already contracted it. No one does not spread this disease vaccinated or unvaccinated. This "vaccination" is not a vaccination. It is gene therapy. It has not been approved by the FDA and studies have not and cannot be conducted to test the truth of the efficacy and safety of this "vaccination" because it was implemented at a "warp speed." The results of the initial trials are in. Subjects, those who have already gotten the "vaccination," are dying, suffering severe and life changing adverse reactions, continuing to contract and spread COVID- 19 SARS Co -V - 2 and the delta variant. To force citizens to be injected with a toxic

concoction of unknown origins that kills and maims is a crime against humanity and the citizens of Los Angeles County. Please do not allow such a vicious and draconian motion to become rule of law. It is cruel and not for the benefit of society but will add to its detriment.

Comments for Public Posting: Hello People of Los Angeles, This message pertains to Item 19. I am writing today because of my grave concern regarding vaccine passports in the city. This measure poses a serious threat to our most basic rights, including medical privacy and medical freedom. A person's medical records and their health choices are their own private business. At this point, anybody who desires a vaccine should have been able to get one. If they are working properly, they should be protecting the vulnerable population from death, and this is exactly what the numbers tell us. The idea that we are considering requiring an experimental injection to participate in society is completely insane. It will create a medical caste system. It will create a two tiered society, where the unvaccinated are cast out and villainized. People have many different, legitimate reasons for not taking this shot, and excluding them from society is just plain wrong. For instance, we are completely ignoring scientifically proven natural immunity. The CDC even suggests that people do not take the vaccine for months after getting covid. Are we going to exclude those people from society too? If the vaccine works, let it do it's job, and let the people get back to their lives. In addition to the moral obligations, this measure would have a hugely detrimental effect on small businesses. So many of these entrepreneurs have gone out of business because of unfair, unscientific covid policies already. Now we are considering adding more headaches, more costs, and more restrictions to an already decimated ESSENTIAL piece of our city. Stop suffocating the people, the city and our small businesses with oppressive measures. This would be one of the worst public policy mistakes in our generation. Alec Falle Hamilton

Comments for Public Posting: Please note that I am against 21-0878 and believe that this should not pass. We should not be requesting that individuals disclose medical/vaccination status to enter indoor spaces. It is unconstitutional and infringes on our rights as US Citizens. Our rights and freedoms do not end because we are in a state of emergency. We should not make it difficult for individuals to live their lives as a member of society, especially when we are still contributing towards paying our taxes and the economy.

Comments for Public Posting: I wish to express my opinion about vaccination requirements for indoor venues including but not limited to retail stores, theaters, stadiums, and other indoor spaces. I'm opposed to this requirement since myself and other family members are at risk to developing complications with the Covid-19 vaccination due to blood clotting, shingles history, heart and pulmonary issues. Many people have underlying issues that are advised not to be vaccinated and have no choice but to risk further health issues.

Comments for Public Posting: To whom It may concern (which is all of humanity) I am writing today to let my voice be heard in opposition to this tyrannical measure being proposed to the city council. I am Listing the reasons I oppose below: 1) This measure has no Merit in a free society as outlined by both the constitution of our country, and on a global level the Nuremberg code established after world war 2. Link here: <https://ori.hhs.gov/content/chapter-3-The-Protection-of-Human-Subjects-nuremberg-code-directives-human-experimentation> 2) This measure will undoubtedly only cause harm to businesses due to lack of revenue in respect to the over 50% of LA city and county not vaccinated, and the complete destruction of the tourist industry in which a lot of the businesses impacted by this measure rely on for revenue. 3) This is an attack on individual rights as we know them, not only for medical decisions, but also for any rights that can just be “taken away” yet again by an over reaching government body. 4) Are businesses now supposed to be gate keepers of people’s personal medical information? Are they even trained? If they are to be so responsible to filter through every customers medical records, are they then themselves ordered to show every customer their own vaccination records? It is only fair right? 5) Science has shown that the Vaccine has actually ramped up the Infection rates of the So called “Delta” variant. There is no public study on past Infection immunity, which has been scientifically proven to show the best set of protections against Covid 19, Delta, and the next one they are creating in a lab somewhere. That being said wouldn’t a positive antibody that result on your “digital” societal passport then be equally as good as the gene therapy being peddled as a vaccine? 6) The so called Vaccine isn’t even that. It’s still an experimental gene therapy. Not certified. 7) The fact that science has shown that vaccinated and unvaccinated people both have the same ability to spread Covid 19 and variants. There is now no known benefit to having the vaccine. None. In respect to business owners who rely on revenue from both sides of this debate, I implore you to consider this measure dead on arrival. A no vote saves business already struggling to a) find employees willing to work b) widens the net for both employees and revenue creation. Respectfully Jason Hamilton

Comments for Public Posting: I work at a hospital. The COVID-19 floor is full again. And guess what? Every single COVID-19 patient at the hospital was NOT vaccinated. We don't have any vaccinated patients. Vaccines work! All the people commenting and opposing this mandate are one or more of the following: selfish, uneducated, ignorant, believe in crazy conspiracy theories, do not believe in SCIENCE, are unable or unwilling to verify facts and thus are spreading false information, and too afraid of and obsessed with their "freedom" being taken away. This is not a matter of freedom. It is a matter of public health and safety for all. It's supposed to be "we the people," not "me the person" and we need to act accordingly to help protect each other. The same way how requiring children to be vaccinated to attend public school, or not allowing things like texting and intoxication while driving are not issues of "taking away our freedom." This is an issue of public safety. There are people who are unable to get vaccinated and vulnerable. They deserve freedom too. They deserve freedom. Our children deserve freedom. We need to help protect them. Since there are sadly so many eligible people who are not responsible or smart enough to get vaccinated on their own, as I am seeing in all the ridiculous comments opposing this mandate, we need to protect our public places. Thank you for your time and consideration.

Comments for Public Posting: I am strongly against a vaccine mandate. I am concerned about the health and safety of my family. I should be allowed to make my own decision on whether or not I decide to be part of an experimental study. Please let us make our own decisions about our health. There is evidence on both sides that we need to review and make our own decisions. I respect people choice if they decide to get the vaccine and they should respect my decision if I decide not to. If you make the vaccine mandatory please know that I will take to the streets to protest this overstep of government.

Comments for Public Posting: It is imperative that you vote not to force a vaccine mandate upon the American people. Give Americans their freedom & liberty to choose what is best for themselves. The pledge of Allegiance states freedom and liberty for ALL!! not just the vaccinated. It is extremely morally wrong and unjust to create a two-tier society of vaccinated & unvaccinated people. Furthermore it is horrific to tell people they must enforce this ideology in their stores business ect . Segregation is not something that should be repeated. This idea is no different than telling people they must drink from a separate water fountain or Telling someone they can't enter this establishment or that building because of their race or gender. This idea is discrimination & wrong. simply replacing the word race or gender with vaccinated or unvaccinated Is still morally and constitutionally wrong and quite simply un-American

Comments for Public Posting: Strongly oppose requiring vaccine passports. It's a violation of international codes that prohibit any form of coercion to make individuals participate in a medical experiment. People should strive to demand more quality from their governments and public health authorities. Emergency approved vaccines shouldn't be enforced and doing so places people in a vulnerable position since vaccine makers are protected [see attachment] and people can do little in case of adverse reactions. I stand for freedom of choice and draconian measures

Can vaccine companies be sued for adverse reactions or inadequate protection against the coronavirus?

No.

The vaccine makers are protected, until at least 2024, under the [Public Readiness and Emergency Preparedness Act](#). The law allows the U.S. Health and Human Services Department to give legal immunity to providers of critical treatments and vaccines in emergency situations unless there is “willful misconduct.”

That means the makers can't be sued for losses — including death — relating to the administration or use of covered countermeasures against COVID-19.

The protection is sweeping and also extends to health-care providers who administer the shots, local and federal government and distributors.

Comments for Public Posting: I do not support these radical actions which deny freedom of citizens and deny citizens the right take personal responsibility for their own health care, after all if others choose to vaccine themselves they have nothing to fear from unvaccinated that's the SCIENCE! In addition, there is no mention of those with natural immunity. The risk of vaccination of those with natural immunity can be life threatening. There is no evidence to validate these actions. Once again, a knee jerk action will have much more serious consequences. I say "No", to this crazy, unconstitutional mandate!

Comments for Public Posting: A vaccine mandate is harmful to society. It is already happening in countries like France and Israel. It's a Nazi form of government. The vaccine is not tested and it is harmful and has caused over 50K deaths. It causes the body to produce the proteins that could cause further complications down the line. I personally know people who have died from the vaccine and have not felt right since they have had it. We don't need a medical apartheid.

Comments for Public Posting: I was shocked when I heard the L.A. was considering coercion to try and force people to get injected with biological pus and toxic chemicals, risking their lives in order to live as they have a right to live in what is still a democracy. Coercion is illegal and vaccine passports are discriminatory. I'm sick to death of people who have been fear mongered and lied to by drug companies who seek to vaccinate and control each and every one of us. Have any of you politicians heard of the Constitution? Do you know that we have the right to do as we wish with our own bodies and not have medical experiments forced upon us? If you have the nerve to try and inflict this horrendous policy upon the citizens of L.A. there will be a major pushback. We will not stand for having our civil liberties trampled upon and watching you shred the Constitution. This is unacceptable. For once, can you politicians do the right thing instead of acting like you're bought and paid for by the drug companies?

Comments for Public Posting: Item 19 "CONSIDERATION OF MOTION (MARTINEZ – O'FARRELL – HARRIS-DAWSON – RAMAN) relative to COVID-19 vaccination requirements for eligible individuals entering indoor spaces." Violated our California Rights, our USA Constitution protected rights to equal protection under the law, our Patient Bill of Rights; to refuse Treatment, Refuse medical experimentation, and right to refuse participation in research. In addition, the Language in the motion Calling Unvaccinated people "Dangerous" to children, is in direct violation of the Department of Fair Employment and Housing's Unruh Civil Rights Act which outlaws discrimination in housing and public accommodations based on personal characteristics including Genetic information and Medical Condition. The Unruh Civil Rights Act is meant to cover all arbitrary and intentional discrimination by a business establishment. Businesses included in the Unruh Act are public agencies, theaters, hotels, restaurants, nonprofits, and housing. This motion for ordinance violates the public's freedoms in a way that cannot be tolerated. Please stroke down this item and never consider doing this to us again. https://www.dfeh.ca.gov/wp-content/uploads/sites/32/2017/12/DFEH_UnruhFactSheet.pdf

PUBLIC ACCESS DISCRIMINATION AND CIVIL RIGHTS

FACT SHEET

DFEH

THE UNRUH CIVIL RIGHTS ACT PROVIDES PROTECTION FROM DISCRIMINATION BY ALL BUSINESS ESTABLISHMENTS IN CALIFORNIA

The unruh civil rights act provides protection from discrimination by all business establishments in California, including housing and public accommodations. The term “business establishments” may include governmental and public entities as well.

The language of the Unruh Civil Rights Act specifically outlaws discrimination in housing and public accommodations based on sex, race, color, religion, ancestry, national origin, disability, medical condition, genetic information, marital status, sexual orientation, citizenship, primary language, or immigration status. However, the California Supreme Court has held that protections under the Unruh Act are not necessarily restricted to these characteristics.

The Act is meant to cover all arbitrary and intentional discrimination by a business establishment on the basis of personal characteristics similar to those listed above.

The law also protects the rights of individuals with disabilities to use streets, highways, and other public places; public conveyances; places of public accommodation, amusement or resort, and housing accommodations; and guide, signal, or service animals or alternative accommodations for persons with disabilities. The law clearly distinguishes between the right of a business to refuse service based on conduct as opposed to personal characteristics. The misconduct or disruptive behavior of particular individuals may be grounds for refusing to do business with them or denying them services.

BUSINESSES COVERED UNDER THE LAW

The Unruh Civil Rights Act requires “[f]ull and equal accommodations, advantages, facilities, privileges or services in all business establishments.” This includes, but is not limited to, the following places:

- Hotels and motels
- Nonprofit organizations that have a business purpose or are a public accommodation
- Restaurants
- Theaters
- Hospitals
- Barber shops and beauty salons
- Housing accommodations – including rental housing and shared-economy housing
- Public agencies
- Retail establishments

SENIOR HOUSING

The Unruh Civil Rights Act contains provisions regulating the establishment of specialized housing designed to meet the physical and/or social needs of senior citizens.

Housing that meets these requirements is exempt from the familial status and age provisions of the Fair Employment and Housing Act and may, therefore, legally exclude households with children. Similar provisions are provided for senior citizen mobile home parks under federal fair housing laws.

PUBLIC ACCESS DISCRIMINATION AND CIVIL RIGHTS

FACT SHEET

DFEH

EXAMPLES OF UNRUH ACT VIOLATIONS

The following examples represent potential violations of the Unruh Civil Rights Act. Other situations may also qualify as Unruh Act violations depending on the specific circumstances:

- A hotel charges a \$100 service fee only to guests of a certain racial group but not to other guests of the hotel
- A doctor refuses to treat a patient who has been diagnosed as HIV positive
- A same-sex couple is denied a table at a restaurant even though there are vacant tables available and other customers are seated immediately
- A visually impaired individual is told their service animal is not allowed in a store
- Charging men and women different prices for comparable services, such as clothing alterations, haircuts, dry cleaning, or drinks at a restaurant or bar
- Promoting a business with “ladies night” discounts on admission and services

WHAT DFEH DOES

The Department of Fair Employment and Housing (DFEH) enforces this law by:

- 1. Investigating harassment and discrimination complaints;**
- 2. Assisting involved parties to voluntarily resolve complaints;**
- 3. Prosecuting violations of the law; and**
- 4. Educating Californians about the Unruh Act by providing written materials and participating in seminars and conferences.**

If you think you have been a victim of discrimination based on a protected class, file a complaint. A DFEH complaint must be filed within one year from the date of the last act of discrimination.

If you have a disability that requires a reasonable accommodation, the DFEH can assist you by scribing your intake by phone or, for individuals who are Deaf or Hard of Hearing or have speech disabilities, through the California Relay Service (711), or you can contact us below.

Comments for Public Posting: Dear council, Thank you for allowing us to contribute in this decision making process. My family and I have lived in Woodland Hills for approximately 15 years. We are all for people getting vaccinated and hope that people can come to the decision through deep careful thought; as is the case with many of our family and friends. However, the closer we get to mandating an injection into the human body against the will of a person the more cautious we should be. Besides the fact that this would be a form of segregation and unnecessary pressure it would be a negative impact to businesses And residents once again after a destructive and difficult year. People need to be allowed to come to the conclusion that the vaccine is “good” on their own. Disallowing anyone for any reason to be a part of aspects of society is a step backwards for our city, our state and our country. We have worked for decades to undo this kind of segregation. Coming from a family of doctors and scientists I will reiterate the fact that the science behind a possible decision like this would not support such simple minded action. Continue to prove that the vaccine is safe and that the risks associated with the vaccine are minimal in comparison to the disease itself and people Will make the right choice overtime. We need to be patient and bear with one another not exclude them from society while they are still in process. Thank you again, Eddie R

Comments for Public Posting: Vaccine mandates in order to participate in life is discrimination and a clear violation of liberty. In every civilization in history that has singled out a particular group of people and oppressed them, it was only a matter of time until other groups of people were treated in the same way. If you think they won't come for you, you're mistaken. If a person wants to maintain and enjoy the freedoms of society, he better start protecting rights for ALL citizens, not just the ones he favors. This is wrong and completely against American values.

Comments for Public Posting: 21-0878-- CONSIDERATION OF MOTION (MARTINEZ – O’FARRELL – HARRIS-DAWSON – RAMAN) relative to COVID-19 vaccination requirements for eligible individuals entering indoor spaces. Strongly oppose 21-0878 on the grounds that such measures are unnecessary and unjustified. The injections are still in trial stage and requiring their use marks a gross overreach by government, in addition to being medically unethical. The state simply has no right to compel medical procedures, not to mention experimental one. The suggestion is repugnant on its face. Many people have suffered extremely adverse effects and death from the injection. With no legal recourse and insurance unwilling to pay for the damages from experimental procedures, requiring injection poses great financial and health risks for those unwilling to assume them. These damaged individuals will also pose a great burden on city and state services.

Comments for Public Posting: I am writing about the vaccine mandate. There are many who are against this mandate as this is not a vaccine. It is an experimental gene therapy used for emergency use only. No one not even doctors know the long term effects of this "vaccine". There are many people who have had covid and have the anti-bodies. Those anti-bodies are higher and more effective than the ones from the shot. I believe this is an overreach of power. This is a country "Of the people, by the people and for the people". Our founding Fathers never meant for the government to dictate what we must put into our bodies. I respectfully ask that you vote NO.

Comments for Public Posting: I'm concerned that this is being considered. This is a form of medical apartheid wherein those who are waiting for the science to prove out on vaccine safety will be penalized for that. Also, the fact that people are being subjected to punitive measures for abstaining from what amounts to a forced medical procedure in order to participate in routine activities. Keep in mind these vaccines are not FDA APPROVED. They were only allowed as an emergency measure. And I'm sure we're all aware of what's happened when the FDA has rushed approvals of drugs in the past. Also, there is the issue of "INFORMED CONSENT". Many vaccine recipients were not told of the possible side effects of these vaccines. In a study (<https://onlinelibrary.wiley.com/doi/10.1111/ijcp.13795>), in The International Journal of Clinical Practice states --- Results of the study: COVID-19 vaccines designed to elicit neutralising antibodies may sensitise vaccine recipients to more severe disease than if they were not vaccinated. Vaccines for SARS, MERS and RSV have never been approved, and the data generated in the development and testing of these vaccines suggest a serious mechanistic concern: that vaccines designed empirically using the traditional approach (consisting of the unmodified or minimally modified coronavirus viral spike to elicit neutralising antibodies), be they composed of protein, viral vector, DNA or RNA and irrespective of delivery method, may worsen COVID-19 disease via antibody-dependent enhancement (ADE). This risk is sufficiently obscured in clinical trial protocols and consent forms for ongoing COVID-19 vaccine trials that adequate patient comprehension of this risk is unlikely to occur, obviating truly informed consent by subjects in these trials. We aren't being given the whole risk picture on these vaccines. And until thoroughly tested we can't just, in short, criminalize being non-vaccinated until we're all sure they're approved and safe. Conclusions drawn from the study and clinical implications: The specific and significant COVID-19 risk of ADE should have been and should be prominently and independently disclosed to research subjects currently in vaccine trials, as well as those being recruited for the trials and future patients after vaccine approval, in order to meet the medical ethics standard of patient comprehension for informed consent.

Informed consent disclosure to vaccine trial subjects of risk of COVID-19 vaccines worsening clinical disease

Abstract

Aims of the study: Patient comprehension is a critical part of meeting medical ethics standards of informed consent in study designs. The aim of the study was to determine if sufficient literature exists to require clinicians to disclose the specific risk that COVID-19 vaccines could worsen disease upon exposure to challenge or circulating virus.

Methods used to conduct the study: Published literature was reviewed to identify preclinical and clinical evidence that COVID-19 vaccines could worsen disease upon exposure to challenge or circulating virus. Clinical trial protocols for COVID-19 vaccines were reviewed to determine if risks were properly disclosed.

Results of the study: COVID-19 vaccines designed to elicit neutralising antibodies may sensitise vaccine recipients to more severe disease than if they were not vaccinated. Vaccines for SARS, MERS and RSV have never been approved, and the data generated in the development and testing of these vaccines suggest a serious mechanistic concern: that vaccines designed empirically using the traditional approach (consisting of the unmodified or minimally modified coronavirus viral spike to elicit neutralising antibodies), be they composed of protein, viral vector, DNA or RNA and irrespective of delivery method, may worsen COVID-19 disease via antibody-dependent enhancement (ADE). This risk is sufficiently obscured in clinical trial protocols and consent forms for ongoing COVID-19 vaccine trials that adequate patient comprehension of this risk is unlikely to occur, obviating truly informed consent by subjects in these trials.

Conclusions drawn from the study and clinical implications: The specific and significant COVID-19 risk of ADE should have been and should be prominently and independently disclosed to research subjects currently in vaccine trials, as well as those being recruited for the trials and future patients after vaccine approval, in order to meet the medical ethics standard of patient comprehension for informed consent.

1 | THE RISK OF ADE IN COVID-19 VACCINES IS NON-THEORETICAL AND COMPELLING

Vaccine-elicited enhancement of disease was previously observed in human subjects with vaccines for respiratory syncytial virus (RSV),

dengue virus and measles.¹ Vaccine-elicited enhancement of disease was also observed with the SARS and MERS viruses and with feline coronavirus, which are closely related to SARS-CoV-2, the causative pathogen of COVID-19 disease. The immune mechanisms of this enhancement have invariably involved antibodies, from direct antibody-dependent enhancement, to immune complex formation by antibodies, albeit accompanied by various coordinated cellular responses, such as Th2 T-cell skewing.²⁻⁷ Notably, both neutralising and non-neutralising antibodies have been implicated. A recent study revealed IgG-mediated acute lung injury in vivo in macaques infected with SARS that correlated with a vaccine-elicited, neutralising antibody response.⁸ Inflammation and tissue damage in the lung in this animal model recapitulated the inflammation and tissue damage in the lungs of SARS-infected patients who succumbed to the disease. The time course was also similar, with the worst damage occurring in delayed fashion in synchrony with ramping up of the immune response. Remarkably, neutralising antibodies controlled the virus in the animal, but then would precipitate a severe, tissue-damaging, inflammatory response in the lung. This is a similar profile to immune complex-mediated disease seen with RSV vaccines in the past, wherein vaccinees succumbed to fatal enhanced RSV disease because of the formation of antibody-virus immune complexes that precipitated harmful, inflammatory immune responses. It is also similar to the clinical course of COVID-19 patients, in whom severe COVID-19 disease is associated with the development of anti-SARS-CoV-2 serum antibodies,⁹ with titres correlating directly with the severity of disease.¹⁰ Conversely, subjects who recover quickly may have low or no anti-SARS-CoV-2 serum antibodies.¹¹

The elicitation of antibodies, specifically neutralising antibodies, is the goal of nearly every current SARS-CoV-2 vaccine candidate. The prior evidence that vaccine-elicited, antibody-dependent enhancement (ADE) of disease is likely to occur to some degree with COVID-19 vaccines is vertically consistent from controlled SARS studies in primates to clinical observations in SARS and COVID-19. Thus, a finite, non-theoretical risk is evident in the medical literature that vaccine candidates composed of the SARS-CoV-2 viral spike and eliciting anti-SARS-CoV-2 antibodies, be they neutralising or not, place vaccinees at higher risk for more severe COVID-19 disease when they encounter circulating

viruses. Indeed, studies in mice of prior SARS vaccines revealed this exact phenotype, with four human vaccine candidates eliciting neutralising antibodies and protecting against SARS challenge, but viral re-challenge of thus vaccinated animals resulting in immunopathologic lung disease.⁵ Independently, SARS/MERS vaccine candidates, commonly exhibited ADE associated with high inflammatory morbidity in preclinical models, obstructing their advancement to the clinic.^{4,12} SARS ADE of both disease in non-human primates and viral infection of cells in vitro was clearly mapped to specific antibody-targeted SARS viral spike epitopes.⁶ This phenomenon was consistent across a variety of vaccine platforms, including DNA, vector primes and virus-like particles (VLP), irrespective of inoculation method (oral, intramuscular, subcutaneous, etc). An unknown variable is how long this tissue damage lasts, possibly resulting in permanent morbidity (eg, diabetes from pancreatic damage⁷).

Current data on COVID-19 vaccines is limited, but does not so far reveal evidence of ADE of disease. Non-human primate studies of Moderna's mRNA-1273 vaccine showed excellent protection, with no detectable immunopathology.¹³ Phase 1 trials of several vaccines have not reported any immunopathology in subjects administered the candidate vaccines. However, these subjects were unlikely to have yet encountered circulating virus.¹⁴ Nevertheless, all preclinical studies to date have been performed with the Wuhan or closely related strains of the virus, while a mutant D614G virus is now the most prevalent circulating form. Several observations suggest that this alternative form may be antigenically distinct from the Wuhan derived strain, not so much in composition, but in conformation of the viral spike and exposure of neutralisation epitopes.¹⁵⁻¹⁸ Similarly, Phase 1 and 2 clinical trials of vaccine candidates have only been designed around immunogenicity as an efficacy end point and have not been designed to capture exposure of subjects to circulating virus after vaccination, which is when ADE/immunopathology is designed to occur. Thus, the absence of ADE evidence in COVID-19 vaccine data so far does not absolve investigators from disclosing the risk of enhanced disease to vaccine trial participants, and it remains a realistic, non-theoretical risk to the subjects.

2 | CHALLENGES TO INFORMED CONSENT FOR COVID-19 VACCINE STUDIES

Informed consent procedures for vaccine trials commonly include disclosure of very minor risks such as injection site reactions, rare risks from past, *unrelated* vaccines/viruses, such as Guillain-Barre syndrome for swine flu (interest in which is likely behind the interest in Astra Zeneca's recent vaccine transverse myelitis event) and generic statements about the risk of idiosyncratic systemic adverse events and death. Specific risks to research participants derived from biological mechanism are rarely included, often because of ambiguity about their applicability.¹⁹

Signed consent forms from the COVID-19 vaccine trials are not publicly available because of privacy concerns. They also vary from

clinical site to clinical site, and sample consent forms on which they are based are not required to be disclosed until after the trial is over, if at all. However, these consent forms are usually very similar in content to the "Risks to participants" section of the trial protocols, which have been released publicly by Pfizer, Moderna and Johnson & Johnson for their COVID-19 vaccine trials (²⁰ & Supplement). As these three vaccines are representative of the diversity of vaccines being tested, it is very likely that the consent form inferred from these protocols is similar or identical to those from any and all of the vaccine trials currently underway. All three protocols mention the risk of disease enhancement by the vaccine, but all three list this risk last or next to last in the list of risks, after risks from the Ad26-Cov2 vector, adenovirus vectors in general, risks of vaccination in general, risks for pregnancy and birth control (which are said to be "unknown"), risks of blood draws and risks from collection of nasal swab samples (for the Johnson and Johnson vaccine), after allergy, fainting, local site injection reaction, general systemic adverse reactions and laboratory abnormalities for the Moderna vaccine and after local site injection reactions and general systemic adverse events for the Pfizer vaccine. In addition, both Moderna and Johnson and Johnson term the risk of vaccine-elicited disease enhancement as "theoretical." Finally, in citing the risk, Pfizer and Moderna note prior evidence of vaccine-elicited disease enhancement with RSV and dengue, as well as feline coronavirus (Pfizer) and measles (Moderna), however, SARS and MERS are not mentioned. Johnson and Johnson discusses SARS and MERS, but make an unusual scientific argument that vaccine-elicited disease enhancement is because of non-neutralising antibodies and Th2-skewed cellular responses and that Ad26 vaccination does not exhibit this profile. Blank consent forms for AstraZeneca and Johnson and Johnson are also available online at <https://restoringtrials.org/2020/09/18/covid19trialprotocoland-studydocs/>, and while the AstraZeneca form clearly discloses the specific risk of ADE, the disclosure is listed last among risks only in an attached information sheet. In all, the evidence from the Pfizer, Moderna and Johnson & Johnson protocols for their COVID-19 vaccine trials and the sample consent forms, when contrasted with the evidence for antibody-dependent enhancement of disease presented by this report and widely available to any skilled practitioner in the field, establishes that patient comprehension of the specific risk that receiving the COVID-19 vaccine could convert a subject from someone who experiences mild disease to someone who experiences severe disease, lasting morbidity or even death is unlikely to be achieved by the informed consent procedures planned for these clinical trials.

Medical ethics standards required that, given the extent of evidence in the medical literature reviewed above, the risk of ADE should be clearly and emphatically distinguished in the informed consent from risks observed *rarely* as well as the more obvious risk of lack of efficacy, which is unrelated to the specific risk of ADE. Based on the published literature, it should have been obvious to any skilled medical practitioner in 2019 that there is a significant risk to vaccine research subjects that they may experience severe disease once vaccinated, while they might only have experienced a

mild, self-limited disease if not vaccinated. The consent should also clearly distinguish the specific risk of worsened COVID-19 disease from generic statements about risk of death and generic risk of lack of efficacy of the vaccine.

3 | CONCLUSION

Given the strong evidence that ADE is a non-theoretical and compelling risk for COVID-19 vaccines and the “laundry list” nature of informed consents, disclosure of the specific risk of worsened COVID-19 disease from vaccination calls for a specific, separate, informed consent form and demonstration of patient comprehension in order to meet medical ethics standards. The informed consent process for ongoing COVID-19 vaccine trials does not appear to meet this standard. While the COVID-19 global health emergency justifies accelerated vaccine trials of candidates with known liabilities, such an acceleration is not inconsistent with additional attention paid to heightened informed consent procedures specific to COVID-19 vaccine risks.

Comments for Public Posting: Please approve vaccine mandate. We are all eager to get back to life as before. We want our kids to go to school without being sent home constantly due to positive cases and the need to quarantine. We want workplaces to come back without the need for distancing. We want our economy to thrive and travel to return to pre-pandemic normal. If we want those things to happen, then it's necessary for all people who are eligible in those environments to be vaccinated. The "honor code" didn't work of course, as we are already seeing COVID-19 once again surging across the country with cases rising in all states. We are seeing unvaccinated individuals, including kids, ending up severely ill and/or dead. Don't we have an obligation to protect our young children? Please please please approve mandatory vaccination, thank you.

Comments for Public Posting: I'm writing to oppose vaccine mandates. This goes against our basic human rights to life, liberty, and the pursuit of happiness. These mandates violate many laws, including the Nuremberg Code and the EUA's own rules of consent. Covid has a high rate of survival and other treatments are available. There is no excuse to force vaccinations. There are many valid concerns about the adverse effects of these vaccines, which data is now coming in and showing harmful effects, including many deaths and injuries caused by these vaccines. These injuries and negative side effects need to be taken seriously. Making someone take a forced vaccine they are not comfortable with or taking away a persons right to free movement, including to go to work, inside buildings, and access to food stores is a violation of our rights. Please be considerate of our human rights. Medical decisions are a personal choice, these mandates must stop.

Communication from Public

Council File No: 21-0878

Comments for Public Posting: Hello council members, My name is Nufar Sharon and I would like to offer a comment for Agenda #19. I am confused and flabbergasted at this proposal of mandating vaccine passports for public places in los angels. Where are we? Are in we back in 1938 Germany or Europe, or are we in United States in 2021, the land of the free? I think the members of this council have forgotten the core concepts of the United States, the land of the free. People were appalled and couldn't believe how the atrocities of WWII occurred, how did the world let it occur. After all the sign on the gates in the concentration camps said work will set you free, however it didn't, and we all know the end results. It occurred in stages, in segregation, in demonization, and finally detention. We should learn from history, instead of trying to repeat it. This is a virus with a 99.98% survival rate, yet you are attempting to mandate vaccines that have multiple adverse affects that are documented. Instead of encouraging/mandating the .02%, 1 %, or 2% whatever small rate you are attaching to it, that are at risk, you are forcing the 99 instead. I am very aware of how detrimental this virus is. My father was hospitalized for 62 days in April 2020, and was intubated for more than 19 days. And then had tracheostomy for 5 weeks. And yet still I do not believe vaccines need to be mandated. These business are barely starting to recover from the ridiculous more than a year shut down that was implemented in California. We are a democracy not a dictatorship nor totalitarian government. It is a business's choice whether or not to mandate a mask or a vaccine, and if they choose not to implement them, it is their choice and their business, and it is people's choice whether they want to wear a mask and enter establishment or not. LETS REMEMBER based on SCIENCE The vaccine does not stop the spread. It doesn't prevent one from being sick. It only potentially has the benefit of preventing you to be extremely sick, and we still don't know the long term effects of these vaccines. Yet you are ramming them into people's arms. And are not allowing people to voluntarily consent. Segregating and demonizing people does not allow them to voluntarily consent especially if they are not provided all the information. This bill is coercive and it is coercing people into getting a vaccine. I think the members need to re read the Nuremberg codes, and if you don't have time at least read the 1st Nuremberg code. The

voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, overreaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved as to enable him to make an understanding and enlightened decision. This country is built on democracy. The members of this council are elected by the people, they are supposed to represent the people in their district. You work for us, not the other way around. You members with this proposal are not acting any better than how the Nazi's acted back then. If you want to ask yourself which side of history you would have stood on, you don't have to ask, its obvious.

Comments for Public Posting: We need the COVID-19 vaccination to be mandatory for all eligible people if they want to go to public places. We require children to receive childhood immunizations to attend school. We haven't had a case of polio spread in the U.S. since the 70's, but we still routinely vaccinate our children for polio because we don't want any cases to occur going forward. Why should COVID-19 be any different???? COVID-19 has been politicized in a way that other viruses have not. Dr. Fauci recently said that had there been this degree of misinformation and with other vaccines throughout history, we might still have measles, polio, and smallpox today. Please do the right thing for the sake of Los Angeles.

Comments for Public Posting: Members of the Los Angeles City Council Re: Enforce masks, not vaccines I am an infectious disease specialist practicing in Burbank, trained at Stanford, Yale, and UCLA. You heard from me in the January 12, 2021 OpEd co-authored with Councilmember Paul Koretz in City Watch LA: Los Angeles COVID Crisis--Enforce Mask and Social Distancing Mandates, Now. For major issues such as this the City Council would be even more productive if they provide more time for thoughtful public input. Kudos to Barbara Ferrer our health department director for her vision and bravery urging mask use which became a mandate a few weeks ago. Compliance is not intrusive and obviates need for more restrictive measures. Our new daily cases have plateaued and even begun to decrease, indicating we are on the correct path. Probably we have plateaued faster than any other location in large part because of mask compliance, increasing vaccinations, caution and personal responsibility. In fact elsewhere the country continues exponential worsening. Therefore this is neither the time nor place to institute a government ordered vaccine requirement. Rather it is time to again be optimistic and celebrate our reasons for optimism. Time to appreciate the precious power of mask compliance and leave vaccine mandates to schools, the military and businesses. In these institutions individuals have prolonged contact on daily, weekly and year round basis. Considerations are far different than two or three hours at Nordstroms, the Getty Center, an outdoor or even indoor restaurant. By removing the mask mandate in California on June 15, following CDC guidelines, inevitably daily cases began rising two weeks later from our June 1 and 2 nadir when cases were 108 and 120. Inevitable because the delta surge was well known from ravaging India and England. By early June it began surging in Israel, one of the world's most highly vaccinated countries. They are a country of 9 million, Los Angeles County 10 million. Like us they loosened restrictions and ended the mask mandate. They were so close to freedom from Covid, with new daily cases down to single digits. As were we, with daily cases down to 108 and 120 on June 1 and June 2. It is here in Los Angeles we demonstrated the power of masking and social distancing. We have persuasive data to show the anti-maskers. On January 13, 2021 this body, the Los Angeles City Council passed the Koretz

motion to begin enforcement of these preventative measures. On radio and media in a few hours, compliance notably increased that day. A dramatic shift became apparent several days later. Daily cases dropped 50% over the first week ending 1/27/21, 66% the second week, 90% by the end of February. From 15,000 daily to 7500, to 4500, to under 1500 over the next few weeks. Unlike the rest of the country we were spared the Super Bowl bump, with a thank you owed the LAPD for its media discussions of their enforcement plans. All of this occurred while the vaccine remained scarce in LA County. Our daily cases plunged the fastest in the country, demonstrating the power of mask use combined with lessons learned during the dark days of winter 2020-2021. I propose masks get the attention they deserve--indispensable to ending this pandemic. Bill Gates noted on Anderson Cooper August 4th "Mask wearing will be a key to ending this pandemic. The vaccine works well against hospitalization and death but less well at stopping the pandemic." It is important to emphasize vaccinated persons commonly get and transmit delta. In Massachusetts a COVID cluster resulting from a July 4th celebration has 900 some positive individuals, 75% vaccinated and the majority hospitalized vaccinated. In mid June Israel reported up to 40-50% of cases and hospitalizations in vaccinated persons. 61% of positive PCR cases were fully vaccinated in the month ending July 20. The vaccine is terrific--it almost always prevents death, usually prevents hospitalization, but it does not stop rapid COVID spread. And that's why we need masks. I aggressively work to defeat COVID, but at this time I urge you vote against what is an unnecessary and draconian measure—to require a medication that is not yet FDA approved. After FDA approval, having thoroughly reviewed efficacy and adverse events, this proposal should be carefully considered by many experts including those in the Infectious Disease Society of America and Infectious Disease Society of California. Furthermore, a vaccine mandate likely will undermine mask compliance which is the most effective way to rapidly decrease daily cases--over days and weeks, not months--as we saw in January when vaccinations remained scarce. Mandatory vaccination policies risk creating a public outcry, detracting from efforts to increase masking and vaccinations. And we have suffered far too much public discord and anger. As long as the pandemic rages in other countries we will require masks to stay safe....SEE PDF

I am an infectious disease specialist practicing in Burbank, trained at Stanford, Yale, and UCLA. You heard from me in the January 12, 2021 OpEd co-authored with Councilmember Paul Koretz in City Watch LA: Los Angeles COVID Crisis--Enforce Mask and Social Distancing Mandates, Now.

For major issues such as this the City Council would be even more productive if they provide more time for thoughtful public input.

Kudos to Barbara Ferrer our health department director for her vision and bravery urging mask use which became a mandate a few weeks ago. Compliance is not intrusive and obviates need for more restrictive measures.

Our new daily cases have plateaued and even begun to decrease, indicating we are on the correct path. Probably we have plateaued faster than any other location in large part because of mask compliance, increasing vaccinations, caution and personal responsibility. In fact elsewhere the country continues exponential worsening.

Therefore this is neither the time nor place to institute a government ordered vaccine requirement.

Rather it is time to again be optimistic and celebrate our reasons for optimism. Time to appreciate the precious power of mask compliance and leave vaccine mandates to schools, the military and businesses. In these institutions individuals have prolonged contact on daily, weekly and year round basis. Considerations are far different than two or three hours at Nordstroms, the Getty Center, an outdoor or even indoor restaurant.

By removing the mask mandate in California on June 15, following CDC guidelines, inevitably daily cases began rising two weeks later from our June 1 and 2 nadir when cases were 108 and 120.

Inevitable because the delta surge was well known from ravaging India and England. By early June it began surging in Israel, one of the world's most highly vaccinated countries. They are a country of 9 million, Los Angeles County 10 million. Like us they loosened restrictions and ended the mask mandate. They were so close to freedom from Covid, with new daily cases down to single digits. As were we, with daily cases down to 108 and 120 on June 1 and June 2.

It is here in Los Angeles we demonstrated the power of masking and social distancing. We have persuasive data to show the anti-maskers.

On January 13, 2021 this body, the Los Angeles City Council passed the Koretz motion to begin enforcement of these preventative measures. On radio and media in a few hours, compliance

notably increased that day. A dramatic shift became apparent several days later. Daily cases dropped 50% over the first week ending 1/27/21, 66% the second week, 90% by the end of February. From 15,000 daily to 7500, to 4500, to under 1500 over the next few weeks. Unlike the rest of the country we were spared the Super Bowl bump, with a thank you owed the LAPD for its media discussions of their enforcement plans.

All of this occurred while the vaccine remained scarce in LA County. Our daily cases plunged the fastest in the country, demonstrating the power of mask use combined with lessons learned during the dark days of winter 2020-2021.

I propose masks get the attention they deserve--indispensable to ending this pandemic. Bill Gates noted on Anderson Cooper August 4th "Mask wearing will be a key to ending this pandemic. The vaccine works well against hospitalization and death but less well at stopping the pandemic."

It is important to emphasize vaccinated persons commonly get and transmit delta. In Massachusetts a COVID cluster resulting from a July 4th celebration has 900 some positive individuals, 75% vaccinated and the majority hospitalized vaccinated. In mid June Israel reported up to 40-50% of cases and hospitalizations in vaccinated persons. 61% of positive PCR cases were fully vaccinated in the month ending July 20. The vaccine is terrific--it almost always prevents death, usually prevents hospitalization, but it does not stop rapid COVID spread. And that's why we need masks.

I aggressively work to defeat COVID, but at this time I urge you vote against what is an unnecessary and draconian measure—to require a medication that is not yet FDA approved.

After FDA approval, having thoroughly reviewed efficacy and adverse events, this proposal should be carefully considered by many experts including those in the Infectious Disease Society of America and Infectious Disease Society of California.

Furthermore, a vaccine mandate likely will undermine mask compliance which is the most effective way to rapidly decrease daily cases--over days and weeks, not months--as we saw in January when vaccinations remained scarce.

Mandatory vaccination policies risk creating a public outcry, detracting from efforts to increase masking and vaccinations. And we have suffered far too much public discord and anger.

As long as the pandemic rages in other countries we will require masks to stay safe. Variant after variant will continue arriving in airports and border crossings, and we need to consider quarantining all travelers as Israel has begun.

Travelers brought Delta to the US, not the unvaccinated. The virus spread like wildfire because we were not wearing masks or distancing.

Yes the vaccine is great to preventing hospitalizations and death, and that is much to celebrate.

But we still need aggressive masking, some social distancing and virus testing, not a vaccine mandate.

Respectfully submitted,

Francine Hanberg, MD
Fhanberg1918@yahoo.com

(Here are some additional potential helpful strategies:

Consider enforce masking indoors in large places such as malls, large department stores, theaters, have employers do it...

Consider masking and social distancing rules in large outdoor venues such as Dodger Stadium, Hollywood Bowl, Greek Theatre...it's common sense.)

Comments for Public Posting: Please do not vote for this bill. The COVID vaccine has not received full FDA approval. Please look at the data that shows the deaths and the medical this vaccine has caused. More people have died from this vaccine than all the other vaccines for over 5 years. This vaccine is a first to work with MRNA and people should be allowed to decide if it's right for them. I'm not against people wanting to take the vaccine to protect themselves, but it should not be mandated to restrict people who do not take it. Please do not mandate the COVID vaccine upon the residents of Los Angeles.

Comments for Public Posting: In regards to agenda item 19 file no. 21-0878, regarding a motion to implement proof of mandatory vaccination in order to enter public indoor buildings in LA County I am strongly opposed to any and all vaccine mandates, mask mandates, and any infringement upon my personal freedom and sovereignty as a human being and an American citizen. Mandates are not laws. This mandate is a violation of HIPPA agreement and my right to privacy and to move freely as a sovereign citizen in my city. Additionally, this is a false assumption to assume any required vaccine will in fact cure or protect anyone from any viruses. The pharmaceutical companies are also without impunity should injuries occur related to a mandatory or voluntary vaccine. They should be held accountable already for countless injuries due to vaccinations for decades. Mandating vaccines is unlawful and no government has a right over its citizens to force or administer a vaccine or healthcare decision or withhold our freedom of choice. Any company, restaurant, venue et al, including but not limited to any elected officials in public office and their employees, medical communities, doctors and nurses who support any mandates are liable for violating the Constitution of the United States of America.

Comments for Public Posting: First of all, this is for all of you Supervisors; You have all seem to have forgotten you were chosen by the people For the People, not to act as if you were all God's. You Are Not God!!!! We the people of the county of Los Angeles are demanding a no vote on the above reference. Remember you can all be voted out or removed by court order, and we the people are ready to do so. We have seen photos with Jeffrey Katzenberg meeting with councilmen Cedillo, I am sure photos of the rest of you will surface showing your allegiance to these pigs instead of the people of Los Angeles. You're so called Dr. Ferrer is not a physician, yes she holds a phd, but that can be from psychology, dog deworming, and has no idea what the word science means. And in my opinion, she has never followed the Scientific Data, which no one has come up with. As for Hahn, you made it into office because of your father, just like cheney stepped in cause of her father. That doesn't say much, except you were paid for to be in office, and not really voted in. This is my opinion, although I know for a fact there are thousands of people who are already wanting you out of office. Sheila Kuehl, you couldn't leave any sooner than. As a citizen of this county, we are demanding you to step back and leave our lives alone, you are attempting to run a city not our lives..... Glenda Roybal Yakel

Comments for Public Posting: This item should not pass. It is unconstitutional to coerce people into getting an injection in order to be able to live life and move freely in the state. The United States of America is suppose to be a free country. One's rights do not end because there is a state emergency. Also, no one has the right to ask anyone about their medical history and no one should have to prove they have undergone any medical experiments or treatments in order to live their life as a human being and as a member of society.

Comments for Public Posting: August 11, Meeting agenda 19. Vaccine passports are not only unconstitutional they are dangerous. China has used this to manipulate citizens followed by “Social Scoring Passports” which use totalitarian ways to control the public. Vaccine Passports will disproportionately affect Blacks (approx 45% vaxed) and Latinos (approx 58% vaxed) by eliminating them from participating in society as citizens of the USA. Another subgroup that has been COMPLETELY IGNORED by the Passport mandates are the naturally immune. Multiple highly credible studies in multiple countries including here in the US have proven people who have recovered from COVID19 have as good or better immunity than vaxed people. In fact a study here showed that a person who is naturally immune gets no additional benefit, but is highly likely to suffer greatly from the vaccine. Forcing the covid vaccine on this group could be more harmful than helpful. Per Los Angeles COVID19 vaccine data, 71.5% age 12+ have been vaccinated, and 89.3% above 65 have been vaccinated. These figures clearly show herd immunity and hospitalization mitigation. This virus is here to stay, it will NEVER go away, nor (by basic science) will it be eliminated by vaccines. Children deserve to live in a free society and to grow and develop without constant fear mongering. More children typically die from the flu yearly than from COVID19, and yet the over reaction by this body has caused irreversible harm with its policies. It is time to return to actual science and sensibility and open freely without restrictions our city.

Comments for Public Posting: In regards to Agenda Item 19. Do not implement this draconian ordinance requiring proof of "vaccination" to enter a public space. It will not work for those of us who are free thinking, sovereign individuals like myself. You will cross the line onto a road that you will not be able to come back from. The city council nor any other entity will never convince me to put an experimental mRNA Gene Therapy substance into my body. The "Investigational Vaccines", who's manufacturers are not liable to any side affects to their product, including death, will not convince me it's good for my health to take it in order to enter a grocery store. Nor will you ever convince me to give it to my children just to enter a public space. The mere consideration of this ordinance shows you care not for the law. You care not for the rights of a sovereign human being to choose what they want to put into there own bodies. There is no justification for this ordinance. I will choose my freedom, no matter your vote. You have no jurisdiction over my sovereignty.

The mRNA Vaccine Is An Untested Gene Therapy Experimental Drug

Posted on [February 25, 2021](#) by [State of the Nation](#)

It's Gene Therapy, Not a Vaccine

with Dr. David Martin

Dr. David Martin, founder and chairman of M-CAM Inc, challenges our presuppositions about the new mRNA Covid-19 vaccines. Quoting the pharmaceutical companies themselves, David suggests that these are not vaccines, but, in actuality, gene therapy. He explains what the

vaccines may do to us, what they are promising they can do for us, and how to distinguish the difference.

Listen to the episode here:

Episode Transcript

Within the below transcript the **bolded text** is **Hilda Labrada Gore** and the regular text is Dr. David Martin.

I have friends who've gotten one of the new COVID-19 vaccines and you do too. These are the fastest developed vaccines in all of our medical history and many people are lining up to get them as soon as possible. What are they made of? What would they do to us? Why are they being promoted and by whom? This is episode 292 and our guest is [Dr. David Martin](#). He received his Undergrad degree from Goshen College, Master's of Science from Ball State University and Doctorate from the University of Virginia. He is an innovator, a professor, and a man with an extensive resume of accomplishments.

With David, we focused on the mRNA COVID-19 vaccines. He goes over the major issues surrounding them. He reviews the mRNA technology and explains

how it is gene therapy, not a vaccine and our usual understanding of the word. He reviews the problems with the PCR tests and even helps us understand our broader state of emergency. Finally, he explains how fear on a subconscious level can make us resist the truth.

Welcome to the show, [David](#).

Thank you. It's lovely to be here.

I have a friend that works in the school system. She got a letter suggesting that she's an essential worker and that she needs to get this one of these new vaccines being developed against this COVID virus. What should she know before she goes for it?

Let's start with your opening sentence. None of the words in the order that you use exist in reality. Let's unpack that. First of all, there is no vaccine that is in development or contemplated that is a vaccine against the SARS-CoV-2 virus. That doesn't exist. That hasn't been developed. It isn't even, in 2021, in contemplation. It's one of the unfortunate things about what's going on in the propaganda war, which is in February, the World Health Organization made it abundantly clear that SARS-CoV-2 or the virus and COVID-

19, which is a series of clinical presentations of illness were two distinct things.

You're making an interesting distinction. I have heard that SARS-CoV-2 is "the virus" and that COVID-19 is the disease. Is that what you're saying?

COVID 19 is not a disease. It is a series of clinical symptoms. It is a giant umbrella of things associated with what used to be associated with influenza and with other febrile diseases. The problem that we have is that in February, the World Health Organization was clear in stating that there should not be a conflation between the two of these things. One is a virus, in their definition and one is a set of clinical symptoms. The illusion in February was that SARS-CoV-2 caused COVID-19. The problem with that definition and with the expectation is that the majority of people who test positive using the RT-PCR method for testing, for fragments of what is associated with SARS-CoV-2 are not ill at all. The illusion that the virus causes a disease fell apart. That's the reason why they invented the term asymptomatic carrier.

In other words, I might get a positive result from this PCR test and the reason I'm not asymptomatic, what's happening is I'm not sick at all. They've made a false assumption that SARS-CoV-2 causes COVID-19.

That's never been the case, never has been the case and

never will be the case. There is a causal statement that is made in the media where, for example, Johns Hopkins or the COVID tracker platform or any of these things has intentionally misled the people. There are not 5,000 new cases in Virginia. There potentially may be several thousand positive PCR tests but most of the people who have a positive test will never have a single symptom. Most of the people who have symptoms do not have positive tests.

I know some individuals who said that thing. They were like, "I was feeling sick and I got a negative test. My sister-in-law, who was feeling great, got a positive test."

It will always be the case. The causal link that the media, the CDC made and the COVID tracker, which is the collaboration between the Bloomberg Foundation, the Gates Foundation, Zuckerberg Foundation and others, the official numbers that we get trapped across the screens every morning of our computers in our televisions, those numbers are willfully lying. They have been willfully lying since the inception of this. There is not a causal link between these things that have never been established. It has never even been close to established. We have a situation where the illusion of the problem is that people say, "I don't want to get COVID-19." What they mean is they don't want to get infected with a virus. The problem is those two things are not related to each other.

A viral infection hasn't been documented in the majority of what is called cases. There is no basis for that conflation other than the manipulation of the public. That's the first half of the problem. The second half of the problem is that what is being touted as a vaccination, which as you well know when somebody says the word vaccination, the public understanding is that you are being treated with an attenuated or alive virus or a fragment of an attenuated and that the treatment is meant to keep you from getting an infection and it is meant to keep you from transmitting the infection that vaccine in the common definition of a vaccine is meant to do.

The problem is that in the case of Moderna and Pfizer, this is not a vaccine. This is gene therapy. It's a chemotherapy agent that is gene therapy. It is not a vaccine. What is this doing? It's sending a strand of synthetic RNA into the human being and is invoking within the human being, the creation of the S1 spike protein, which is a pathogen. It's a toxin inside of human beings. This is not only not keeping you from getting sick, it's making your body produce the thing that makes you sick.

In that sense, it does sound like a vaccine?

No, not at all because a vaccine is supposed to trigger immunity. It's not supposed to trigger you to make a toxin.

That's how this differs.

Vaccine: In the case of Moderna and Pfizer, this is not a vaccine. This is gene therapy.

It's not somewhat different. It's not the same at all. This is a public manipulation of misrepresentation of clinical treatment. It's not a vaccination. It's not a prohibiting infection. It's not a prohibiting transmission device. It's a means by which your body is conscripted to make the toxin that then allegedly your body somehow gets used to dealing with, but unlike a vaccine, which is to trigger the immune response, this is to trigger the creation of the toxin.

The way I've heard the companies put it is this is to teach your body to fight this virus when it comes

around. That's how they're presenting it.

Their clinical trial didn't include any of that as even a possibility within the clinical trial. The clinical trial did not measure the presence or absence of a virus or a virus fragment. The clinical trial did not measure the possibility of transmission suppression, the clinical trial didn't measure any of those things. This is a case of misrepresentation of technology and it's done exclusively so that they can get themselves under the umbrella of public health laws that exploit vaccination.

What you're saying is different from what most of us have heard in the mainstream news and even from the press releases from big companies.

That's because people aren't reading the actual clinical trials. If you read the clinical trials, nothing that I'm saying is even remotely different. As a matter of fact, the companies themselves have said what I'm saying. They said, they could not test for the existence or absence of the virus and they could not test for the transmissivity because they said it would be impractical. The companies themselves have admitted to every single thing I'm saying but they are using the public manipulation of the word vaccine to co-opt the public into believing they're getting a thing, which they are not getting. This is not going to stop you from getting Coronavirus. It's not going to stop you from getting sick. In

fact, on the contrary, it will make you sick far more often than the virus itself.

How can you say that so definitively?

Because the data is nothing but that, for people receiving by the time they got the second shot, 80% of people had one or more clinical presentations of COVID-19, 80% of people who have an infection according to RT-PCR have no symptoms at all.

People are getting it more from the "vaccine?"

Yes. You will get COVID-19 symptoms from getting the gene therapy passed off as a vaccine. You will get COVID symptoms from that 80% of the time. If you're exposed to SARS-CoV-2 according to RT-PCR, 80% of the time, you will have no symptoms at all.

What is the purpose of getting this vaccine or this gene manipulation as you call it?

It's a gene therapy technology. That's Moderna's own definition. Let's stick with what they say they are. The benefit is non-existent. A human being is going to be potentially exposed to unclassified, both short-term and long-term risks of altering their RNA and DNA from exposure to this gene therapy. This is important to understand, there is no clinical benefit except that in certain

instances of CoV infection and/or COVID-19 exposure, there were a few. By that, I mean less than a few hundred out of nearly 40,000 in the clinical trial. A few hundred people had a few days less severe symptoms with the gene therapy when compared to the other control group. Even in that comparison, if you look at the methodology that's in the published papers for the clinical trials, they play games with the data because what they're doing is, they're separating reactivity, meaning the way in which a person responds to being exposed to the gene therapy, they separate out adverse events from actual COVID symptoms.

The problem is that COVID symptoms include things like fever, body ache, muscle pain, muscle weakness and things like that. They got rid of a lot of what would have been considered to be COVID symptoms by calling them adverse events. If you pull that data out and you say, "Compare the population that got the gene therapy with the population that didn't get the gene therapy." The population that got the gene therapy had way more illness, including COVID-19 symptoms, than the population that didn't get the gene therapy but because they classified an enormous number of things as adverse events, they technically wiggled themselves into what was this ridiculous 90% plus effectiveness. Effectiveness was not effective in blocking illness. It was effective in allegedly shortening the duration of symptoms.

People are afraid that they are ready to believe what they want to believe and holding onto that one bit of information that you shared, that the likelihood with the flu vaccine, "At least it will tamp down my symptoms and limit the duration of my illness." They held onto that one bit of information that was data manipulation, as you're saying and they're holding out hope that this will be their saving grace to help them avoid COVID-19.

Nothing about this will avoid COVID-19 and nothing about this will avoid SARS-CoV-2.

We've been talking mostly about the Moderna and Pfizer vaccine that is gene therapy. Is there another one in the works or getting to the market that is not using gene therapy?

The AstraZeneca Oxford trial is using a viral fragment. It is more along the technological lines of what you and I might consider historically, to be a vaccine. The AstraZeneca Oxford trial has been an interesting one to watch because they have a methodology problem that is quite challenging in terms of trying to fool data and understand what's happening either on the safety or efficacy side. The reason is simple, that in certain instances, the AstraZeneca Oxford trial has not used a saline control group. They've used another vaccine as the control. In other words, they've stacked the deck. They're making it look like they are

somehow neutral compared to another vaccination in several of their data collection efforts.

As a result of that, we have both a methodology problem, which by the way, has been criticized by a number of clinical scientists. The bigger problem is that they're still not measuring viral susceptibility and viral transmission. Those are the two legs of the stool that is required for anyone to say that they are vaccinating a population for public health reasons. There is no means by which. This is a simple thing to wrap your head around. If I said, "Everybody needs to take chemotherapy for cancer they might get."

People would laugh in your face.

That's exactly what is happening. This is not prophylactic. This is not helping us. We're being told to take a treatment for a disease we don't have and most likely will not have. We're being told that using careful marketing manipulation and propaganda, calling these things vaccines for public health.

Historically vaccines, we've taken them for that reason. "I don't have the measles. I don't want to get the measles, so I'm going to get this measles shot." We've been primed to accept that approached.

That's the narrative everybody expects.

Why don't you expect that though? What's made you dive deep?

That's not what's being measured. That's not what's being done and that's not what this technology is about. mRNA is not a vaccination. It's a gene therapy that was originally developed for cancer treatment. That's why I'm using the chemotherapy analogy. This is not a vaccination.

I have colleagues, I'm sure you do too, friends and acquaintances who are going for it. What can we tell these people or share with them that might wake them up?

That's a complex issue and I have chosen a long time ago to not engage in the energy of this waking sleeping metaphor because the fact of the matter is if people are conditioned to react to fear, this is reflexive and it's not conscious. If we examine our behavior and what we do is engage in self-harm because we are convinced that somehow or another, there's a worse future ahead of us, that's something that I don't have an ability to say facts are going ever to overcome. I have yet to meet in my life someone who allowed a fact to overwhelm a belief. Once you've adopted a belief, facts are not welcome because what they do is, they not only indict your belief but they indict the energy that you hold that says, "I have to believe what I'm told."

The minute you try to engage with facts, all you do is trigger conflict. What I do is I try to take the complex science and the complex reporting, and I try to make it accessible and easily understood. The goal is that in certain instances, people will go, "I can't even believe that what he said was true." The cool thing is you don't have to believe what I'm saying is true because I don't value belief. I value the objective reality of facts. It turns out that in this particular case, it is simple and straightforward to say to any person in Moderna's own SEC filings, they make it abundantly clear that their technology is a gene therapy technology. In their clinical trial, they've made it abundantly clear that they could not measure the presence or absence of the virus and they could not measure the presence or the absence of the transmission of the virus. Every single thing that they represented to be doing that preys on the public understanding of what vaccination is, they explicitly said, "They're not doing that."

You have been careful to lay out the facts to me and the audience and we're thankful. I want to ask you on a more personal note, would you even take this PCR test if you had to for travel? I'm getting all kinds of emails and people reaching out to me and I'm not even talking about the vaccine or the gene therapy technology but certain things are being required to participate in life.

I'm actively involved with many of the significant pieces of litigation that are going on to try to unmask the conspiracy that is driving both the PCR, as well as the medical countermeasure interventions. I'm at the vanguard with a few other souls who are fighting for the rights of citizens to make decisions informed by facts, not informed by propaganda. The fact of the matter is the PCR test has never been approved as a diagnostic. It is not diagnostic. There's nothing about taking a PCR test that does anything other than reinforce a propaganda narrative. It doesn't tell you anything.

The reason why we're not doing influenza testing is that we don't want to admit the fact that the majority of people who are in hospital, who are sick and who are dying are experiencing exactly the same thing that's happened every year, which is influenza-like, flu-like and pneumonia-like illness. In many cases, when someone has immune compromise or other comorbidities leads to fatalities. It's a sad reality that that happens but it is part of the human experience that it happens. The fact is that a PCR test is not going to make or not make a confirmed diagnosis of anything because PCR tests cannot confirm a diagnosis.

I've interviewed [Dr. Tom Cowan](#) and [Dr. Andy Kaufman](#), and they say the same thing. The person who came up with or developed the PCR test says that it's not to be

used to diagnose anything.

So does the FDA so does everybody else. The only reason we are using PCR tests is that governors and the Department of Health and Human Services are maintaining a state of emergency. The second that that state of emergency is lifted in any state or in the country, the PCR test won't be allowed to be used. We're maintaining a state of emergency so that manufacturers can keep selling a thing that would never be approved if it was subject to a clinical trial. It goes for what's being called vaccines too. The gene therapy that Moderna and Pfizer are doing, both of those would be suspended immediately if the state of emergency got lifted. People don't understand that if you lift the state of emergency, the whole house of cards falls.

That is something else that you and your team are advocating for?

It's because the emergency use authorization falls with the state of emergency.

Is this one reason, do you think that they have cast aspersions on hydroxychloroquine or any other protocols that could possibly treat the symptoms of SARS-CoV-2?

There's no question. If you look historically, for many years,

Dr. Anthony Fauci at NIAID has held his annual advisory committee meeting. Every year he laments the fact that they're trying to build this universal influenza vaccine, which he refers to using as an infant in-print vaccine. They've been trying to do this for years and it hasn't worked. This happens to be an opportunity for Anthony Fauci to get what he has not been able to get through legal means, which is he wants to get to a place where he forces a vaccine on a population. He's manipulating this situation to force a vaccine on a population. The fact of the matter is he forgot that if he's going to force a vaccine on a population, it should at least be a vaccine.

What would his motives be for that?

Always has been financial. There are billions of dollars at stake and NIAID is essentially the incubator for the pharmaceutical industry. He's serving the paymasters that have let him manage \$191 billion in his career at NIAID.

There are lots to consider here. You've given us a lot of food for thought. We want to have another conversation with you again but let's say I'm an individual that was reading all these facts and I've been persuaded. I do not want to get this gene therapy technology. I don't want even to get the AstraZeneca vaccine. I don't want to get any of this but I'm under pressure either because of my job or for travel purposes to do so, what would you

advise me to do?

I can't advise a person at all. That's not my role but what I can tell you is that this is a decision that any human being is going to ultimately have to make based on whether or not they choose to live or they choose to be enslaved. This is like any point in history where you have to make decisions that are based on what is moral and ethical and right with respect to your own sense of responsibility and accountability. The fact of the matter is like wearing a seat belt, like doing a whole bunch of other things, your choice to engage in an activity is ultimately going to be a decision that you have to live with.

Vaccine: The more you have the lived experience of health, the less you can be told you're

unwell when you're perfectly fine.

I will not touch a thing and I will not allow my body to be invaded with a thing that is been developed in an unethical and illegal way. I am not going to let anybody have the opportunity to manipulate my genetic code. It's not going to happen. If that means that it comes at a cost of a particular employer or a particular relationship or whatever else, my life happens to be worth more than that. We've been conditioned to fall into this trap, which is, "We might not be able to get on a plane." So, drive.

I thought about that. I'm going to start taking a boat.

I'm not going to let my future and my well-being be enslaved to a commercial interest that is trying to extort or blackmail me into a thing.

That does sound like living. That does sound like freedom as opposed to slavery. I appreciate that. I think that's what we're about to hear at the foundation. We want people to live their best lives to take responsibility for their own health and look to ways to nurture it that may not be the most modern or the most profitable for health companies but will be best for them. Let me wrap up by asking you the question I often pose at the end. If the reader could do one thing to improve or sustain their health, what would you recommend that they do?

Pick a lifestyle modification first and foremost and pick it with someone else. Begin exercising, engage in a more wholesome way of engaging with the food you consume. Anything that involves bringing together the sense of wellbeing, which involves fellowship, nutrition, vitality and empowering you to become a person who not only has a conceptual idea of what health is but has a lived experience of it. The more you have the lived experience of health, the less you can be told you're unwell when you're perfectly fine.

Thank you so much for your time, David. This has been a great conversation.

You are most welcome. Take care.

Comments for Public Posting: As a concerned citizen implementation of this order would not only cause detriments to the city's community but it's economy and working class. There needs to be transparency in adverse effects that cause marginalized groups to distrust an FDA 'emergency authorized' product. This is coercion, manipulative tactics to get the vaccine that is responsible for disconnecting the community and social connection which has far greater issues that link to mental health. The very reason there is homelessness is isolation, mental health and lack of resources. There are no long term studies of this product and the push for it to be authorized are very close to date of these mandates. These closed meetings in city planning events need to be broadcasted to a larger participation rate. You will hear us all not agree with these mandates.

Comments for Public Posting: I am opposed of this to pass this is Adamant Medical Discrimination and Privacy. Forcing a medical experiment upon an individual as a condition to participate in society is illegal, unlawful and immoral and reprehensible and it is a violation of our God-given, Natural, and Common Law rights, as expressed and confirmed in the American Declaration of Independence, and as reflected in the constitution of this state and the constitution of the United States. 1. There is no emergency. There never has been one. The numbers don't support it. 2. This board is perpetuating the notion of an emergency to get money, to impose tyranny and to unlawfully force medical experimentation upon the populace. This so-called vaccine has only gotten an emergency use authorization under the guise of an emergency; otherwise the EUA is null and void (by the way, masks and covid tests are EUAs as well.) 3. Even if this could be called an emergency, no emergency suspends one's rights. Rights cannot be taken from you. 4. This board is perpetrating fraud, and fraud is a felony and a felony carries a prison sentence. You are hereby notified that if you engage in harassment, intimidation and/or retaliation against any member of the public including me, for this statement of truth, such actions will be reported to the FBI. It doesn't matter whether vaccines work or not. It doesn't matter whether this is even a vaccine or not. What matters is that each individual has sovereignty and authority over their own body. These so-called vaccine can never be required as a condition for commerce. Among many laws that protect individuals from the excess power of government tyrants, here are three... 1. EMERGENCY USE AUTHORIZATION LIMITATIONS on All COVID-19 vaccines , which are under an Emergency Use Authorization (EUA) and cannot be made mandatory. On its website, the U.S. Food and Drug Administration (FDA) notes the following: "...Recipients must be informed... that they have the option to accept or refuse the vaccine ." 2. Forced vaccination violates the right to privacy, which is protected, secured and guaranteed by the 4th Amendment of the US and the constitution of this state. 3. Forced vaccination is unlawful DISCRIMINATION, discriminating against those who have cell phones or want to participate in AI. Further, forced vaccination is a violation of: - CA GOV Code 51, which protects FREE AND EQUAL access to ALL PUBLIC

ACCOMMODATIONS. Public Accommodations are “private businesses engaged in commerce.” That means retail stores, banks, restaurants, recreation, transportation – and entity, location or establishment that is open to the public is prohibited from discriminating against the entry of a member of the public. - CA GOV CODE 12926 (q) protects one’s religious liberty and practice, including the ability to NOT PARTICIPATE in practices that violate one’s sincerely held religious beliefs - CA GOV CODE 37100 – prevents any creation, application or enforcement of a law or policy that violates the California Constitution or the Constitution of the United States. -- CA HSC 24171 and 24172 declare that individuals have the right to determine what is done to their own bodies and to refuse consent to medical experimentation without duress, coercion or influence

WARNING TO ALL GOVERNMENTAL, PUBLIC AND PRIVATE ENTITIES AND PERSONS Based on the above, and on behalf of all those named and referenced herein: (a) No business or organization, including any governmental agency has the authority to force me or anyone else to take any and all COVID-19 vaccines, as well as any other vaccine; (b) No business or organization, including any governmental agency, has the authority to deny me any and all services provided to COVID-19 vaccinated individuals; (c) Denial of any such services, will be a violation of our God-given, Natural, Common Law, state and federal constitutional and international rights not to be vaccinated in any way or form without our consent, this includes our right not to be tracked based on our vaccination status; and (d) Any such government agency, business or organization, person’s acting as offices of such entities, man and/or woman, violating our right not to vaccinate against COVID-19 will be liable under tort law and for deprivation of rights under color of law, and will be subject to lawsuits, accordingly. A tort, in common law jurisdiction and otherwise, is a civil wrong that causes a claimant to suffer loss or harm, resulting in legal liability for the person who commits the tortious act. It can include intentional infliction of emotional distress, negligence, financial losses, injuries, invasion of privacy, and many other things. In summary, no COVID-19 vaccination can be required in order to operate in community and social life, whether it is to go shopping, to work, to visit recreational areas, to visit persons in medical establishments, to travel, to visit restaurants or any business.

Comments for Public Posting: Council Members, You have been elected to represent the people. Please stop the nonsense regarding mandatory vaccinations: 1 Mandatory administration of experimental drugs is unconstitutional. You will carry a large legal liability for such decision. 2 Covid gene treatment experimental shots are not about health. They are about control and destroying the health of those who elected you. 3, Please spend the taxpayers money to put on your agendas the real issues of our times: child sex traffic and corruption. Please focus your efforts and our money on Election integrity. 4. This country is free and will remain free. Please don't perpetuate communists ideas and agendas. Nobody can be forced to take these highly controversial highly inefficient jabs. 5. This is evil. Human DNA is sacred. Nobody has the right to impair, control or modify the human DNA our very seed of divinity. This is a crime against humanity. We the People will not appreciate it. 6 Covid 19 is a bio weapon created by the very people who were supposed to Protect our health as it resulted from Dr Fauci Emails recently uncovered to the public. How can someone reasonably believe that the vaccines created by the same people will be of any benefit to us? 7 How many deaths or illnesses are reported so far as a result of “vaccination” and are you going to be legally and morally responsible for the injuries created as a result of the implementation of vaccination mandates in the state of California?

Comments for Public Posting: A Covid vaccine mandate is discriminatory and violates decades of statutes, regulations and core principles of healthcare ethics and Supreme Court decisions. Moreover, the Covid vaccine is simply not an option for many; they are advised by their physicians that the vaccines have the potential to do them harm due to underlying medical conditions or age. Adding to the antibodies acquired through recovery from Covid, vaccination could potentially cause harm by overloading the immune system. This discussion hits close to our home and our circle of friends. As a parent and a healthcare professional, I am committed to assuring that medical ethics are upheld. Healthcare decisions are between physicians and patients, not government. I, therefore, urge the LA City Council to reject a vaccine mandate in the strongest possible terms. Please understand this not only violates our Constitutional rights and civil liberties it violates decades of statutes and regulations put in place to protect the bodily autonomy/integrity of the individual, respect for one's person, welfare of the individual and justice. . Below are the core principles by which medical care is delivered, clinical trials are conducted and members of the healthcare community conduct themselves in the care of those who come to them for medical care. It is no accident that bodily autonomy is the first listed. Below please find text and links supporting the right of citizens to autonomy of medical decisions without interference by or repercussions from government. Seeing this material, or any part of it, I don't see how the Council can possibly adopt such an egregious violation of our rights in good conscience. 1. The U.S. Supreme Court has held that a "forcible injection ... into a nonconsenting person's body represents a substantial interference with that person's liberty[.]" Subsequent Supreme Court decisions have made explicit that the right to "refus[e] unwanted medical care" is "so rooted in our history, tradition, and practice as to require special protection under the Fourteenth Amendment. 2. The textbook titled "Principles of Biomedical Ethics" (orig. 1979) by Tom Beauchamp and James Childress provided an early foundation for medical ethics and values for physicians and others involved with practicing medicine. - Respect for Autonomy - Beneficence (moral obligation to act in the welfare and best interests of others) - Non-maleficence - Justice
<https://www.wgu.edu/blog/healthcare-ethics-modern-medicine1908.html#close> The Belmont Report (1974) is based on the Principles of Biomedical Ethics (or Code of Healthcare Ethics) and contains as its core principles those of Beneficence, Respect and Justice. This is in response to the human rights abuses of Tuskegee Syphilis Study (1932-72) and is based on the Principles of Healthcare Ethics. Applicable for the protection of Research Participants, it also applies to ANY patient receiving medical care (via the Principles of Healthcare Ethics above).
<https://www.hhs.gov/ohrp/regulations-and-policy/belmont-report/index.html> Thank you and I hope that the LA City Council does the right thing by Angelinos and rejects a vaccine mandate.

Comments for Public Posting: Re: Agenda Item 19 Vote NO on vaccine mandates and passports. The county has no legal authority to demand residents take an agent that has not been studied long enough to determine adverse reactions. The Nuremberg Code prevents unauthorized human experimentation so each council member will be held personally liable for their criminal actions. Everyday the CDC proves to be both incompetent and inconsistent in their positions and never provide clinical studies to support their random recommendations . It's time to get past this pandemic by recognizing what it truly is- an authoritarian power grab.. Vote No on vaccine mandates and passports. My body my choice.

Comments for Public Posting: Thank you so much for holding this meeting. I am an LA Native. Born and raised. It is of my understanding that a vaccine mandate is against the Nuremberg code in which trials took place from 1946-1949. That no human be subjected to, or be coerced by any means to medical experimentation. Even if one chooses to opt in for a normal or experimental drug or supplement it is a HIPPA violation to ask. Even to ask under the US constitution actually may infringe upon 7th Amendment of searches and seizures. There is no probabcal cause for the inquiry. And in no way is there ability to seek probabcal cause because of HIPPA, our personal medical status IS PROTECTED. It is unlawful to even continue these proceedings. I am against vaccine status mandates, mask humiliation mandates and anything else that is constitutionally unlawful. This "consideration" is unlawful on many levels at the start. I do not concent a vaccine mandate governance. If you cared about public health, it would be focused on what makes our immune system stronger. By the way it's more not necessarily more oranges. Food based Vitamin C, and D3 for the winter. As a public health official I'd use this opportunity to asses my own particular commuties' needs to asses whether a pandemic is present in the first place. Wouldn't our homeless people been wiped out by the thousands, instantly? In a real pandemic scenario. Because they have little access to sanitation and higher possibly immune comprised? If there was a pandemic wouldn't there be an influx in deaths from the previous years? We cannot trust the CDC because don't live here in free United States, the CDC IS NOT BASED HERE. And the deaths that they report on here in the United States for America haven't seen an abnormal rise in deaths death rate stayed mostly in the same for 2020, 2019, 2018, 2017 around 2.8M. As a voting patriot born in Los Angeles, I ask you to please make vaccines optional, masks optional. Set the example for medical discrimination and social discrimination.

Comments for Public Posting: I oppose the mandate of a vaccine for Corona Virus. This vaccine has NOT been around long enough to really understand the long term effects. I get everyone says "vaccines" are safe and they have been around forever but this one is "built" different so don't lie about it. I will not be subject to putting chemicals in my body when I work hard to research and pay attention to what I consume or put on my skin for my own health. I will NOT subject my kids to this experiment when simple questions can not be answered. Can you guarantee me that they will have NO long term effects, no issues with them having kids someday or any long term effects? You can't! And the companies that make the virus have no liability. That is insane.

Comments for Public Posting: Vaccine mandates are harmful to humans. It is unconstitutional and illegal to force a person to inject substances into their body. These vaccines are killing people. No vaccine ever stops infection. When someone gets infected they spread pathogens. CDC is giving very bad scientific advice. These vaccines and all vaccines are made from aborted fetal cells. You can't force people to get vaccinated against their conscience.

Comments for Public Posting: Prove that sars-cov2 exists before making laws and mandates based on it by showing that this virus has been isolated in the lab. NOT just hyped up FDA failed PCR tests. And then IF the virus has been detected using isolation and then the public has tested positive show that the numbers warrant State of Emergency declarations. WE WILL WAIT. Since PCR tests have failed FDA approval as quietly announced on July 21, 2021 on the CDC website and EUA will be withdrawn in December 2021, and all cases and death counts were based on these faulty tests, we have NO DATA to support evidence of a pandemic. What are people dying of? Unprecedented BAD hospital protocols for symptoms of pneumonia after being told to stay home with a serious (likely gain of function/Fauci funded) flu, suppression of off-label treatment with time-tested safe drugs, and comorbidities. They are dying of being forced to rely on SICK CARE. We have no health care. The nations with the highest covid 19 vaccinations are showing how ineffective they are, as the vaccinated are now spreading variants as scientists warned. Israel is on their 3rd shots and the vaccinated are still spreading it and dying. Gibraltar is 100% fully vaccinated and travel advisory because it's a cesspool. Everyone is shouting "FOLLOW THE SCIENCE" meanwhile you haven't understood the papers you read enough to have scientific critical thinking. Public Health Institutions have abused us and failed to explain Antibody Dependent Enhancement and the vast difference between Relative Risk Reduction and Absolute Risk Reduction. If you're not educated enough to explain these concepts you have NO BUSINESS discussing laws about coercing the public to take any medical intervention! Read some science, not just public health official garbage funded by elites. If you consider this vaccine passport you're FASCIST and you don't deserve to live in this country.

Comments for Public Posting: I am a constituent. I urge you to oppose mandatory COVID-19 vaccinations and vaccine passports. Also, take robust actions to prevent the implementation of such policies. This would create a two-class medial apartheid system, immunity caste system and would further the gap in equality. Americans have the God-given freedoms of conscience and religion. Forcing individuals to be vaccinated against their will, whether through economic pressure or outright mandates, violates that freedom. Please act to retain all current religious, philosophical, and medical exemptions for vaccinations in our state, and whenever possible, act to add to or expand the exemptions for vaccinations, including for COVID-19.

Comments for Public Posting: To the Office of the City Clerk, I have been a U.S. citizen for 56 years, and have lived in California for the same amount of time. I am urging you to oppose any vaccine mandates in our state. These mandates are not based in science, nor do they take into account the risk benefit for each individual as they make decisions for their own health. Our country was founded on individual freedoms, and our health is an essential part of that. Vaccines are not the only way to deal with Covid-19. There are now many treatment protocol options, and prophylaxis, as well as the fact there are millions who have recovered from Covid and now have natural immunity. Natural immunity is at least just as good or far superior to the Covid vaccines. Natural immunity is far better at protecting against variants as well. There are many studies one of which, The Cleveland Study, that have concluded such findings. Vaccine mandates to enter businesses, concerts, sporting events, to name a few, not only go against current science and data, but are unconstitutional, and discriminatory. We have come to far as a country to digress to this dangerous level where we believe that a virus that has at least a 99% rate of survival constitutes showing vaccine status to enter businesses. This would especially be discriminatory to the black community as well since overall they have the lowest rate of vaccination. Please if you really want to protect our health, than protect our freedom to make our own health decisions with the choices available to us, that is by far the greater good for us all.

Comments for Public Posting: THIS IS UNCONSTITUTIONAL. Men didn't fight for our FREEDOM for you guys to strip it away. It's not about our safety at all, it's about control and this truly is against our constitutional rights. 14th Amendment and the 5th state: deprive any person of life, liberty, or property, without due process of law. Most people no longer understand what Liberty is, or that it is pretty much all encompassing. 1 : the quality or state of being free: a : the power to do as one pleases. b : freedom from physical restraint. c : freedom from arbitrary or despotic control. d : the positive enjoyment of various social, political, or economic rights and privileges. government or control. freedom from external or foreign rule; independence. freedom from control, interference, obligation, restriction, hampering conditions, etc.; power or right of doing, thinking, speaking, etc., according to choice. freedom from captivity, confinement, or physical restraint. Governments who try to delegate power to mandate a vaccine, (just as it could not mandate a person purchase health insurance) without an amendment delegating it the power to do so, it is specifically prohibited from doing so. If you are trying to get people to leave CA, you are on the right track.

Comments for Public Posting: I am writing today to express my concern regarding potential additional lockdowns and mandates imposed upon our city and county. These types of measures should never be allowed by our government in a free country. I know we are dealing with a lot of politicized circumstances; that seem to go beyond a public health matter. Nevertheless, our health is our own concern. If we keep this up, our poor small businesses that run this county will cease to exist. In this country, we have everything to lose because we have what everyone around the world hopes to gain and we are one vote, one supervisor, one city, one county, one state away from losing this entire country if it isn't already too late. Mandating passports to enter businesses seems absurd. What happened to our "free" country. Please use common sense, and remember what this country was founded upon.

Comments for Public Posting: I am opposed. Any form of coercion via medical mandates, vaccine Passports, digital QR code or any verification to show proof of vaccination violates California Health and Safety codes: 24171 "right of individuals to determine what is done to their own bodies." and 24172(J) "Be given the opportunity to decide to consent or not to consent to a medical experiment without the intervention of any element of force, fraud, deceit, duress, coercion, or undue influence on the subject's decision." Universally accepted codes of medical ethics, including the Nuremberg Code and the Declaration of Helsinki, absolutely prohibit any form of coercion to make individuals participate in a medical experiment. All currently available COVID-19 is authorized for emergency use, regardless if emergency use status changes, or becomes FDA approved, therefore it must remain voluntary under the Nuremberg Trial Codes; the Declaration of Helsinki, and California law. County Department of Public Health and CHHS acknowledges there are many instances where an individual, along with their doctor, decide that being vaccinated may be unsafe; and a vaccine passport or verification system discriminates against those who cannot receive the vaccine. Vaccine passports, or arbitrary state and county guidelines, do not take into consideration the large number of citizens who have contracted and recovered from COVID-19 and are therefore naturally immune as Covid survivors.

Comments for Public Posting: NO to vaccine passports!!! It's unlawful! What about those of us with autoimmune issues who are contraindicated for this vaccine!?? It's wrong and terrible to segregate. Medical freedom is needed!! Thank you.

Comments for Public Posting: As a physician in the community, I wholeheartedly support the vaccine mandate for all citizens of LA county who are able. Those who are able to get the vaccine but are unwilling are choosing to continue to put the lives of everyone else at risk and it is unacceptable. They should not be allowed to go about their lives at bars and restaurants as if there isn't a global pandemic killing millions of people. Local hospitals are filling up with covid patients (AGAIN) leaving minimal resources for cancer patients, trauma patients, or anyone else suffering and in need of care. Almost all of the ICU patients with covid are unvaccinated, again with irresponsible decisions affecting the rest of society. Please please please implement a vaccine mandate for social gathering places. Please listen to science and do the right thing. People who don't want to get vaccinated can and should just stay home and quit putting other people at risk.

Comments for Public Posting: Requiring the covid-19 experimental vaccine in order for a citizen to patronize a store or place of business in their community is a disservice to the entire community. 1. Limiting access to essential places of business without a vaccine card proof is essentially mandating the vaccine. 2. There has not been sufficient research as to whether covid-19 unvaccinated people pose more of a threat to society in comparison to the vaccinated. 3. Those with natural immunity do not need the vaccine. They have more immunity than the vaccinated. 4. There has not been sufficient research on the long term effects of this vaccine. 5. We deserve to make decisions about what goes into our bodies. Mandating things such as this is the beginning of a slippery slope. You may agree with this initiative, but the next one in queue, you may be against. Approving mandates like this is dangerous to our freedoms.

Comments for Public Posting: THIS IS UNCONSTITUTIONAL. Men didn't fight for our FREEDOM for you guys to strip it away. It's not about our safety at all, it's about control and this truly is against our constitutional rights. 14th Amendment and the 5th state: deprive any person of life, liberty, or property, without due process of law. Most people no longer understand what Liberty is, or that it is pretty much all encompassing. 1 : the quality or state of being free: a : the power to do as one pleases. b : freedom from physical restraint. c : freedom from arbitrary or despotic control. d : the positive enjoyment of various social, political, or economic rights and privileges. government or control. freedom from external or foreign rule; independence. freedom from control, interference, obligation, restriction, hampering conditions, etc.; power or right of doing, thinking, speaking, etc., according to choice. freedom from captivity, confinement, or physical restraint. Governments who try to delegate power to mandate a vaccine, (just as it could not mandate a person purchase health insurance) without an amendment delegating it the power to do so, it is specifically prohibited from doing so. If you are trying to get people to leave CA, you are on the right track.

Comments for Public Posting: We live in a free country that allows us to make choices for our own well being. Mandating masks in indoor public places does not live up to our constitution nor does this sound like a land of freedom. There are a myriad of reasons people do not want or cannot get vaccinated. This is a choice and now with this socialistic agenda, LA county is forcing us to make a decision. Isn't the vaccine for those who are taking precautions against COVID-19?? I am young, healthy, rarely get sick, never took the flu vaccine and want to monitor what goes in to my body. My body, my choice. Please reconsider your mandates.

Comments for Public Posting: I am opposed to mandating vaccinations for city workers. Over 80% of Los Angeles residents have been vaccinated and over 90% of Los Angeles Unified School District employees are vaccinated. These numbers are well beyond herd requirement numbers, which indicates there is no need to mandate vaccinations. Also, if medical exemptions were decriminalized maybe there would be more support for vaccine mandates.

Council File No: 21-0878

Comments for Public Posting: A vaccine passport system would create a two-class medical apartheid system, immunity caste system, and would further the gap in equality, especially disproportionate numbers from some of our most vulnerable communities, such as people who are low-income, have disabilities, or are homeless, as well as more than 40 percent of people over age 65, including immigrant communities and communities of color who are already subject to over-policing and surveillance?. Requiring COVID-19 vaccine passports for taking part in everyday life such as, but not limited to, attending a sporting event, patronizing a restaurant, or going to a movie theater would create two classes of citizens based on vaccination; and it's illegal according to the UNRUH CIVIL RIGHTS ACT.? Other treatments and therapies are available as an alternative. ?Any form of coercion via medical mandates, vaccine Passports, digital QR code or any verification to show proof of vaccination violates California Health and Safety codes: 24171 "right of individuals to determine what is done to their own bodies." and 24172(J) "Be given the opportunity to decide to consent or not to consent to a medical experiment without the intervention of any element of force, fraud, deceit, duress, coercion, or undue influence on the subject's decision."?Universally accepted codes of medical ethics, including the Nuremberg Code and the Declaration of Helsinki, absolutely prohibit any form of coercion to make individuals participate in a medical experiment.? All currently available COVID-19 is authorized for emergency use, regardless if emergency use status changes, or becomes FDA approved, therefore it must remain voluntary under the Nuremberg Trial Codes; the Declaration of Helsinki, and California law. ?County Department of Public Health and CHHS acknowledges there are many instances where an individual, along with their doctor, decide that being vaccinated may be unsafe; and a vaccine passport or verification system discriminates against those who cannot receive the vaccine.?Vaccine passports, or arbitrary state and county guidelines, do not take into consideration the large number of citizens who have contracted and recovered from COVID-19 and are therefore naturally immune as Covid survivors.? It will not stop at COVID-19 vaccines. Once in place, it will allow the coercion of any and all vaccines, booster shots, or

“so-called” requirements.

Comments for Public Posting: Yes on Covid vaccine mandate. As a society, we have an obligation to safeguard one another. Yes, you get vaccinated to protect yourself, but you also get vaccinated to protect those around you. And we do this in order to control or eradicate diseases that ravage our population. It's the ultimate act of selfishness to decide that your individual decision must take precedence over the literal life and death of the people around you.

Comments for Public Posting: I strongly OPPOSE mandatory vaccination requirements for the public. This goes directly against several state and federal laws, let alone the 4th Amendment of the Constitution. This will only create more economic harm and medical apartheid in our communities. I'd like to remind you also that all currently available covid vaccines are STILL NOT FDA APPROVED. They have only been granted an Emergency Use Authorization, and as you well know, mandating any medical intervention under EUA is against the law. Thank you for your consideration

Comments for Public Posting: I am 100% against vaccine mandates to enter small businesses. It is not the governments job to tell any business how to operate. That is government overreach, and against our constitutional rights. Also, in LA County, less than 50% of the black community is vaccinated. Creating mandates, will create segregation, and further systemic racism in our city.

Comments for Public Posting: We need to move into a more individualized approach to treating this new disease that is spreading in society. Those who are getting sick are getting so for a variety of reasons, and will also react to any given treatment in an individual manner. This is not a fail safe system as can be seen by the many breakthrough cases and continuous variations. And there are other medicines that have proven effective in alleviating the effects of infection. Many have already overcome infection and have natural immunity. Furthermore, this is not a solution and in violation of human rights, to mandate an experimental injection both imprudent and illegal. It will also backfire and create more division and entrenchment. California cannot thrive under such coercive measures. A culture of open debate and elucidation of consensual participation and a transparent educational approach is what is rather needed to combat fear and disease and empower people to take care of their health and livelihoods.

Comments for Public Posting: Everybody who is eligible should be required to get vaccinated if they want to engage with others in public spaces. We are not talking here about someone choosing an unhealthy diet-something you could argue only affects an individual. We're talking about a very contagious disease that is so easily transmissible, it's caused a global pandemic and has killed millions of people. No one has the right to infect others with a potentially deadly illness. There are many people, including our young children, who are not yet eligible to be vaccinated. There are also immunosuppressed people who do not have full immunity from the vaccine. How is it fair that someone can opt to not be vaccinated and then spread the illness to vulnerable groups who did not make the choice to be so vulnerable? Even if you're vaccinated, protection is not 100%. Think of the vaccine as a very good raincoat: it will protect you well in a drizzle, but if you are in and out of constant thunderstorms - in this case, constantly surrounded by people who are unvaccinated -at some point you could become infected and transmit the illness to others. Vaccination cannot be perceived as an individual choice. Instead, we need to equate it to drunk driving. You can drink in private- that's your choice- but you can't just decide to get behind the wheel because you feel like it and don't think you'll get hurt. We have laws against drunk driving, since individual choice to undertake a dangerous public activity cannot override the need to protect the public from deadly harm. Thank you.

Notice to Agent is Notice to Principal and Notice to Principal is Notice to Agent

Comes now, Affiant, David Alexander Bramante, one of the People (as found in California Constitution Article I, Declaration of Rights, Sections 1, 2, 8, 13 and 24), sui juris, in the Court

of Record, submitting over 200 public letters of opposition AND making the following claims, that you and your agents may provide due care;

Affiant claims, the Social Security Act, Cares Act, Flores Agreement, Highway Safety Act are all federal programs where actors in the state are allowed to gain revenue by administration or cooperation (Please see examples of Social Security Act below):

Preamble 1935 Social Security Act: The Social Security Act (Act of August 14, 1935) [H. R. 7260]: An act to provide for the general where fair by establishing a system of federal old-age benefits, and by enabling the several states to make more adequate provisions for aged persons, blind persons, dependent and crippled children, maternal and Child welfare, public health, and the administration of their unemployment compensation laws; to establish a social security board; to raise revenue; and for other purposes. [Emphasis by highlight added]

Affiant, claims to be in the private room, and not part of any government office;

Affiant, claims to be part of a private membership association that is contracted together with a belief and controlling of fines, find children, and others members health, and no government authority has been granted authority over the peoples private health determinations. If you believe you have constitutional authority, please provide swore testimony showing where you have been granted authority by the people to demand that they follow one of their servants health order;

It has a contract with the PMA to provide certain services and no actions done are open to the public or functioning in commerce, therefore you are prohibited from using any commerce related regulation power, nor are you able to make claims of working in the advancement of the public health;

Affiant shares a common belief in God's natural he created immune system and has vowed to not take any vaccinations, block the breathing system with a mask, or to be forced to be involved with teachings that are against the conscience of the PMA such as critical race theory. Therefore,

government workers are prohibited from forcing or coercing a fire, I find children or the other members from taking part in any of the requirements or your programs of any sort;

The People, having all political power and hiring servants to carry out their business, never granted authority for those servants to force people through programs or provisions systems, that are falsely presented as law. It is hereby affiance wish, order, and demand, for all parties to give full disclosure of any program funds received by any state, municipal, town or political subdivision as part of any program and the original legislature statutes that granted authority to bring force upon the people in the private room. If you fail to show this items within five days, you agree that you are working to attack the people, against your trust independent your constitution and are knowingly trespassing against the rights of the people you swear to protect. You further agreed to pay \$1,000,000 per encroachment against the above mentioned rights. You further agree, that if you don't respond with a sworn affidavit showing constitutional provisions authorizing you to trample the People's rights within five days that you agree to all the above mentioned fax and that no court shall we examine this matter and Chao except the above terms is truth and law. Furthermore, I agree that this affidavit can be used as evidence of your wrongdoing and that affiant reserve the right to take this before an arbitrator of a finance choice.

Verification

I hear by declare, certified and state, pursuant to the penalties of perjury and the laws of the United States of America, and by the provisions of 28 USC section 1746 that all of the above and foregoing representations are true and correct to the best of my knowledge, information and belief. Executed in Los Angeles, California on this 11th day of August, 2021.

A handwritten signature in black ink, appearing to read 'David Alexander Bramante', is written over a horizontal line.

Autograph of Affiant,

David Alexander Bramante

Located at:

Office of the Mayor c/o
Los Angeles City Hall
200 N. Spring Street, Suite 303
Los Angeles, California 90012

Regarding:

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/12/21 5:57

Name: Levi L.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 1

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

There is no reason to get vaccinated as it does not prevent you from getting infected and don't really help with the symptoms. Non the lees this is not a dictatorship should be a free choice

“Vaccine Passport” Opposition Form No. 2

Dated:

August 11, 2021

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

This is a complete violation of our rights plain and simple this is government over reach and I as a United States citizen am appalled at the overreaction of our state and city politicians. Right now you are calling for medical tyranny and the creation of a two tiered class system. You are committed to segregation a path I am completely opposed to. Where those who do not wish to put something in there body that does not follow the Nuremberg law of informed consent as this is only a EUA with thousands of adverse affects including the death of thousands of people as stated on the VAERS data. Plus you are disregarding those who have natural immunity from recovery of this virus which supersedes any immunity from inoculation period. I implore you to reconsider this heinous act against our freedom and our constitution. Which you civil servants took an oath to uphold.

“Vaccine Passport” Opposition Form No. 4

Regarding:

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/13/21 5:31

Name: Jenn C.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 4

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Discriminatory

Additional Statement: Below is why I am opposed to any “vaccine passport”:

This is against the Constitution, our Human rights, medical rights, the Nuremberg Code, The right to our privacy, our freedom as free citizens. This is communism or worse, Nazi Germany. The Vaccine is still a trial and under Emergency use and still has not Proven effective but actually a potential spreader with viral loads. And what about the people who have natural immunity from already having had COVID? This doesn't follow any science. We cannot live under Government rule!

Name: Kristen V.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 13

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

It's discriminatory, an act of segregation, unconstitutional - we have the right to medical freedom and to choose what we put in our bodies and not be discriminated against. We also have HIPAA rights to medical privacy which a vaccine passport violates. Not everyone can take the vaccine even if they wanted to due to prior health conditions, religious/spiritual beliefs, etc. The vaccine is experimental and this is an obvious attempt at behavior modification to try and manipulate more people into giving up their medical freedom, rights, their health, and their life in exchange for the dangling carrot of privilege, acceptance by the mainstream, and convenience which will be temporary at best. We are sovereign, human beings. We are not lab rats. We have basic human rights that will be upheld.

Regarding:

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/13/21 3:54

Name: Gena G.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 14

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I believe in medical freedom. I also have a high functioning immune system.

“Vaccine Passport” Opposition Form No. 15

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

There are so many reasons but I'll just start with this is medical tyranny hiding under the guise of safety. This is infringement of our rights and an oppressive move towards a tyrannical rule. You will be creating a segregated two class system. There are so many things wrong with this idea it's unbelievable to me. You do not have my consent or the authority to do such moves period. I am appalled at the lack of leadership and the complete disregard for upholding our rights and the constitution which these bozos swore to uphold

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Aside from the fact It is not constitutional, it will penalize businesses by robbing them of customers and turn them into untrained unpaid law enforcement officers. It will do little if anything to change the minds of anyone opposed to vaccines and will harden their resistance and not make us better or safer as a community.

Regarding:

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/13/21 0:51

Name: jose v.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 25

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Because its un fair and it's not right to force people to take something if they dont want it or need it. this is the most weirdest thing I've ever seen where someone is giving you something for free n forcing you to take it isnt that peer pressure nah I ain't got corona either do I want to vaccine. i should be able to travel freely and normally without having to worry about not being able to go into places.

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

There are so many reasons. we have the ability to get the vaccine if desired, and many have already have contracted it and have T-cell immunity. We are now seeing tremendous breakthrough cases among the vaccinated as well as recurrent infections with those that have contracted it. There is absolutely no reason to mandate a product that has no liability from the manufacturers.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I oppose the mandatory passports because it's against the right of our freedom. I also oppose it because I have been vaccinated as a child and it compromise my health. All through elementary school I was vaccinated and I was a sick kid. I don't feel anybody has the right to tell an American citizen what they should do with their bodies. Especially when we don't even know where this virus stem from or if it was created.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 35

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I believe in medical autonomy and informed consent. This is not consent.

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

These injections, whether Pfizer or Moderna, are not proven to be the safe drugs. As you see in the official VAERS data, the death toll from the injections are over 12,000 (Swine Flu vaccines were halted after 25 people died from them). Also, there are many who contracted Covid after they got the injections. This is why these drugs are yet to be FDA approved. They're only authorized for emergency use. And this clinical trial will not end until October 2023, so NOBODY can guarantee the safety of these experimental drugs, so it is IRRESPONSIBLE of you to impose them upon your constituents. There are a lot of financial and political gains associated with this nefarious plan, so we know your motive. You are elected officials who are supposed to serve your constituents and keep them safe, so shame on you for selling us out for your greed. Now it's even public knowledge that these injections are not preventing. transmissions, and the majority of people who are getting sick are the vaccinated. So, stop doing things that are not backed by science.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

it will.create a black market and push a sizeable percentage of.the population underground. it will.break the trust between citizens and govt. Also, if there is another outbreak in.the future a big chunk.of.the citys population wony be forthcoming and cooperative. this can skew results, stats and.effectiveness of future policies.

Regarding:

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/12/21 18:00

Name: Hunter B.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 46

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

This is against the fundamental morality of government. A person has individual freedom and this passport will be a vehicle that carries and promotes further segregation.

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I strongly oppose this concept and I hope you will hear me as to why. Back in 2016 I had to receive a mandatory tetanus booster for a new job that I was taking in the healthcare field. Within minutes of receiving it I knew that something was wrong. I started to have many neurological symptoms within 5 minutes of receiving it, including vertigo, ringing in the ears, and a feeling that I can only describe as an explosion happening in my brain that instantly left me with severe brain fog. In the months that followed the fatigue compounded and became worse. Within the next year I developed an inflammatory organ condition, and within 2 years I was bed-bound and unable to work. Every day I woke with a feeling like sandbags were on my body. It hurt to move, focus for long periods of time was impossible, and my body felt completely broken. I ended up on disability for a full year, tried to work a little again in late 2019/early 2020, but had little success, and as awful as this may sound, was very grateful to have more time in 2020 to heal my body. Healing has been slow and arduous. I worked with many different kinds of practitioners and only when I started using very unconventional herbal protocols did my body start to successfully remove the less optimal ingredients in the booster that made me so sick. Only then did mental clarity and severe fatigue start to improve. My body didn't feel like it was in agony all the time. The reason I am so opposed to this potential mandate is that it seems wildly unfair to people like me for whom the vaccine would be a severe threat to our well-being. In mid-July, I ended up contracting Covid-19, but was thankfully able to get through it largely unscathed because ever since getting sick years ago, I rigorously supplement with all the things that support the body and fight viruses (Vitamin C, Zinc, B12, D, herbs, etc). I am confident I could survive another round of Covid, but I am not confident that I could survive another post vaccination round of the neurological nightmare I experienced back in 2016. I lost 3 good years of life to illness from an FDA approved vaccine, and I think you can understand that why I

“Vaccine Passport” Opposition Form No. 55

simply cannot risk it with the Covid-19 vaccine, which is not even completely FDA approved yet. Because I did “the right thing” all those years ago for a job and paid for it with years of my life, does that mean because I cannot get this vaccine that I should be banned from all indoor facilities and many activities that make life rich? Should I be deemed completely unemployable in the county of Los Angeles? I'm a bit unclear as to how far people are wanting to extend the indoor mandate, but from my understanding it would include gyms, bars, restaurants, live music venues, but I'm unsure if it would include things like grocery stores. I sincerely hope not. This would pose an obvious problem. I'd like to point out that I'm not completely “anti-vax” although I see why this statement could be misconstrued as that. I am so extremely grateful that I never had to go through polio or smallpox. My father had to suffer through measles, another experience I'm glad to have skipped thanks to vaccines. However due to the experience that I had, it is not medically advisable for someone like me to receive another vaccine of any kind. I have masked indoors when it was asked, socially distanced, and complied with all regulations up to this point, and have been a responsible citizen throughout this pandemic. With this mandate you're asking for the quarantine to never end for those who medically cannot risk getting the Covid 19 vaccine. I so hope you will consider opposing this measure. In this atmosphere where fear is understandably very high, we are looking for solutions to the Covid problem. The vaccine seems like a solution, but regrettably we're now even seeing lots of cases of breakthrough infection with those who are completely vaccinated. In this example below, 74% of people who tested positive for Covid were already fully vaccinated.

https://www.cdc.gov/mmwr/volumes/70/wr/mm7031e2.htm?s_cid=mm7031e2_w

Or consider Pfizer's own study where the amount of deaths were not statistically significantly different between those who were fully vaccinated (15/21,926) and were not vaccinated (14/21,921). The only thing that we know for sure is that the vaccine appears to reduce the amount of symptoms and severity of Covid that you get, but not even Pfizer's study can prove that it significantly reduced the chance of death. Here is the Pfizer study:

<https://www.medrxiv.org/content/10.1101/2021.07.28.21261159v1.full-text>

As science and data continue to come in between those who are vaccinated and those who are un-vaccinated, we will eventually see the long term benefits and risks. However, it is very premature with the data that we have to deem all unvaccinated people as unsafe and therefore should be banned from most indoor public places and county employment. I contracted Covid-19 from my partner who is fully vaccinated. He presented with a fever 4 days before I did. The only recommendation I could make that would maybe appease all communities would be to continue to mask indoors, and to really encourage people to take care of their health. Although we have placed lots of faith in the vaccine which it seems may help for people who are not at risk like me, the other component that has been completely left out of the conversation is the fact that people can build their natural immunity as well. I was definitely someone who was medically compromised because of my previous vaccine-related illness and I survived Covid with no severe effects because I was supplementing intensely. If we give our bodies what they need, they will

“Vaccine Passport” Opposition Form No. 55

respond accordingly. I hope you will consider not mandating the Covid 19 vaccine as a requirement for entry to indoor places and employment in LA County. People need to be able to have the right to choose what they put into their bodies without becoming social pariahs and unemployable. Please let people like me exist in this world. Thank you for your consideration

“Vaccine Passport” Opposition Form No. 56

Dated:

August 11, 2021

Attention:

Mayor Eric Garcetti; Council Member District 1 – Ron Galperin; Council Member District 2 – Paul Krekorian; Council Member District 3 – Bob Blumenfield; Council Member District 4 – Nithya Raman; Council Member District 5 – Paul Koretz; Council Member District 6 – Nury Martinez; Council Member District 7 – Monica Rodriguez; Council Member District 8 – Marqueece Harris-Dawson; Council Member District 9 – Curren D. Price, Jr.; Council Member District 10 – Mark Ridley-Thomas; Council Member District 11 – Mike Bonin; Council Member District 12 – John Lee; Council Member District 13 – Mitch O’Farrell; Council Member District 14 – Kevin de León; and Council Member District 15 – Joe Buscaino.

Regarding:

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/12/21 16:53

Name: Andrea T.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 56

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

*It is unconstitutional as it goes against my civil rights to decide for my own health and body.
Also segregation is illegal and that is exactly what this is!*

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

*I do not understand why, when every public health directive that has been taken during the last 19 months has either failed spectacularly, or failed and crippled industries and individuals in the process, that we are being asked to give up our rights for medical privacy and show a piece of paper in order to enter public spaces. This especially makes absolutely no sense when covid is being spread regardless of vaccination status and will continue to be. I fear another lockdown in the winter. This proposed vaccine passport will cripple small businesses (something similar was tried in Russia and after three weeks they gave up on this initiative due to no one patronizing the restaurants). I especially do not feel comfortable with this given that there is **NO PROPOSED END DATE** to this mandate and the mandates are proposing leaving us out of retail locations which would include grocery stores? This is fascism, authoritarianism and I simply do not trust that this will not be horribly abused in the future.*

Additional Statement: Below is why I am opposed to any “vaccine passport”:

No one should have to show paperwork to use public spaces. Does this not sound like history repeating itself? Isn't this why we were taught about the Holocaust in middle/high school? This is a blatant form of discrimination against people who have the right to choose if they are going to take the vaccine or not. You will lose a LOT of business if this happens. Everyone will move out of LA county or take their money to other counties. Good luck recovering from this COMMUNIST order.

“Vaccine Passport” Opposition Form No. 65

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I'm the grandson of a Holocaust survivor. His whole family had vaccines tested on them until they were severely disabled, and then they were thrown in ovens. The Nuremberg Code was created for a good reason. Governments, corporations, schools, etc. are ignoring it. LA using a vaccine passport is medical apartheid. The hypocrisy of the left is astounding: this will affect disenfranchised communities. More importantly, THESE SHOTS DON'T WORK and the vaccinated can infect and be infected. So what is this about? It's about controlling the population.

Regarding:

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/12/21 16:04

Name: Selina P.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 66

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

According to the governments own adverse reporting system VAERS there are over 12,000 deaths reported. An unprecedented number that should shock the CDC into action. At bare minimum each death and adverse event should be investigated. This injection should be tossed right away not mandated. How irresponsible of our government and their agencies to continue to push forward with so much evidence showing that the injections don't even work but also can cause death! Please read the reports on VAERS, these are ppl who took the chance and supported these vaccines only to pay the price. We are not an experiment. And shame on the FDA if they approve these injections with all this damning evidence to the contrary

“Vaccine Passport” Opposition Form No. 67

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Because literally everywhere I go in LA right now whether a park with children or the store I am greeted with a rotting diseased nearly dead homeless person. Given there are at minimum 70k of these on the streets of la city alone; they maaaaaay want to shift their focus to that first. Oh also, fetal lines.

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Freedom of choice NO DISCRIMINATION

“Vaccine Passport” Opposition Form No. 79

Dated:

August 11, 2021

Attention:

Mayor Eric Garcetti; Council Member District 1 – Ron Galperin; Council Member District 2 – Paul Krekorian; Council Member District 3 – Bob Blumenfield; Council Member District 4 – Nithya Raman; Council Member District 5 – Paul Koretz; Council Member District 6 – Nury Martinez; Council Member District 7 – Monica Rodriguez; Council Member District 8 – Marqueece Harris-Dawson; Council Member District 9 – Curren D. Price, Jr.; Council Member District 10 – Mark Ridley-Thomas; Council Member District 11 – Mike Bonin; Council Member District 12 – John Lee; Council Member District 13 – Mitch O’Farrell; Council Member District 14 – Kevin de León; and Council Member District 15 – Joe Buscaino.

Name: Sha T.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 79

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

The covid vaccines cause blood clots leading to heart attacks and strokes. There is no evidence that synthetic mRNA does not alter the DNA. Absolutely no evidence presented to the public. To the contrary, synthetic mRNA is a CRISPR enzyme altering the genome. (Nature publication 2018) Government cannot mandate something that can cause death. These are stories of people who have been harmed or their families have died because of covid 19 vaccine: <https://1000covidstories.com/> The Italian pathologist who performed the autopsy on 18-year-old Camila Canepa who died after receiving the vaccine stated that he has never seen the extent of blood clots in any deceased he has autopsied as he saw in this 18-year-old vaccinated death. (Can send the reference). American pathologist Dr. Ryan Cole warns of extensive blood clots he is seeing in the vaccinated dead: <https://www.bitchute.com/video/tZew8PXF5HaK/> Lawmakers cannot mandate an injection that can cause death or can harm.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I think in the name of safety we're giving up freedoms that because we agree with the reasonings now, can open up a Pandora's box that we may regret later. And science is an ever evolving study of life that is still funded and enacted by humans , many with certain agendas. Advil for an example, Advil is an NSAID that has now been known to cause massive inner stomach lining issues that has lead to people having lifelong repercussions like Diverticulitis etc. Our medical system is also massively bought by Big Pharma who's side effects are many times œcancer and deathœ. It looks like most of who are the worst affected by this virus are obese, may smoke etc so do we start demanding that people not be allowed to eat junk food because their actions are negatively affecting all of us? It gets to a point where it's too much control in the name of the greater good. Our body autonomy choices are not to be negotiated with by our government. Even vegans want a world that in the name of the greater good everyone stop eating animals for the sake of the animals and the planet. Yet other research shows that that could have devastating consequences for health even if it sounds like the kindest thing to do. TB kills 1.5 million people per year and this virus is at .0008%. Im more concerned about our economy at this point, suicides, ruined small businesses etc. I think there are other ways to handle this than a one size fits all scenario thats lasting results may be more devastating than we could ever imagine. Medical freedoms are paramount in a Democratic society.

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Vaccines must remain a personal choice. We must reject apartheid, segregation, coercion, intimidation, manipulation, or any kind of pressure for mass vaccination. Any abuse of power by elected officials which aim to limit the rights of free citizens, or in any way undermine liberty or body autonomy must result in removal from their appointed positions. WE THE PEOPLE rule the elected, they do not, and shall never rule over us. It is our duty to replace those who fail to serve THE PEOPLE by protecting their rights, freedoms and privacy. Any attempt to implement a passport that invades privacy, restricts free travel, restricts personal choice or encourages discrimination is my hard line in the sand.

The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 88

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I refuse to be forced anything into my body, especially an experimental drug

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I don't believe in the vaccine (I am aware of the toxic spike proteins used; the inevitability of getting blood clots) nor do I think the vaccine is being used for the purposes they are pushing onto the public. I believe there are hidden & ulterior motives behind this entire thing” whatever happened to “My body, my choice?” Suddenly, when it's convenient for them to change the narrative, it's what's happening. People who get the vaccine are STILL getting COVID; still spreading COVID. People who are getting the vaccine are DYING. It's worrisome that they attempt to hide so much. I'm happy you're standing up & fighting back.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

It is not a real vaccine. It is an experimental vaccine. Some credible long term effects of this vaccine include:

- 1.The Opening of The Blood Brain Barrier*
- 2.Heavy Metals in Cells*
- 3.Cerebral Venous Thrombosis*
- 4.Inflammatory Ocular Disorders*
- 5.Orbital Inflammatory Disease*
- 6.Uveitis*
- 7.Inflammatory Thrombotic Response*
- 8.Chronic Smoldering Disease*
- 9.Antibody Dependent Enhancement*
- 10.Self Disseminating Contraceptive*
- 11.Viral Reactivations*
- 12.Uterine damage*
- 13.Ovarion damage*

Los Angeles, California 90012

Regarding:

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/12/21 4:18

Name: Maria D.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 100

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

The vaccine passport is unjust because it requires who do not wish to be vaccinated to get vaccinated and prove that they are.

“Vaccine Passport” Opposition Form No. 101

Dated:

August 11, 2021

Attention:

Mayor Eric Garcetti; Council Member District 1 – Ron Galperin; Council Member District 2 – Paul Krekorian; Council Member District 3 – Bob Blumenfield; Council Member District 4 – Nithya Raman; Council Member District 5 – Paul Koretz; Council Member District 6 – Nury Martinez; Council Member District 7 – Monica Rodriguez; Council Member District 8 – Marqueece Harris-Dawson; Council Member District 9 – Curren D. Price, Jr.; Council Member District 10 – Mark Ridley-Thomas; Council Member District 11 – Mike Bonin; Council Member District 12 – John Lee; Council Member District 13 – Mitch O’Farrell; Council Member District 14 – Kevin de León; and Council Member District 15 – Joe Buscaino.

Regarding:

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/12/21 4:11

Name: James N.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 101

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I have tested positive for Covid antibodies and my doctor says the vaccine is not necessary for me.

Plus, imposing a vaccine passport for functioning in society is a dangerous slope and will lead to additional discrimination and loss of freedoms.

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Even if this injection was fully approved by the FDA, which it is not, it is completely unconstitutional and immoral to mandates everyone to take this experimental injection for a virus with 99.98% survival rate. Especially so when it is, knowledge that these injections do not stop you from getting the virus or spreading it. That being said, SARS Cov 2 Has never been isolated and visualized, and the world health organization has openly admitted that asymptomatic people do not spread infection.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I'm medically exempt from the vaccine. How are we supposed to survive. What if our exemptions are taken away like the children's were. This so a slippery slope to privacy rights for a vaccine that doesn't even have sterilizing immunity. It's illogical.

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

It's our constitution right to have freedom of choice for our bodies. And as a lifelong Christian Scientist, i turn to God and rely on prayer for any and all of my health issues and have never had any vaccines. I don't believe that our government should be able to mandate vaccines for anyone, what's next?!? Too much power is not a good thing!

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I don't trust the vaccine after seeing the negative effects it had on some people and how the government and media is hiding a lot of information and taking down anything going against the vaccine. It should be everyone's choice what goes inside our body. Vaccine passport is not only dividing everyone but it's going to effect businesses if they mandate it.

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Because no one should have the right to mandate a vaccine on my body and if I want to live a normal world with indoor dining, gym or have a job to make a living, I must get vaccinated and walk around with my proof is just not right. I haven't been sick. I haven't gotten covid. My immune system is doing its job, I don't need a vaccine and if I decided I wanted it, I should have the option , which we are not given since it's being mandated

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/12/21 2:52

Name: Judy B.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 111

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Not approved by FDA. DICTATORIAL for a city government to mandate what I need for my health. I am a Christian Scientist and oppose this on my faith in God.

The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 112

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Remember the Nuremberg Code. Remember My Body, My Choice. Remember the Unvaccinated are the much needed CONTROL GROUP in the experiment. Remember over 50,000 deaths after the shot in USA (law suit underway on that) & over 500,000 deaths in Europe & a horrifically high number of injuries including Myocarditis in young men under 30. Remember 4 out of 5 pregnant women that took the shot LOST their pregnancy... their baby. Remember the magnetic graphene oxide is traveling throughout the body, brain, organs & much of it likes to settle on women's ovaries with unknown effects on fertility at this point. The vaccine maker intended it to remain at the shot site. He warned the FDA when he discovered this experiment is going all wrong! They did nothing! Remember the Nobel prize winner Vaccinologist says the vaccinated are created MORE deadly strains & begs you to stop vaccinating during an outbreak as it is only creating more virulent strains. No masks, no vaccine, no vaccine passport, no vaccine certificate - Honor home of the FREE. Remdesivir CAUSES organ damage, organ failure & death & it was the only treatment Fauci allowed in the hospitals from Jan to Oct 2020. Hydroxychloroquine works like a charm and made my covid19 flu the easiest flu ever, and I am immunocompromised. Ivermectin worked beautifully on my friends covid19 flu and she is even worse immunocompromised. The day you can mandate, pressure, coerce and force toxic serums and chemicals into a human beings blood is the epitome of a violent action and is enslavement! Be a human being. Vote for your sovereign freedom and your descendants. Give God's natural variety of human RNA in perfectly amazing immune systems that any scientist will tell you is a marvel they still do not completely understand. Natural immunity has lasted as long as faked vaccine immunity and could very well surpass it! Let people get natural herd immunity that want it. The vaccine given after having had covid19 is also far more dangerous to that individual. Those that have not gotten the vaccine by now more than likely either have natural immunity or are the

“Vaccine Passport” Opposition Form No. 112

lucky 20% with T-cells that simply prevent them from catching Covid19. People that get the shot are MORE likely to spread disease as they may appear well yet be spreading it. MA had 74% catch covid19 & they were all vaccinated. Do not play God with humanity. If you change everyone's RNA strand in their DNA strand then who knows what the future consequences may bring. You could be responsible for ending all human life on Earth.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I Legally have a right to what I allow into my body or not. I am against any experimental substance to be injected into my body. Especially when one already has a severe compromised immune system. It is despicable someone else trying to, force, manipulate, and bribe people to inject their bodies with toxic substances NOT KNOWING LONG TERM EFFECTS.

God help us all!

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I have so many reasons why:

First of all the shots are experimental - no matter IF the FDA approves them in the near future - official trials won't be completed until 2022/2023.

I am simply not willing to be part of a huge medical experiment - especially against my will!!!

The very imposition of mandates is a violation of the Nuremberg Code.

Also - I've read too much about the Vaxx injuries!! There are so many that in any other circumstance, the FDA would have pulled the drugs immediately. Why haven't they done so??

And there were and are medications that exist that can not only prevent Covid but cure it - yet those medications were and continue to be withheld from the American People!!

Need I say more??

Oh! And I have religious objections as well!!

Additional Statement: Below is why I am opposed to any “vaccine passport”:

We should be free to choose whether we vaccinate or not. We should never be forced to put anything in our body that we don't want in it. To lose the ability to work buy food and live a normal life being the price we pay For not complying. This will Tyranny will never sop if it doesn't stop right now.

“Vaccine Passport” Opposition Form No. 122

Dated:

August 11, 2021

Attention:

Mayor Eric Garcetti; Council Member District 1 – Ron Galperin; Council Member District 2 – Paul Krekorian; Council Member District 3 – Bob Blumenfield; Council Member District 4 – Nithya Raman; Council Member District 5 – Paul Koretz; Council Member District 6 – Nury Martinez; Council Member District 7 – Monica Rodriguez; Council Member District 8 – Marqueece Harris-Dawson; Council Member District 9 – Curren D. Price, Jr.; Council Member District 10 – Mark Ridley-Thomas; Council Member District 11 – Mike Bonin; Council Member District 12 – John Lee; Council Member District 13 – Mitch O’Farrell; Council Member District 14 – Kevin de León; and Council Member District 15 – Joe Buscaino.

Regarding:

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/11/21 23:58

Name: Sue A.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 122

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

It is being used to force ppl to get the jab in order to get their life back. I have read thousands of horrible things about this particular covid jab.

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

The vaccines are harmful and in many cases deadly. They don't meet the legal definition of a vaccine because they do not confer immunity, and they are not made from a live virus. Most important, the manufacturers of the 'vaccines' have exempted themselves from liability. If I am injured from their products, I have no legal recourse and will have to personally pay for all my medical costs, there will be no reimbursement for lost wages due to being unable to work.

“Vaccine Passport” Opposition Form No. 131

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Vaccine passports will create a 2-tiered society. Where groups of people will be treated differently based on their health status. This action is discriminatory and violates our rights under the constitution. Given that many people of color have chosen to decline the vaccine the passports would disproportionately impact communities of color, that would yet again face discrimination and segregation. Vaccine passports have no role in a free and Democratic society.

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/11/21 22:42

Name: Isabel S.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 132

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Vaccine passports will create a 2-tiered society. Where groups of people will be treated differently based on their health status. This action is discriminatory and violates our rights under the constitution. Given that many people of color have chosen to decline the vaccine the passports would disproportionately impact communities of color, that would yet again face discrimination and segregation. Vaccine passports have no role in a free and Democratic society.

“Vaccine Passport” Opposition Form No. 133

Additional Statement: Below is why I am opposed to any “vaccine passport”:

These are experimental gene modification injections which have not had time to undergo adequate safety testing. Their efficacy is questionable at best considering most of the patients hospitalized with COVID-19 in Israel are vaccinated. So many have suffered injuries and deaths from this shot. I will strongly consider leaving this city if these mandates go into effect.

There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I am opposed to this because I find it unnecessary and completely irresponsible as well as it showing actual evidentiary support. There are people who have a right to choose, others who can not take shots because it will harm them as we as many other reasons but lastly, I shouldn't have to explain myself as to why this is complete infringement on our freedoms

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/11/21 20:24

Name: Jorge M.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 144

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

We are given cards for the vaccine they should be enough to be able to prove we have had our shot we would just need to laminate it and carry it around like our DL or ID

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

As a registered nurse, it is my job to protect my patients bodily autonomy. Of course I believe vaccination is the best way for the world to beat COVID, but it is a persons personal choice what they put in their body. Restricting movement is NOT respecting bodily autonomy. This goes against medical and constitutional ethics. I am ASHAMED of LA City Council's suggestion, and even though I AM vaccinated out of respect I WILL be moving, and LA will lose one of its most qualified and talented bone marrow transplant nurses.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

No FDA approval, VAERS confirmed thousands of adverse reactions including death. If there's a risk, there should be a choice ALWAYS. The vaccine doesn't stop transmission. It's not effective at reducing the spread. No forced experimental vaccination. It's completely against our human rights.

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

The COVID 19 vaccines are failing and do little to protect anyone against any outbreaks. Over 50,000 people have died as a result of the COVID-19 vaccines in America, alone. Mandating these vaccines to enter a store, go out to a restaurant, work or attend school is beyond un-humanitarian. The government should never be allowed to dictate what a free person does to his or her body. I strongly urge you to vote against any sort of vaccine passport in LA or LA county.

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/11/21 16:33

Name: Brent C.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 154

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I'm against segregation. The passport does not follow science. It is driven by politicians to cause division.

“Vaccine Passport” Opposition Form No. 157

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Forcing people to undergo medical treatments is illegal. Those shots don't stop transmission, are experimental, and have potential adverse reactions that vaccine companies aren't liable for. America is built on freedom of choice and body autonomy. Taking those rights away is not only unconstitutional but unethical. My body, my choice!

Additional Statement: Below is why I am opposed to any “vaccine passport”:

There are so many reasons! I'm not comfortable getting the vaccine at this time. There is so much uncertainty and not enough testing has been done. It should be my choice to get a vaccine that hasn't even been out for a year for a virus that has a 99% survival rate. It's my choice and my risk to catch COVID. The fact that they aren't recognizing people's natural antibodies is ridiculous. They are bribing people to get it, censoring people, and now mandating people get it is wrong. The vaccine doesn't prevent or stop the chance of getting or spreading COVID and people have had terrible adverse reactions. They are using fear to manipulate and divide people and it's not ok.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I am opposed to the vaccine passport because this is a virus that has 99.98% of recovery. Those who are concerned should have the freedom to get vaccinated but it should not be mandatory. If these vaccine passports pass, it means we learned nothing from the horrific crimes that occurred during WWII with people having to wear stars to identify as Jews. The vaccine passport identify you as vaccine, and make it seem as you are superior to those who have the rights and freedoms to choose what goes into their body. We are a free world, a democracy, and these things should not be mandated. It should be a choice and one should not be treated any differently. If a person has AIDS, they don't walk around and have to show whether they have aids. Although aids is a transmutable disease. We have rights. And these passports go against the Nuremberg codes and what we as a world were once appalled and surprised how atrocities to man kind occurred.

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/11/21 14:38

Name: Amy T.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 166

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Because it makes zero scientific sense, it is discriminatory and unethical.

“Vaccine Passport” Opposition Form No. 167

Dated:

August 11, 2021

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Illegals flood our country with covid and no one cares as they are shipped throughout our country. There's no scientific evidence that the virus has been isolated. Those infected w covid have better immunity to the virus. Information on adverse reactions to the vaccine have not been properly studied. People are dying in larger numbers that have been vaccinated. The cdc has eliminated hospitals from reporting that those vaccinated have been infected w covid. We are Americans regardless of what these people say we have a right against forced vaccinations. This violates the Nuremberg accord. There are many other reasons!!

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

By definition this is “unequal treatment under the law”. Not every person in or around LA County will be eligible for the vaccine passport. It is my personal belief, like many others in society and the military, as an elected California Official like Mitch O’Farrell (District 13) and Nury Martinez (District 6), that COVID-19 originated from a Wuhan Bioweapon laboratory in China. Therefore the experimental bioweapon vaccine to combat against the bioweapon known as the COVID-19, is still undergoing tests to become FDA approved. The Los Angeles City does not have the military expertise, training, nor understanding in bioweapons, therefore should not be enacting laws like the Vaccine Passport for Los Angeles. Our Los Angeles businesses, school children, elderly, and others have suffered enough. Are we going to ban our military, police, clergy, educators, and others from society for waiting for FDA approval for the bioweapon COVID-19 Vaccine approval?

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I am opposed to passport due to it restricting where I am able to go. I am also against the passport due to it being my medical history being shown to others. Using the passport creates a world of segregation. This passport should not be used due to the fact it goes against constitution rights and California civic code.

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Medical choice!

“Vaccine Passport” Opposition Form No. 179

Dated:

August 11, 2021

Attention:

Mayor Eric Garcetti; Council Member District 1 – Ron Galperin; Council Member District 2 – Paul Krekorian; Council Member District 3 – Bob Blumenfield; Council Member District 4 – Nithya Raman; Council Member District 5 – Paul Koretz; Council Member District 6 – Nury Martinez; Council Member District 7 – Monica Rodriguez; Council Member District 8 – Marqueece Harris-Dawson; Council Member District 9 – Curren D. Price, Jr.; Council Member District 10 – Mark Ridley-Thomas; Council Member District 11 – Mike Bonin; Council Member District 12 – John Lee; Council Member District 13 – Mitch O’Farrell; Council Member District 14 – Kevin de León; and Council Member District 15 – Joe Buscaino.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Getting vaccinated is a personal health decision and given the fact that there is no long term or medium term data that proves this vaccine is not dangerous the government should not be allowed to force people to comply to what is a medical experiment at this juncture. By California's own studies almost half of Los Angeles residents have already had the virus and are there for naturally immune. In fact we have not heard of one case of someone getting reinfected with this new delta variant that has already had covid. But we have many many cases in those that have been vaccinated. Natural immunity is stronger and that is real science. This policy also discriminates against those that cannot get the vaccination. Those prone to blood clotting or other auto immune diseases or who have had Bell's palsy. They can say it is safe but the fact is that they just don't know because there is NO medium term or long term data to prove it. But we have well over half a million recorded serious adverse effects that they will acknowledge. Over 11 thousand deaths in less than a year from the vaccine that they will acknowledge. What ever happened to real science and not the science of pick and choose? Truth does not mind being questioned. A lie will fight to survive. They are fighting mighty hard to shut down all questions about their science and multiple lies. Punishment for questioning them? Exclusion from everyday life. Sounds like Germany circa 1933 or the beginning years of Stalin. Time for people to wake up before it's too late.

Regarding:

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/11/21 7:06

Name: Shannon S.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 189

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

My family has a history of shingles and Gillian barr syndrome. These are both side affects of the vaccine. I cannot risk it.

“Vaccine Passport” Opposition Form No. 190

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/11/21 6:51

Name: Laura R.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 190

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

The vaccine is experimental and requiring individuals to get it or be punished is criminal. This hurts people and businesses. The state, county and city should never have the power to enforce something so fundamentally wrong. We don't even have accurate data on cases, numbers, or ANY data on the long term impacts of the vaccine. If the vaccine doesn't stop the spread then why separate unvaccinated and vaccinated? It make no scientific sense. There is another agenda here and I will never let someone control my body or interfere with my right to access establishments where I live, pay taxes and contribute to. This is discrimination.

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

It blatantly violates my civil liberty! I'm a cancer survivor still on maintenance medication. I currently have a bad liver and bad kidneys from that medication. My body cannot handle additional medication that has the potential to kill me. No one has the right to force medication on anyone and they would be preventing me from freely going to buy groceries or go into a retail store by forcing me to be vaccinated which is violating my basic human right of freedom and my freedom to choose! it's my body and my choice not to be vaccinated & that is no one else's business.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I already had COVID-19 I have antibodies so I'm not to afraid of it, considering I got it while wearing a mask, Face shield, and gloves I took all precautions and still got it I know people who got the vaccine and are either suffering from long term health issues or got Delta Variant because of it. I think what LA is trying to do by following in NY footsteps is so wrong. This needs to stop. I've lived here my whole life I even work in the film industry, but I will leave this state to get away from the hive mind of radicals if this goes through.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I oppose vaccine passports because I have the right to travel freely and enter public establishments without having to show my medical records. I oppose vaccine passports because government overreach is getting ridiculous. They should focus more on fixing the homeless situation. Why do I have to inject myself with new vaccine technology that has no long term studies?

“Vaccine Passport” Opposition Form No. 200

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

This is totally unnecessary. If the vaccine does not prevent you from transmitting it and it's only to reduce one's personal risk of severe symptoms, why would you need a vaccine or a vaccine passport to enter a business? Isn't the point of a vaccine to prevent transmission and prevent the spread of the virus? This so-called vaccine does not do either prevent one from contracting or spreading of co-vid19. It is medical discrimination, a violation of the Nuremberg code, a violation of heppa protected medical privacy rights , and totally unacceptable as a citizen of California to be subjected to such violations of our civil rights.

Regarding:

Los Angeles City Council Agenda Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA **“The Los Angeles Vaccine Passport”** AKA **“Vaccine Passport”**

Date: 8/11/21 5:17

Name: Leah R.

This Opposition Form was submitted to David Alexander Bramante, so that he may deliver it to the Los Angeles City Council Members, on my behalf. I have requested that Mr. Bramante submitted this form to all of the City Council Members, as a matter of public record, and I have also asked him to read my Additional Statement below for the record as well. Given the political climate around the topic of COVID, I have provided my full name, mobile number and email to Mr. Bramante, but asked him to keep it confidential for the time being. The purpose of this form is to show:

“Vaccine Passport” Opposition Form No. 201

1. There is public support for David Alexander Bramante’s Affidavit of Demand to Show Clean Hands and Federal Partnerships [Declaration of Membership in Private Association and Private Status]; and
2. There is public opposition to Item #19 “21-0878: Consideration of Motion (Martinez - O’Farrell - Harris-Dawson - Raman)” AKA “The Los Angeles Vaccine Passport” AKA “Vaccine Passport” and that we demand that any consideration, in the form of additional motions, ordinances and hearings for a “vaccine passport” be postponed by at least 30 days from today’s date. This demand is to allow for a full impact report to be completed by Los Angeles City and its People (specifically looking at how minority groups may be discriminated against by a “vaccine passport” and that the COVID vaccines are experimental, without FDA approval, showing many instances of adverse side effects). The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

It's unconstitutional! Illegal! And morally wrong! This isn't Nazi Germany. Stop this Evil nonsense.

“Vaccine Passport” Opposition Form No. 205

Dated:

August 11, 2021

Attention:

Mayor Eric Garcetti; Council Member District 1 – Ron Galperin; Council Member District 2 – Paul Krekorian; Council Member District 3 – Bob Blumenfield; Council Member District 4 – Nithya Raman; Council Member District 5 – Paul Koretz; Council Member District 6 – Nury Martinez; Council Member District 7 – Monica Rodriguez; Council Member District 8 – Marqueece Harris-Dawson; Council Member District 9 – Curren D. Price, Jr.; Council Member District 10 – Mark Ridley-Thomas; Council Member District 11 – Mike Bonin; Council Member District 12 – John Lee; Council Member District 13 – Mitch O’Farrell; Council Member District 14 – Kevin de León; and Council Member District 15 – Joe Buscaino.

The City Council only notified the public on August 4, 2021 that this motion would be heard in City Hall. This is not ample for the public.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

There's no need to discriminate any person that is not ok with being vaccinated. That's against our constitution and we as the people should have freedom of choice.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

I am opposed to carrying any legal documents other than legal I.D to be able to move freely about the USA, in any state. It’s too much like Nazi German , as history unless carefully remembered & certain practices stopped, always repeats itself. Countries crumble from within over division. The passport divides us. Never before has a flu enforced documentation that you had a flu shot.

Additional Statement: Below is why I am opposed to any “vaccine passport”:

Because its a violation of my civil rights. The vaccine is not FDA approved and I am choosing to wait until it is. The passport would prevent me from going about my life while I wait til a vaccine is safe.
