**Comments for Public Posting:** Dear Councilmembers: I whole heartedly support the creation of a permanent Slow Streets program in the City of Los Angeles! Slow Streets has done so much to alter the traffic in our neighborhood for the better. Cars have stopped racing up and down our streets and I feel so much safer walking my grandchildren along our sidewalks. This is what a neighborhood should feel like. It is one of the best programs the City has piloted to date. By making the program permanent, giving it a framework for implementation, and properly funding it, we can make our neighborhood streets safer and quieter. Please support this item.

**Comments for Public Posting:** I fully support the slow streets approach to making our streets and neighborhoods safer. I'm so tired of people speeding, only to come to a stop at the next light, putting all around them in danger. Please this is important for our community to implement traffic calming. Thank you,

**Comments for Public Posting:** I STRONGLY SUPPORT making Slow Streets permanent in the City of L.A.! As a former member of the P.I.C.O. neighborhood council, I can attest that Slow Streets are hugely popular in my neighborhood. Please make our streets safer, quieter, more climate-friendly, and lower-stress to commute on by 1) making the Slow Streets program permanent; 2) defining a framework for expansion, including a checklist of conditions to identify suitable streets; 3) emphasize a NETWORK of Slow Streets and connect it to the 2035 Mobility Plan to stress Slow Streets are for both TRANSPORTATION and recreation; 4) properly fund the program; 5) work through the very long backlog of Slow Streets applications within 1 year, reporting back on approval/rejection rates and reasons. Thank you for supporting a permanent Slow Streets program!

**Comments for Public Posting:** As a car-less Angeleno that frequently gets around as a pedestrian, I enthusiastically support the creation of a permanent slow streets program in the City of Los Angeles! Slow Streets are one of the most popular programs the city has ever created. By making the program permanent, giving it a framework for expansion (including synching with our Mobility Plan), and properly funding it, we can make our neighborhood streets much safer and quieter. Please support this item!
