Comments for Public Posting: If the city council votes to mandate that individuals shall be discriminated against by businesses because of their medical history. I pity the business that tells someone that they can't enter. I look forward to group protests inside of businesses that discriminate per the LA County orders. That will be on the council's hands.

Comments for Public Posting: Dear councilmembers: I am writing to oppose the adoption of the ordinance you are considering today September 29, 2021 to article 10 Chapter XX to require proof of COVID-19 vaccination at indoor public locations. This mandate is a violation of the United States Constitution. Do you know just how detrimental this mandate and the associated penalties will cripple the economy even more and destroy businesses that have barely made it this far through the pandemic? I implore you to consider less restrictive measures that other cities around the country have taken to reduce COVID-19 exposure; cities whose infection rates have never been as high as Los Angeles. Our city has experienced some of the toughest mandates in the country, and yet infection rates are still higher than almost every other city in the country. Something isn't working here. Further, discrimination against unvaccinated individuals makes zero sense since so many fully vaccinated individuals are still contracting the virus at alarmingly high rates. This is not the answer. Thank you.

Comments for Public Posting: I do not agree with vaccine mandates of showing vaccination status to enter indoor public places- restaurants, gyms, etc... This segregates minorities and people of our society who pays taxes to the community. This will also impact businesses in the area that are trying to make a living. They will loose a huge customer base. It is also in direct violation of our and their civil rights! Everyone should be free from discrimination based on gender, color, disability, sexual orientation and medical status. Please do not approve this.
