Council File No: 21-0921-S1

Comments for Public Posting: I strongly urge the Covid-19 committee and the full city council to reject this motion. The covid pandemic is still with us, people continue to be infected, hospitalized and die. According to the L.A. Times as of Saturday 3/12/2022 L.A. County was still in a category of "Substantial Transmission". Public Health officers continue to stress the importance of vaccination. It is alarming that many people, including our public safety officers, are believing misinformation and conspiracy theory's. It is critical that the city of Los Angeles maintain vaccine mandates to protect your staff and the public. Thank you.
