**Comments for Public Posting:** As a business owner on Hollywood and Bronson, it is not only frustrating dealing with the crime element surrounding us but it is also fearful for myself our staff. God forbid one of the homeless come in and attack any of my staff. On a weekly if not daily basis we have to ask someone to leave or deal with their harassment. Just last night a homeless women of colour was literally smoking crack right out front of our door. Canada our pseudo security had to chase her off. The night before another homeless came in yelling and threatening to fight one of my employees. Please suggest what we should do? Should we just ignore until someone gets really hurt or killed? Should we just shutter our doors? Should we have a armed security posted up front of our shop? What are my options since you have failed to rectify the intense dangerous situation? **Comments for Public Posting:** Thank you for your continued efforts in trying to have the city find a PERMANENT solution for the ongoing issues on Bronson Avenue Bridge. I am part of the sales team for Lombardi House and I have had my fair share of scary experiences while at work. I personally, have had a knife pointed at me by someone while I was on the property alone. As a 5'3" woman, I'm sure you can understand how this took a mental toll on me and my work for days to follow. I have also witnessed several people directly outside of our property defecating in buckets, hitting crack pipes, and shaking under blankets where I was extremely concerned that I was going to have to report an overdose, all while I was with clients. I go to work daily worried that I am going to have to report a dead body outside of our property. How am i supposed to stay profession or explain these situations that are outside of my control? Just this week alone I have lost countless clients from the situation on the bridge. As a sales representative, this is how I make a living. I do everything in my power to give my clients a wonderful experience and it's incredibly frustrating when I am doing my job to the best of my ability but the status of the bridge is what is driving away our clients. I am asking for immediate action to this problem.
