Comments for Public Posting: Community engagement and churches have been tied together for years. When you look at the urban context, there is a need to have them connected to more than just their religious responsibilities. As the pandemic has had a hard impact on our communities, it has also been difficult on churches as well. This will enable churches to be innovative and forward thinking in the way that they are able to engage with the community. In addition to that, it will be a healthy relationship for the church and the community to support, collaborate, and partner in how they develop the community. I am asking you to approve this motion to address the housing crisis in our city. Thank you.
