Comments for Public Posting: The illegal dumping in Los Angeles is totally out of control. I grew up in Los Angeles and have never seen it this bad. The fact that the city cannot control basic sanitation is ridiculous. How can you even consider yourselves a functioning city if there is garbage and trash everywhere? I have lived in Seattle, New York and Chicago. NONE of them are as filthy and disgusting as Los Angeles. This motion needs to pass and there has to be strong enforcement. I am seriously considering leaving Los Angeles because of its failure to provide basic services. Sanitation is basic and Los Angeles is failing.
