Comments for Public Posting: From home owner at 1920 Allesandro Street. There is an ongoing stream of people who occupy the land at the corner of Allesandro Street And Glendale Blvd. There numbers keep growing as do the structures and seemingly endless trash and objects of all description, wood, metal, plastic, and just plain trash. There's people who pull up in upscale cars who stay for no more than 30 minutes who we presume are the drug buyers. But predominantly we have the dilapidated vehicles who stay for hours while associating with the people residing right across from my house at 1920 Allesandro Street. Sometimes their backpacks lead me to believe these are th drug delivery people but sometimes it's as if they're there to get stoned. I cannot look out my bedroom or living room windows without observing this degraded scene. Our neighbor Jason saw 3 of these people today on his property at 1932 Allesandro Street, 2 doing meth while the other one stood there in broad daylight - masturbating. Today the continuous flow of trash and garbage necessitated personally having to clean up their refuse 3 separate times. Not once, not twice, three times. This does not include witnessing good neighbor Christopher who was cleaning up the trash strewn on the sidewalk and Allesandro street early in the morning today across the street from 1920 Allesandro Street. I am forced to do this. Failure to clean up their trash worsens our ghetto situation exponentially because the eyesore is so blatant and so large. Every time I have to do this I'm reminded how much I'm paying in property taxes and wondering where all those hundreds of millions of tax dollars are going. Two or 3 days ago while cleaning up the trash on the sidewalk and street across from 1920 Allesandro Street I came around one of the shabby cars and there was a woman with her pants down who was defecating/urinating on the street right in front of the parked car - broad daylight. This was quite startling to me, but the woman didn't't seem to care at all. Please help end this extremely untenable situation as instantly as possible.

Comments for Public Posting: This morning November 4th, 2021 two homeless drug addicts from the hill at Glendale Blvd and Allesandro St. were shooting up drugs in my garden at 1934 Allesandro St. I asked them to please move along and was told "its a free country we can do what we want." I have not seen this happening out in the open and am scared to live in this neighborhood anymore! PLEASE HELP US!!! J ZEIGLER

Comments for Public Posting: Please ensure that Allesandro Street/Glendale Blvd. gets cleaned up urgently. We live directly across the street from this triangular area. My wife and two daughters are at risk and very uncomfortable with what we see whenever we look out the window or go outside. Drug dealing is routine here, as we see cars stopping and having transactions with the people now permanently living there. "Leo" is the predominant person occupying this city property. He gets quite hostile when politely asked to please ensure that trash does not continually spill out onto the street. But if i don't clean up the sidewalk and street daily the place looks like a filthy ghetto. His hostility is very clear and at times quite frightening to me. I don't feel safe in my own neighborhood. (Have lived here as property owner since 1989.) People are often seen laying down or slumped over in broad daylight. Are they sick? Drunk? Intoxated with the Meth they just bought? Do they need medical attention? Are they already dead? We don't know. Are we supposed to call the Police or Fire Department whenever we see this? Criminal acts have occurred due to the lawlessness this site brings. Our cars broken into twice and property stolen from them. The wheel and tire from my late-model sedan was stolen while the car was parked in our driveway. Our mailbox was pried off the wall it was mounted to and stolen even though it was attached with 6 inch lag bolts. Once a neighbor reported there was a naked lady in our yard. My wife went out and attempted to talk to a woman who didn't have the coherence to keep her dirty blanket wrapped around her. She couldn't tell if the lady was highly inebriated or mentally ill, or both. There is frequent yelling and screaming. This is particularly worrisome at night when many many times there's a female voice hysterically screaming and I don't feel at all safe intervening - yet know the police will do nothing to enforce lawfulness. My wife and daughters want me to sell our house and move to escape this frightful blight. I keep telling them the City WILL enforce laws relating to cleanliness and lawfulness. Please don't let my family determine that I'm lying to them about this dire situation.
