Comments for Public Posting: Please vote yes on this initiative. LA should not be a city accessible only to those with the means to own a car or own a place here. We need much more mixed community, walkable neighbourhoods with mixed zone spaces. Sprawl isn't helping our environment or sense of community. Please support more walking, biking, and green space and let's build much more housing!

Comments for Public Posting: VOTE YES on the LIVABLE COMMUNITIES INITIATIVE!!
We want to feel safe and happy in our city. The crumbling infrastructure, lack of shaded and and safe outdoor public spaces, and lack of transit rich corridors will only lead us into further crime. People need to breathe!! I spent a lot of time in the state of Washington, and there is so much green space for folks to just breathe, kids to play safely. We need that investment in our people!
