Comments for Public Posting: I am angry that the city of Los Angeles is considering rezoning single family neighborhoods and sensitive multi-family neighborhoods when there is zoning capacity on commercial corridors to meet the RHNA requirements.

Comments for Public Posting: The Sherman Oaks Homeowners Association opposes the rezoning of our R1 and sensitive multi-family neighborhoods through the Housing Element Rezoning Strategies and Community Plan Updates. We support building affordable housing on our commercial corridors, and public lands. Our community has community based maps showing how this can be done. There is no justification for rezoning R1 based on the data from the city planning and the state that we have gathered.
