Voice message received regarding safe parking for the homeless (some also known as snowbirds) living in RVs or vehicles. Caller suggested that City should create refugee camps for the homeless in large parking lots with hundreds of spaces. Parking lots should be safe, have mobile showers and medical and other services available at location, and house nonprofits with help in the area. If vehicles do not function or run, the City should repair them.

Caller did not leave a name or contact telephone number.
