Comments for Public Posting: I request that report on how development is being managed in environmentally sensitive areas like the Mulholland Corridor be compiled and released publicly in a timely manner. Further, I support ordinances and implementation efforts that protect our natural resources like the future Wildlife Ordinance. Please provide status. I welcome any additional measures that conserve and manage the City's natural biological diversity. Thank you.
Sincerely, John Callas Pasadena, California

Comments for Public Posting: To whom it may concern, As a long term, Hollywood Hills resident, I want you to know that: I support a report back on how development is being managed in environmentally sensitive areas like the Mulholland Corridor. I support ordinances and implementation efforts that protect our natural resources like the future Wildlife Ordinance and want to know the status. I support analysis and any additional measures that conserve and manage the City's natural biological diversity. We are so very, very blessed to exist amongst such an amazing bounty of wildlife. The days of dismissive neglect and abuse towards our natural environment are over. It's time to respect the inspiring and awesome gifts of nature we are so very lucky to have within our boundaries. Thank you.
