Comments for Public Posting: Slow Streets will create less traffic, quieter streets, and safer walking and rolling environments throughout neighborhoods in Los Angeles. These types of streets can also foster and create stronger communities by giving neighbors easy and safe opportunities to interact. Key to these efforts is also synching it with our Mobility Plan and other Livable Streets interventions and providing funding. Supporting Slow Streets will help build foundations for a healthier, safer, and more livable LA.

Comments for Public Posting: I enthusiastically support the creation of a permanent slow streets program in the City of Los Angeles! Slow Streets are one of the most popular programs the city has ever created. By making the program permanent, giving it a framework for expansion (including synching with our Mobility Plan), and properly funding it, we can make our neighborhood streets much safer and quieter. Please support this item!

Comments for Public Posting: As a bus rider and pedestrian in Los Angeles and the mother of a small child, I enthusiastically support the creation of a permanent slow streets program in the City of Los Angeles. Slow Streets are one of the most popular programs the city has ever created. By making the program permanent, giving it a framework for expansion (including syncing with our Mobility Plan), and properly funding it, we can make our neighborhood streets much safer and quieter. Please support this item!

Comments for Public Posting: The slow streets that my neighborhood council set up in my area have demonstrated the everyday wonderful benefits of allowing more healthy and safe use of our streets for activities such as youth recreation and exercise. Therefore I strongly support the creation of a permanent slow streets program in the City of Los Angeles. By making the program permanent, giving it a framework for expansion (including synching with our Mobility Plan), and properly funding it, we can make our neighborhood streets much safer and quieter. Please support the implementation of a permanent slow streets program!
