

## Communication from Public

**Name:** Christine Peters

**Date Submitted:** 08/13/2026 03:09 PM

**Council File No:** 21-4118-S1

**Comments for Public Posting:** Esteemed Councilmembers, Please accept these comments in opposition to the actions recommended in the motion to amend CF 21-4118-S1, specifically to remove sensitive locations from enforcement. Millions of taxpayer and municipal funds have been allocated to the preservation & restoration of the City of Los Angeles Hollyhock House, Residence A, the Municipal Gallery, and the other public facilities, and greenspaces, commonly known as the Barnsdall Park. The Hollyhock House is the City's only UNESCO World Heritage site, an honor not to be taken lightly. It's protection and continued support is paramount to maintaining the designation, in particular as the 2028 Summer Olympics approach. The world is coming and the City must take seriously its obligation to preserve and uphold the integrity of the Monument and its buffer zones. It is short sighted to remove the property from the enforcement zone, as it has historically attracted encampments, & neither Recreation & Parks, Cultural Affairs, or General Services have the resources to address the continuing safety and security problems that face the campus. I discourage you from putting this international attraction at further risk, by removing the few protections provided by law. Thank you for your consideration , Christine Peters CP Design & Consulting Los Angeles, Ca. 90026
