i'm exhausted complaining about metro mta buses (all you will do is give me a generic response and you will still collect your undeserved paycheck)

once again i was stranded in the cold weather waiting 1.5hours for the metro mta bus

i will prey everyday for you to become poor so you will be forced to take the bus

this bus has stranded us poor people since 2019 (before covid). and since the average wait is over 1.5 hours for this bus, they still have the guts to charge us? they should be ashamed of themselves. this bus should ALWAYS be free. cover up the payment device so we poor people don't have to pay to wait 1.5hours in the cold weather.

metro mta bus #232 (metro.net)

headsign = long beach

green line - mariposa station

12-6-2022

1:13pm bus cancelled

1:40pm bus cancelled

please enjoy your undeserved paycheck (how could you not?)
