Comments for Public Posting: I support Joe Buscaino's move to let unvaccinated City employees make their own medical decisions. Stop the mandates and give loyal employees their jobs back. Thank you.

Comments for Public Posting: I support the recession of the city employee vaccination mandate. Vaccination mandates for vaccines that do not prevent transmission and have a growing list of adverse effects for more and more people (e.g. myocarditis) are unethical, ineffective and costly in terms of administration and opening the city to possible lawsuits over such adverse effects. Furthermore, it unnecessarily and cruelly fosters medical discrimination and segregation. Those who deem the vaccine worth the risks should get it. Those who do not should have their civil and human rights to bodily autonomy and participation in civic life respected.
