**Comments for Public Posting:** Dear councilmembers: I am writing to oppose the adoption of the ordinance you are considering today September 29, 2021 to article 10 Chapter XX to require proof of COVID-19 vaccination at indoor public locations. This mandate is a violation of the United States Constitution. Our city has experienced some of the toughest mandates in the country, and yet infection rates are still higher than almost every other city in the country. Something is amiss here. Further, discrimination against unvaccinated individuals makes zero sense since so many fully vaccinated individuals are still contracting the virus at alarmingly high rates. This is not the answer. It will only cause discrimination among citizens!

**Comments for Public Posting:** Dear brain dead Council members: I am writing to oppose the adoption of the ordinance you are considering today September 29, 2021 to article 10 Chapter XX to require proof of COVID-19 vaccination at indoor public locations. This mandate is a violation of the United States Constitution. Do you know just how detrimental this mandate and the associated penalties will cripple the economy even more and destroy businesses that have barely made it this far through the pandemic? I implore you to consider less restrictive measures that other cities around the country have taken to reduce COVID-19 exposure; cities whose infection rates have never been as high as Los Angeles. Our city has experienced some of the toughest mandates in the country, and yet infection rates are still higher than almost every other city in the country. Something isn't working here. Further, discrimination against unvaccinated individuals makes zero sense since so many fully vaccinated individuals are still contracting the virus at alarmingly high rates. This is not the answer. Thank you.

**Comments for Public Posting:** I am writing to oppose the adoption of the ordinance you are considering, Council File #21-0878, that will require proof of COVID-19 vaccination at indoor public locations. This mandate is a violation of the United States Constitution. This mandate and its associated penalties will cripple the economy even more and further destroy local businesses that have barely made it through the pandemic. I implore you to adapt less restrictive measures that other cities around the country have taken to reduce COVID-19 exposure; cities whose infection rates have never been as high as Los Angeles. Our city has experienced some of the toughest mandates in the country, and yet infection rates are still higher than almost every other city in the country. Adding more stringent restrictions to a system that is already not working is not an effective strategy. Discrimination against and condemnation of nonvaccinated individuals is morally and ethically wrong. Not only that, many fully vaccinated individuals are still contracting the virus at alarmingly high rates, which has nothing to do with those who are nonvaccinated. This is not the answer. Let us find a more sustainable solution. Thank you. Julie Jordan

**Comments for Public Posting:** I strongly oppose the proposed measure to require proof of vaccination to enter various indoor facilities. My Jewish grandmother came to this country because she was forced to show papers everywhere she went and was discriminated against because she didn't have the "right" papers. I find it shameful in 2021 that I even have to oppose a measure like this in the United States of America. This is blatant violation of the civil rights act. The City of LA should never allow government sponsored discrimination and segregation.

**Comments for Public Posting:** Dear council members, I am writing as a concerned native of Los Angeles. The proposed ordinance would discriminate against thousands of people who live and work in the city and would cause unbelievable amounts of hardship on residents and small businesses. I respectfully urge all city council members to please Vote NO this ordinance. This would destroy the city and we already have enough issues with crime at an all time high and the homeless crisis

**Comments for Public Posting:** I learned that you delayed the vote for vaccine mandate for the next week. I encourage you to vote IN FAVOR of vaccine mandate. I am writing to support enforcing of vaccine mandate. I honestly don't understand why this is taking so long. It is already implemented in New York and San Francisco, and different countries in Europe. I think we accommodated unvaccinated people long enough by wearing masks and being patient. However, vaccinated people in the meantime are hesitant to go to the cinemas or restaurants, because we are mixed with nonvaccinated people. My 17 years old son rushed to vaccinate when it became available for his age in order to protect himself and others. However, he doesn't feel safe at his high school where at least half of his peers refuse vaccinating. He has asthma and is afraid to go to school. I work at another high school and don't feel safe at all, having 82 students in one of my classes, half of them not vaccinated, no social distances or anything. Do you think the masks will be enough keep us safe in this situation?? It is just the matter of time for me to get COVID. All the teachers and age eligible students must be vaccinated! To me its just like smokers - they are allowed to chose putting their health in danger, but not mine or my family. How is this any different? Its time to stop this. Vaccine should be definitely mandatory to enter inside places which are non-essential and schools especially! I especially encourage you to add school staff and age eligible students to this mandate ASAP! We can stop this madness, lets do this together!
