Comments for Public Posting: My name is Janet Mendez I have worked in the Crenshaw Community for over 10 years I spend most of my days here in Crenshaw and I love what Crenshaw Crossing has proposed. They have done a great job at listening to the community and reflecting the needs. The things this project brings to the community are of great value, jobs for our local people, a grocer after many have left the South L.A. area. Affordable housing will greatly benefit Crenshaw and I fully support the project and am super excited to see it come to fruition.
