**Comments for Public Posting:** I'm here in The subcommittee room, but there are many speakers today and I dont know if there will be time to make my comments in person. Im here in favor of item 3, the livable communities initiative. As a pedestrian and a cyclist LA streets are very scary. Additionally new housing is desperately needed, and gentle density is something I'm really excited about. With LCI, LA can finally become a really wonderful city that makes the most of our super climate.

**Council File No:** 21-1230-S2

**Comments for Public Posting:** My name is Elizabeth Beale, I live in Council District 5. I am herein favor of Item 3, the Livable Communities Initiative report. I strongly support the Livable Communities Initiative as it will encourage the creation of safe, walkable, bikeable livable communities across L.A. and help create urgently needed gentle-density housing. Los Angeles needs the kind of visionary city planning that is included in this report. I would urge the Committee on Housing and Homelessness to unanimously endorse the findings and recommendations in the Report, and to recommend the full City Council swiftly adopt it, as well. Thank you very much.

**Comments for Public Posting:** I write to you today as a concerned citizen and not as a representative of any organization. I attended a presentation by Livable Communities last July 2023. I'm thrilled to learn that you now have a plan before you to implement Livable Communities in Los Angeles! I urge the Committee on Housing and Homelessness to endorse the findings and recommendations in the Report, and to recommend the full City Council swiftly adopt it as soon as possible. Thank you very much.

**Council File No:** 21-1230-S2

**Comments for Public Posting:** My name is Lee Lindenlaub and we live in the Los Angeles near WeHo. I am asking you to support Item 3, the Livable Communities Initiative. It's no news that those of us in LA, as well people across the state and country, feel it is too costly and often 'unfriendly' to live here. Many of us would love for our post-highschool/college graduate aged children to live and work here, to have our parents be able to relocate here in their retirement. They cannot. The LCI give us a chance to begin to create safe, more affordable, walkable neighborhoods, ideally where cars wouldn't be needed, walking and biking could get folks to shops, restaurants, etc. The idea of "gentile density housing" is ideal but needs the government to support, encourage, make doable.
