**Comments for Public Posting:** Hi I am opposing this mandate we are living in the United States of America we do not live in a Communist country you cannot mandate this on the people of Los Angeles it's un constitutional it's illegal to mandate Experimental vaccine on people if you go back to the Nuremberg trials your see all the legal documentation. you're taking away people's rights not only that it will not help with Covid Covid is still going to be here you. You can still get it and spread it in a bar in a winery in a restaurant it doesn't matter the viruses mutate dating faster then you can the best thing is natural immunity where people have the best immunity in their bodies you are not following the science you are following media you are following the FDA and CDC that are absolutely corrupt and nobody is listening to so mandating that will only hurt business. And it looks like it's not about the vaccine or the virus it's already political: money on the farm Masuda call company so people are coming out and seeing things as they are not as you guys put it in so take that into consideration please follow the science not CDC is not giving the right data there is suppressing a lot of things. Thank you

**Comments for Public Posting:** Dear councilmembers: I am writing to oppose the adoption of the ordinance you are considering today September 29, 2021 to article 10 Chapter XX to require proof of COVID-19 vaccination at indoor public locations. This mandate is a violation of the United States Constitution. It is also anti science. Cdc has stated vaccinated have the same viral load as unvaccinated when it comes to the delta variants. They can catch and spread the same as unvaccinated.  
<https://www.cdc.gov/media/releases/2021/s0730-mmwr-covid-19.html>. This also does not include those with natural immunity who have just as good immunity as vaccinated, natural immunity may even last longer. You will hurt local businesses and people will move out of the area. This will be the area know for discrimination in many ways. I implore you to consider less restrictive measures that other cities around the country have taken to reduce COVID-19 exposure; cities whose infection rates have never been as high as Los Angeles. Our city has experienced some of the toughest mandates in the country, and yet infection rates are still higher than almost every other city in the country. Something isn't working here. Further, discrimination against unvaccinated individuals makes zero sense since so many fully vaccinated individuals are still contracting the virus at alarmingly high rates. This is not the answer. Thank you.

**Comments for Public Posting:** Dear councilmembers: I am writing to oppose the adoption of the ordinance you are considering today September 29, 2021 to article 10 Chapter XX to require proof of COVID-19 vaccination at indoor public locations. This mandate is a violation of the United States Constitution. Do you know just how detrimental this mandate and the associated penalties will cripple the economy even more and destroy businesses that have barely made it this far through the pandemic? I implore you to consider less restrictive measures that other cities around the country have taken to reduce COVID-19 exposure; cities whose infection rates have never been as high as Los Angeles. Our city has experienced some of the toughest mandates in the country, and yet infection rates are still higher than almost every other city in the country. Something isn't working here. **Comments for Public Posting:** I am posting a comment about the passing of any mandates in district 15 that would restrict residents from gaining entry to public venues or events without proof of a Covid Vaccine. It's unconstitutional and I would never agree that we resort to anything like that here.

**Comments for Public Posting:** IMPORTANT!!!! Good morning everyone: it is vital that each and everyone of us emails the LA City Council ASAP this morning. At 10 AM they will have a meeting and will consider the proposed ordinance for vaccine mandates to enter indoor public spaces including restaurants, bars, fast food establishments, coffee shops, tasting rooms, cafeterias, food courts, breweries, wineries, distilleries, banquet Halls, and Hotel ballroom. Gyms, fitness venues, Entertainment venues, movie theaters, concert venues, shopping centers, performing arts theaters, bowling alleys, museums, shopping centers, nail salons, hair salons, etc. etc. It's item # 34 on the agenda and Council File # 21-0878 Go to [LAcouncilcomment.com](http://LAcouncilcomment.com) Here is what I wrote. Feel free to copy and paste——- Dear councilmembers: I am writing to oppose the adoption of the ordinance you are considering today September 29, 2021 to article 10 Chapter XX to require proof of COVID-19 vaccination at indoor public locations. **Comments for Public Posting:** Please do not pass this mandate. People who have the vaccination are still catching and spreading it. A vaccine passport is not effective in the prevention or spread of covid. It is medical discrimination for people like me - who may want a vaccination, but can't get it. I have a serious auto immune disorder and was told by a UCLA MD that I should NOT take it because of the potential side effects. It is against the HIPPA law to ask people for their private medical information. And people with hepatitis, AiDS and other infectious diseases are much more likely to spread deadly illness but are not being asked to provide "their papers". It will make more people leave LA, depleting our tax base further. India and the CDC have come out with new information that Ivermectin is a good early treatment to stop cases in their tracks. It's important to make this decision based on the new information, not on old info of 2020. Please do the right thing and vote NO.

**Comments for Public Posting:** Regarding Pandemic Vote today: Don't go there--too restrictive!!  
Things continue to get better---More and more are vaxxed. Make  
a positive move--don't go backwards!
