**Council File No:** 21-1230-S5

**Comments for Public Posting:** I am writing to protect single-family neighborhoods throughout Los Angeles and in support of Draft #3 of the CHIP/Housing Element Rezoning ordinance without the Exhibit D “options” (Council File 21-1230-S5) that would open single-family neighborhoods to rezoning and redevelopment. The Planning Department, in its report, clearly states that they have identified enough opportunities throughout our city to rezone to meet the State’s mandate for housing without the need to rezone our single-family areas. Here are some facts to consider. 1. The Department of City Planning has already acknowledged that rezoning single-family neighborhoods is not necessary to achieve the City's ambitious housing goals CHIP set out to reach. 2. State law already allows a duplex and two ADUs on each and every residential property. Single-family zones do and will continue to contribute to the housing inventory with thousands of ADUs. 3. An unholy alliance of housing ideologues and greedy corporate investors and developers are collaborating to rezone R1 neighborhoods. Allowing apartment buildings in single-family neighborhoods will not right the wrongs that in the past prevented people from buying homes. Instead, it keeps more people as renters. Individuals need the opportunity to buy single-family homes so they can build generational wealth. Ending single-family zones will take away upward economic mobility from current and future generations of Angelenos. 4. Draft # 3 without Exhibit D options already includes a comprehensive plan for adding housing in all our high resource areas on our commercial corridors. If planned correctly new, vibrant neighborhoods can be created in each of our communities that include new affordable single-family homes for sale along corridors that abut existing single-family neighborhoods. We must help families, who have lost hope of owning their own home, achieve that goal. Please respect the diversity of housing which makes Los Angeles the remarkable city that it is. Please vote to Approve Draft #3 without the options contained In Exhibit D. Respectfully, Willie Banks 720 Lorraine Blvd. Los Angeles, CA 90005

**Comments for Public Posting:** I am writing to protect single-family neighborhoods throughout Los Angeles and in support of Draft #3 of the CHIP/Housing Element Rezoning ordinance without the included the Exhibit D “options” (Council File 21-1230-S5) that would open up single-family neighborhoods to needless development. The Planning Department, in its report, clearly states that they have identified enough opportunities throughout our city to rezone to meet the State’s mandate for housing without the need to rezone our single-family areas. Here are some facts to consider. 1. The Department of City Planning has already acknowledged that rezoning single-family neighborhoods is not necessary to achieve the housing goals CHIP set out to reach. 2. State law already allows a duplex and two ADUs on each and every residential property. Single-family zones do and will continue to contribute to the housing inventory with thousands of ADUs. 3. Allowing apartments in single-family neighborhoods will not right the wrongs that in the past prevented people from buying homes. Instead, it keeps more people as renters. People need the opportunity to buy affordable homes so they can build generational wealth. Ending single-family zones will take away upward economic mobility from current and future generations of Angelenos. 4. Draft # 3 without Exhibit D options already includes a comprehensive plan for adding housing in all our high resource areas on our commercial corridors. If planned correctly new, vibrant neighborhoods can be created in each of our communities that include new affordable single-family homes for sale along corridors that abut existing single-family neighborhoods. We must help families, who have lost hope of owning their own home, achieve that goal. You are deciding on an existential issue affecting hundreds of thousands of Angelenos. I ask you to respect the diversity of housing which makes Los Angeles the remarkable city that it is. Please vote to Approve Draft #3 as recommended by the City Planning Commission, without the options contained In Exhibit D. Respectfully, Richard Lee 932 4th Ave Los Angeles, CA 90019

**Date Submitted:** 10/21/2024 02:49 PM  
**Council File No:** 21-1230-S5

**Comments for Public Posting:** I never imagined I would be writing about the need to preserve R-1 neighborhoods in Los Angeles. I always assumed our leaders understood and appreciated that part of the charm of Los Angeles lies in its historic neighborhoods, which connect over 100 years of architectural history. I am writing to advocate for the protection of single-family neighborhoods throughout Los Angeles and to support Draft #3 of the CHIP/Housing Element Rezoning Ordinance, without the inclusion of the Exhibit D “options” (Council File 21-1230-S5), which would unnecessarily open single-family neighborhoods to development. The Planning Department has clearly stated in its report that they have identified enough opportunities across the city to rezone and meet the state's housing mandate without the need to rezone single-family areas. Here are some important facts to consider: The Department of City Planning has already acknowledged that rezoning single-family neighborhoods is not necessary to meet the housing goals outlined in CHIP. State law already allows a duplex and two ADUs on each residential property. Single-family zones are contributing, and will continue to contribute, to the housing inventory through thousands of ADUs. Allowing apartment buildings in single-family neighborhoods will not correct the injustices that, in the past, prevented people from buying homes. Instead, it will keep more people as renters. People need the opportunity to purchase affordable homes so they can build generational wealth. Eliminating single-family zones will remove upward economic mobility for current and future generations of Angelenos. Draft #3, without the Exhibit D options, already provides a comprehensive plan for adding housing in high-resource areas along commercial corridors. If planned correctly, vibrant new neighborhoods can be created in every community, including affordable single-family homes for sale along corridors adjacent to existing single-family neighborhoods. We must help families, who have lost hope of owning their own homes, achieve that dream. You are deciding on an issue that will affect hundreds of thousands of Angelenos. I urge you to respect the diversity of housing that makes Los Angeles the remarkable city it is. Please vote to approve Draft #3 as recommended by the City Planning Commission, without the options contained in Exhibit D. Respectfully, Kenneth Dapeer

501 N Cherokee Avenue, Los Angeles, CA 90004
