To Whom It May Concern at Planning and Land Use Management,

Please prevent the needless rezoning of our residential neighborhood, La Brea Hancock. City data shows more than enough zoning capacity in our community on our underutilized commercial corridors, public lands and through adaptive reuse. When we bought in this neighborhood (La Brea Hancock) back in 1993 it was due to the character and atmosphere. We have paid taxes, fixed up our homes and now, the city, without any consideration for its people is trying to uproot and destroy everything that we worked for? We moved here because we wanted a neighborhood with character and quiet and safe. NO WAY! I find this a significant violation of our individual rights and I do not believe in not having a voice. Why is planning secretly being upzoned?

Our residential neighborhood has already been rezoned through SB 9 and ADU laws that allow duplexes and ADUs on a single lot. That is enough density in our neighborhood.

Don't let our communities become feeding grounds for developers. Please **stand up** for our communities and tell the Planning Department NOT to up-zone the city's single-family and sensitive multi-family neighborhoods.

Thank you,

Sixto J. Sicilia, PhD
