Comments for Public Posting: I own a Yoga and Dance studio in Crenshaw Boulevard since 2004. Crenshaw, or Crenshaw District a neighborhood in South LA. Crenshaw Boulevard commercial corridor has many different cultural backgrounds throughout the years but I noted they don't have a Yoga studio? A place where people can come to relax, learn, and exploring yoga in a friendly low cost or even free environment. What are the health benefits of yoga? Yoga help improve general wellness by relieving stress, supporting good health, encourage healthy living style and can improving mental/emotional health. OK, what that have to do with Crenshaw Crossing? What is the most common stress in everyone in present days? It is HOUSING!! A good, clean, safe and affordable hosing. It does not need to be big. A Place they can call HOME. A place shield from cold, rain and danger, you closed the door and can sleep in peace. That is what Crenshaw Crossing can provided. I support this project 100%. And I wish Crenshaw Crossing can provide or even considered more affordable units in the near future. Yoga heals the mind and body HOUSING can maintain a stable community. So, we all WIN.

Comments for Public Posting: Dear PLUM Committee, Thank you for your time. As a 3-year resident of the Leimert Park community, I have been tracking the evolution of the Crenshaw Crossing development since moving to this incredible community. Over the same period of time, it's become ever more clear that we are in a true housing crisis. As such, I am very keen to support responsible development in this city, and in my neighborhood in particular. I believe the developer has done a steady job of listening to the community's feedback and I am excited about the incorporation of commercial uses (especially an affordable, health-focused grocer considering the food desert our community is in). I respectfully request that you approve this project. Thank you for your consideration. Michelle Keith, Olmsted Ave.

Comments for Public Posting: I am a longtime resident of the Crenshaw community. I provide architect services to local business owners and residents of the Greater Los Angeles area. My public comment is in support of the Crenshaw Crossing project. I have been following the project's updates for over 2 years now and I am impressed with the commitment to our community to build a beautiful development with great amenities. The project team has listened to the community and made changes to benefit the local residents near the development site and beyond. I can't wait to visit Crenshaw Crossing once it is completed.

Comments for Public Posting: My name is Kashif and I am writing in support of the Crenshaw Crossing project. I learned about this project through a neighborhood council meeting. I believe the Crenshaw area is in desperate need of more housing, especially affordable housing. This project will also bring a much needed grocery store to the neighborhood. Lastly, I think that the local residents will appreciate the new businesses and opportunities this project will bring. Thank you.
