Comments for Public Posting: There is NO state of emergency. Medical mandates are fascist and in this case DANGEROUS. Masks are UN-healthy and these "vaccines" have killed more than any vaccine in the history of medical science. The economic damage thus far may already be irreparable. I am a registered member of the Green Party and true socialist at heart. The fact that this is a left vs. right political issue is beyond me, especially considering these are Trump's shots. His "WARP SPEED" legacy. Until the so called Democrats owned it, in lockstep with this authoritarian agenda. I therefore identify my political stance as a true leftist in opposition to medical tyranny. MY BODY MY CHOICE.
