Council File No: 21-1230

Comments for Public Posting: My name is Bill Milner and I am writing this comment in opposition to upzoning my neighborhood. I live at 10276 Orton Ave, Los Angeles CA 90064 and am already the target of a TOC project directly adjacent to my small backyard. The project is a 40 unit condominium/apartment complex over three standard parallel lots on Fox Hills Dr that will have two subterranean parking lots, and units that rise six stories above ground essentially nullifying sunlight. I was wondering if any of the city council members would enjoy living in my modest 1407 square foot single family home while the construction takes place? Day after day, month after month of constant noise and air pollution. Not to mention the contractor parking over the same time frame. Will you stand with me and prevent this cruel and unusual punishment, please. Let the construction of large scale building be on the corridors and not near or within single family housing that has been here since the 1930's. Thank you for your considerations.
