RECOMMENDATION

That the City Council, subject to the approval of the Mayor, authorize the Chief of Police, or designee, to execute a Second Amendment to Contract No. C-129868 with Clean Harbors Environmental Services, Inc. to continue to provide routine hazardous waste management services through June 30, 2023, contingent upon the confirmation of all required contractor compliance documents and the approval of the City Attorney as to form.

SUMMARY

The Los Angeles Police Department (LAPD) is requesting authority to execute a Second Amendment to the Agreement with Clean Harbors Environmental Services, Inc. (Clean Harbors) to provide routine waste management services with an annual contract budget not to exceed \$400,000. The LAPD's proposed Second Amendment would extend the current contract term by two years, from July 1, 2021 through June 30, 2023, to allow the LAPD sufficient time to conduct a new competitive bid process for these services.

In May 2015, the LAPD issued a Request for Proposals for hazardous materials waste disposal services. On July 1, 2017, the LAPD and the selected contractor, Clean Harbors, entered into a

three-year agreement to provide hazardous materials waste management services (Contract No. C-129868). The First Amendment extended the term of the original agreement for one year, from July 1, 2020 to June 30, 2021, due to the COVID-19 pandemic. On August 3, 2021, the Board of Police Commissioners approved the proposed Second Amendment to extend the agreement for two additional years. Council approval is required as the total proposed contract term exceeds three years.

The LAPD produces hazardous waste at various facilities in the course of performing regular day-to-day functions and has relied on a contractor to dispose of the generated hazardous materials. Due to the chemical nature of these items, they cannot be disposed of in the City's trash receptacles and must be discarded in compliance with State and Federal laws. The provisions of California Public Resources Code, Section 41500, and California State Regulations (Title 14, Section 18751.1) specifically require the implementation and operation of Household Hazardous Waste (HHW) collection programs to safely and effectively dispose of hazardous waste.

LAPD has averaged about \$189,000 in annual contract costs for each of the last four fiscal years. In the 2021-22 Adopted Budget, LAPD's Contractual Services schedule includes \$159,000 for hazardous waste disposal. The Department will be required to identify additional funds for the contract within its budget, should the services exceed the specified contract amount. This Office recommends approval of the proposed contract extension as hazardous waste disposal is legally mandated and protects public health and safety.

FISCAL IMPACT STATEMENT

There is a General Fund impact of up to \$400,000 each year of the proposed two-year extension. Funding for the contract is available in the 2021-22 Adopted Budget. Subsequent year funding will be subject to consideration during the budget development process.

FINANCIAL POLICIES STATEMENT

The recommendation in this report complies with the City Financial Policies in that the City's financial obligation is limited to funds budgeted for this purpose.

Clean Harbors Emergency Response Pricing Schedule

GENERAL CONDITIONS

1. Except where superseded by an existing services agreement the following terms and conditions apply to this quoted business.
2. Pricing effective March 28, 2021 and valid for one year thereafter.
3. Terms: Net 60 Days
4. Interest will be charged at 1.5% per month or maximum allowed by law for all past due amounts.
5. Local, state and federal fees/taxes applying to the generating location/receiving facilities are not included in disposal pricing and will be added to each invoice as applicable.
6. Materials subject to additional charges if they do not conform to the listed specifications.
7. All drums for disposal must be D.O.T. approved containers and in good condition.
8. All containers must be marked with Clean Harbors' profile number.
9. Clean Harbors will provide a manifest and necessary labels for transportation with a charge of \$1.25 per label.
10. Electronically submitted profiles will be approved at no charge. Paper profiles will be charged at \$75.00 each.
11. Clean Harbors supports many invoice delivery options (E-mail, Electronic Invoicing, EDI, Etc.). Pricing is based on Clean Harbors' standard invoice delivery method of E-mail. If another delivery method is required there could be an additional service fee per invoice. Any alternate delivery method must be reviewed and approved by Clean Harbors prior to acceptance and implementation.
12. Compressed gas cylinders requiring special handling due to inoperable valves will be assessed an additional charge of \$400.00 per cylinder. Cylinders larger than medium size will be quoted case by case. This charge may be sent as a supplemental invoice.
13. A variable Recovery Fee (that fluctuates with the DOE national average diesel price), currently at 12.5%, is included in our quoted pricing.
14. Transportation charges to the final disposal facility will be charged in addition to local transportation to our truck to truck hub/local facility and will vary with logistics and routing.
15. Pickups that require same day or next day service may be subject to additional charges.
16. Pickups cancelled within 72 hours of scheduling will be subject to cancellation charges.
17. Transportation charges to the final disposal facility will be charged in addition to local transportation to our truck to truck hub/local facility and will vary with logistics and routing.
18. Out of Service (OSD) for PCB incinerables should be clearly identified in Section 14 of the manifest. Prices for these items are only effective if received within 6 months of the OSD.
19. Standard disposal conversions (excluding minimums) apply to containers other than 5 gallon drums: 6-20g 60%, 21-30g 75%, 31-55g 100%, 56-85g 145%, FBIN 350%, TOT2(<300gal TOTE) 500%, TOTE 630%.
20. In the event that legal or other action is required to collect unpaid invoice balances, Customer agrees to pay all costs of collection, including reasonable attorneys' fees, and agrees to the jurisdiction of the Commonwealth of Massachusetts.
21. On June 30, 2018 the EPA activated the E-Manifest system. The EPA will charge the receiving TSDF a fee per manifest. To cover the cost of the E-Manifest, Clean Harbors will charge \$20 per manifest on every invoice.
22. CARRAA: The additional excise and sales tax added to the price of diesel fuel at the pump under the California Road Repair and Accountability Act (CARRAA) of 2017 has increased the cost of providing waste management services in the State of California. To off-set this extra cost, Clean Harbors is implementing a 2% CARRAA Fee on every invoice for a California generator.
23. Time over eight (8) hours in the normal workday and all day Saturday is considered overtime and will be billed at 1.5 times the applicable straight time rate for all billable personnel unless otherwise quoted. Sunday and Holidays are considered premium time and will be billed at 2.0 times the applicable straight time rate for all billable personnel unless otherwise quoted.
24. Final invoicing will be based upon the unit rates for those items used in performance of the services and materials shipped for disposal. In the event the unit price of an item required for proper performance of service is not listed in this quotation, the item will be invoiced at list pricing.
