Comments for Public Posting: I support Draft #3 of the Housing Element without Appendix D options. With respect to increasing affordable housing, there is an opportunity to both increase housing and remove urban blight by utilizing land that has been sitting inert (such as properties on Van Nuys Blvd north of Victory Blvd). It should NOT be used as an opportunity to break down and wipe out single family neighborhoods by building apartments everywhere where no parking for tenants is provided, neighbors are pitted against one another and more urban blight is created. The latter is NOT city planning. Do not succumb to pressure from developers. Like locusts, they descend upon neighborhoods and create mayhem. They do not care about quality of life issues. They do not care about communities. They do not care about affordability. They are only driven by profitability.

Ms. Heather Hutt
Councilmember for Council District 10

Dear Ms. Hutt,

As I stakeholder I appreciate all the work you are doing to improve the lives of all in your district.

I would like to ask that at the upcoming PLUM meeting that you -

Support the Housing Element's CHP version Draft #3 without options as stated in Exhibit D as proposed for the rezoning and densification of underutilized commercial corridors without adversely affecting vulnerable R1 and multi-family neighborhoods beyond the requirements of existing state and local zoning laws.

Thank you for your attention to this.

Best regards

Comments for Public Posting: A big fat no to any apt buildings allowed to be built in a residential area. I savor my privacy and paid dearly to acquire it. NO NO NO to high rise or apt houses in my backyard. I am angry enough about Nov 5th and the hi jacking of our Democracy without having to endure people looking into my back or front yard. I will be direly pissed if this passes and prepared to make the lives miserable of any council person who votes yes. I am a retired Army vet and ready to fight.
