Comments for Public Posting: Bus-only lanes are not effective when cars use or park in them. In order to make LA's investments in bus-only lanes successful they must be enforced. Non-biased camera enforcement on buses will make bus only lanes effective, increase bus speeds and reliability, and support the hundreds of thousands of people in the city who rely on the bus every day to get to school, work, doctors appointments and other services. We at the Institute for Transportation and Development Policy, encourage the city to move forward and adopt this motion.

Comments for Public Posting: I see cars illegally using bus lanes all the time, and for bus lanes to work, we need to get cars out of them. I support the City making use of AB-917 and working with Metro to install cameras on buses to automatically ticket parked cars. I encourage the City to work as quickly as possible to implement this sorely needed measure.

Comments for Public Posting: Cars illegally use bus lanes all the time and police cars in particular are notorious for parking in bus lanes. For bus lanes to work, we need to get cars out of them. I support the City making use of AB-917 and working with Metro to install cameras on buses to automatically ticket parked cars. I encourage the City to work as quickly as possible to implement this sorely needed measure.
