Comments for Public Posting: I am 71 years old. I don't have a car. I often need to walk from my home, down Bronson between Franklin & Hollywood Blvds. It is very sad but the homeless having taken over the sidewalks, force me to walk in the streets. I have had a few near misses with autos in the last few months. This is dangerous. I pay high taxes for my home and feel my neighborhood should not be held hostage to these homeless on Bronson. Sadly, the ones I pass are either drunk or high on something. Once in a while a young person will say hello to me. But this is not where they should be. It is not safe for those of us who live in the neighborhood and it is not safe for these homeless people either. I am in full support of having them moved to someplace safer, so that we can walk on the sidewalks again and not in the street. Thank you.

Comments for Public Posting: As a 17 year homeowner at Bronson/Canyon, I can say that we are in a moment of true crisis at the Bronson overpass. I have personally witnessed multiple fires, debris tossed over the fencing into oncoming traffic on the 101, open drug use, animal abuse, violence between the encampment residents, and a general sense of lawlessness. My compassion for the unhoused choosing not to take advantage of public shelter has diminished significantly this past year. I recognize this is an incredibly complex problem but the longer these encampments are allowed to remain, the more I'm convinced that we are setting our neighborhood up for an even larger tragedy. So I am begging the council to act now before it's too late. Thank you for your service to our community.

Comments for Public Posting: 41.18 must be passed. We have allowed encampments to interfere with public sidewalks, entries to public buildings such as libraries, and interfere with the safety of school age children. Enough is enough. Please understand I am in favor of housing but with so many homeless addicted to drugs and refusing housing we cannot let them take over our City. Thank for listening

Comments for Public Posting: I support this very much. As a physician concerned about the health of the community, I want to encourage people to stop living on the street. We have made it too easy and allowed it for too long and now when I offer homeless people health in the emergency department they decline and returned to their self build a house on the sidewalk.

Comments for Public Posting: We recognize that all people should have housing but the city streets are not an acceptable substitute to low cost housing. Encampments have made the streets in our neighborhood unsafe and unsanitary. This is not reasonable. In order for Los Angeles to feel like a livable city again, we support ending tent living and encampments in our parks and on city streets.

Comments for Public Posting: For the love of god, please pass the ordinance that would replace Section 41.18. Let's clean up the Bronson Overpass!

Comments for Public Posting: As a homeowner and driver in the area, my family is very happy that your are doing this. We have been worried about safety, fire hazards, garbage, drug selling and harassment from these encampments. We support this ordinance. Thank you.

Comments for Public Posting: Thanks Mitch for organizing the cleanup. It's a dangerous situation when the homeless gather over the freeway passes. With no other avenues to relieve the situation, I'm glad you have stepped in and put in the resolution to create this ordinance. Now with all the money we have voted in to help the homeless find housing... it would be a good time to pass a "Marshall Plan" to deal with it.

Comments for Public Posting: I am resident in The Oaks and Los Feliz area. I support the humane relocation of the homeless to ensure a cleaner and more drug free environment of our neighborhood. I understand this to be a complex problem but I hope that housing can be secured with a support team to relocate and the folks that need this assistance. This should be done humanely and thoughtfully to give the homeless a cushion to have a safe place to restart their lives.

Comments for Public Posting: I support the intent of this initiative proposed by Councilman Mitch O'Farrell. We need to figure out how to eliminate homeless encampments as we also find housing and services for those in need. We are in the midst of a housing and homeless crisis in the city. Parallel to this initiative I would hope the City Council would designate all city-owned land be dedicated to creating housing options while expediting the production of housing for all including transitional housing and permanent supportive housing.

Comments for Public Posting: This needs to pass. Safety and health issues should be of paramount importance to all. The homeless need a space but not where they pose issues to the general public. This is not political.
