Comments for Public Posting: Regarding the homeless on Verdugo Road under the 2 Freeway overpass: • It's quite dark on Verdugo Road under the 2 freeway. Motorist transitioning from sunlight of the surface street to the shade under the overpass has almost caused vehicular accidents from homeless people darting across Verdugo Road in this shaded area. This forces drivers to stop suddenly with potential of being rear-ended. • Trash, tent and items are blocking the sidewalk preventing children from walking to the nearby Charter school or forcing others to cross Verdugo Road with heavy traffic. • This is an Americans with Disabilities Act issue for disabled people from using the sidewalk safely. There is no crosswalk nearby, which forces pedestrians to cross busy Verdugo Road. • There was a fire near the encampment a few years ago causing brush to burn next to the 2 Freeway. • There are sanitary issues, including no toilet or handwashing facilities. • The current homeless lady at Verdugo Road under the 2 freeway has accosted some of the neighbors in the area. • This is a covid-19 issue.
