**Comments for Public Posting:** Dear Council Member Cedillo and City Council, I am a proponent of Public Housing to help those who need a place to live and stay, BUT at the same time, I am concerned that these type of "Projects" with other agencies may end up costing the city of Los Angeles a lot more money and may not produce the desired result. The costs associated with these projects are in the millions of dollars. It is very costly and puts a financial burden on the city. I am skeptical that these "projects" may not work out well. We need to find a way to reduce the cost of housing. Thank You!
