Comments for Public Posting: On February 9, 2022, Councilman Bonin brought a motion directing LA City Planning to report back in 45 days on how to allow homeless shelters and interim housing to be established and operated, as a matter of right, in all residential areas of the entire City, without any regard for impact on the community. He is also asking for ways to make existing emergency / temporary shelters permanent Councilman Bonin wants to create homeless shelters in every residential neighborhood in the City, even those zoned as R1, R1.5, and R2. He also wants to make all temporary shelters permanent, which means that the disastrous Venice Bridge Home, which the City promised would be a three-year commitment, would become a permanent blight on our community. We all know that homelessness is a crisis that demands urgent action. But, trampling on the rights of existing communities is not the answer. Mike Bonin has repeatedly proved to us that he cannot be trusted. The Venice Bridge Home is what broken promises looks like I ??% disagree with Councilman Bonin and his motion. Thank you Jeff Bosten Del Rey, Ca. 90066

Council File No: 22-0158

Comments for Public Posting: I oppose motion in CF 22-0158, and any changes to the City's zoning regulations that would allow homeless shelters to be constructed by right in R1 areas, without regard to otherwise applicable zoning restrictions, location, or consideration of impacts on the community, and in any other zones where they are not currently allowed by right. I also oppose any proposal to make temporary or interim homeless shelters permanent, without regard to otherwise applicable zoning restrictions, location or consideration of impacts on the community. I would also want my Neighborhood Council to provide CIS on the proposed motion.
