AHSC (AFFORDABLE HOUSING AND SUSTAINABLE COMMUNITIES PROGRAM)	The Affordable Housing and Sustainable Communities (AHSC) Program is a competitive state funding program. Its primary goal is to reduce greenhouse gas emissions by funding the creation of new affordable housing along public transit in conjunction with sustainable transportation improvements to reduce vehicle miles traveled and to increase pedestrian and bike pathways to access public transportation. The City has applied for AHSC funding since the first round of funding in 2015, and to date it has been successful in securing over $330 Million in both loan and grant funding. The AHSC program funding is available on an annual basis and every year the City sets a goal to successfully secure a minimum of 15% of all AHSC funding available per NOFA round.	10/15/2029	6th Cycle	Continuous	For the period of January 1, 2025 through December 31, 2025, LAHD coordinated the application for five projects for AHSC funding along with the Bureau of Engineering, Bureau of Street Services and Street Lighting, and Department of Transportation. Five applications were submitted to the State in May 2025. On December 10, 2025, the Strategic Growth Council recommended four AHSC Round 9 applications, awarding approximately $173M to support the construction of 432 housing units, along with bicycle, pedestrian, and transit infrastructure improvements within a one-mile radius of the project sites. AFFORDABLE HOUSING LINKAGE FEE	Subsidize the production and preservation of affordable rental and homeownership units annually based on annual revenues collected (estimated $17.2 million collected in FY 21-22, and $58.7 million to date)	10/15/2029	6th Cycle	Continuous	Since its inception in 2018, the total revenue and receipts collected by the AHLF as of December 31, 2025, is approximately $186.9 million. In FY 24-25, the total revenue and receipts collected was approximately $37.0 million. As instructed by the AHLF OC at the April 17, 2025, meeting, the LAHD paused expenditures of program receipts collected in FY 2023-24, as well as FY 2024-25, due to existing litigation. AFFORDABLE HOUSING LINKAGE FEE	By 2023, update Linkage Fee market areas to accurately reflect market conditions and maximize revenue generation	10/15/2029	6th Cycle	In Progress	The City contracted with AECOM in 2022 to conduct a market analysis to inform the five-year Market Area map update required by the Linkage Fee Ordinance. The residential market analysis was completed in October 2024, and the commercial market analysis in November 2024. During 2024 and 2025, staff prepared a Staff Recommendation Report proposing to shift from Community Plan Area-based Market Areas to neighborhood-based Market Areas. The neighborhoods are more granular and more accurately capture market conditions. These smaller and updated market areas will right-size affordability requirements, facilitating mixed-income development citywide, and more appropriately calibrate the in-lieu fee rate for projects subject to the fee. The Staff Report was transmitted to the Council in February 2026. Following the Council's consideration, updated maps would go into effect in 30 days. REMEDIATION OF ENVIRONMENTAL HAZARDS	Environmental clean-up of at least five brownfield sites.	10/15/2029	6th Cycle	Continuous	LASAN's Citywide Brownfields Program continues to provide essential technical and financial assistance, focusing on brownfield challenges, especially within underserved areas. Throughout 2025, the Program has been actively utilizing brownfield grants from the United States Environmental Protection Agency (USEPA) and the California Environmental Protection Agency (CalEPA). These funds are directed towards cleanups to facilitate the revitalization of brownfield sites, transforming them into vital community assets such as affordable housing, mixed-use developments with residential components, open spaces, and parks. Looking ahead, the Program is also planning to seek additional cleanup grant opportunities from the USEPA. During the calendar year 2025, the Brownfields Program continued to implement four active cleanup grants that will continue over the forthcoming year and completed one cleanup grant. In 2025, the Program successfully secured a $500,000 Community-Wide Assessment Grant from the United States Environmental Protection Agency (USEPA) to conduct environmental assessments. The process of formally accepting and beginning the implementation of this grant is currently underway. The Program actively implemented brownfield grants secured from the United States Environmental Protection Agency (USEPA) and the California EPA (CalEPA). These funds were utilized for environmental assessments and cleanups, which are vital for brownfield revitalization into desirable community assets such as affordable housing projects, mixed-use developments with residential components, open spaces, and parks. A significant achievement in 2025 was the redevelopment of one of the Program's completed cleanup projects into a mixed-use building including 44 units of affordable housing. REMEDIATION OF ENVIRONMENTAL HAZARDS	Identify new or increased sources of funding for brownfield clean up.	10/15/2029	6th Cycle	Continuous	The LASAN Citywide Brownfields Program consistently seeks grant funding from the United States Environmental Protection Agency (USEPA) and CalEPA. However, funding sources remain limited, especially because site eligibility requirements restrict the availability of cleanup project resources. Therefore, the Program continues its efforts to secure additional resources and funding. The Program's staff was also reduced due to position eliminations in the FY 25/26 budget, which also limited the program's capacity.	Other		https://www.lacitysan.org/brownfields
REMEDIATION OF ENVIRONMENTAL HAZARDS	Present an ordinance to the City Planning Commission by 2025, prohibiting new oil and gas extraction and declaring extraction activities a non-conforming use citywide.	12/31/2026	6th Cycle	In Progress	Following the September 6, 2024, trial court ruling in Warren E&P, Inc. v. City of Los Angeles, the City Council took action to rescind the 2022 Oil and Gas Drilling Ordinance No. 187,709 in June 2025. As a result of the rescission, Los Angeles City Planning's Office of Zoning Administration is not implementing either the Zoning Administrator's Interpretation dated October 4, 2023, or ZA Memorandum No. 141 dated January 17, 2023 (see Rescission of Case No. ZA-2022-8997-ZAI-1A, ZA Memorandum No. 141). On June 12, 2025, the OZA issued a new citywide Zoning Administrator's Interpretation (ZAI) for Well Maintenance (Case No. ZA-2025-2976-ZAI) applicable to all oil well facilities with valid Zoning Administrator approvals. This ZAI requires discretionary review for all well maintenance projects pursuant to LAMC Section 13.01 H. Two appeals were filed on the ZAI. At its meeting of October 9, 2025, the Los Angeles City Planning Commission denied the appeals and adopted the Staff Recommendation Report as the Commission's Report. On September 17, 2025, Los Angeles City Planning released an initial draft of the proposed Oil and Gas Drilling Ordinance (Ordinance), amending the Los Angeles Municipal Code (LAMC) to reinstate the previously adopted policy relative to oil and gas drilling activity, in response to the City Council instruction. Since then, City Planning has taken significant steps to advance the Ordinance. On November 26, 2025, a Mitigated Negative Declaration (MND), which analyzes potential impacts on the environment for the proposed Ordinance, was released for a 30-day public comment period, which ended on December 29, 2025. The staff recommendation report and revised version of the proposed Ordinance were heard by the City Planning Commission (CPC) on December 11, 2025. The CPC took action at the meeting to make a recommendation to the City Council to adopt the proposed Ordinance and accompanying environmental clearance. The proposed Ordinance leverages its authority granted by AB 3233 to regulate local oil and gas land use regulations. The proposed Ordinance immediately prohibits all new oil and gas drilling citywide by amending the LAMC. Furthermore, all existing active and idle wells are designated as nonconforming uses, triggering a maximum 20-year phase-out period for the cessation of operations. To ensure the extraction use is not prolonged, operators are forbidden from expanding, deepening, or intensifying existing activities. Looking ahead to 2026, the proposed Ordinance is still pending through the rest of the legislative process, which is to be presented before the City Council Committees and then to the full City Council for adoption. PUBLIC LAND FOR AFFORDABLE HOUSING	Increase the utilization of public land for affordable housing with particular emphasis in high resource and gentrifying areas	10/15/2029	6th Cycle	Continuous	The Affordable Housing Incentive Program (AHIP), which became effective February 11, 2025 (Program 121), allows for the development of affordable housing on public land. The program offers more generous incentives in high-opportunity areas. See the objective below for more info on AHIP. In 2025, the Housing Department released its United to House LA Program Guidelines for Multifamily Affordable Housing, following Council's approval in 2024. The goal of the program is to produce the maximum number of affordable housing units possible by leveraging local, state and federal funding sources. The program uses local funding to access additional public subsidies, allowing the program to construct more affordable housing with less cost to the City. The Program Guidelines include use of public land as scoring criteria for many project types. In addition, on September 10, 2025, the City Council voted unanimously to instruct City Planning to engage with LA Metro, LAUSD, and LACCD about collaborating on housing policy and initiatives and identify public owned and zoned public facility sites to develop into housing expeditiously (CF 25-0928). The City's sixth-cycle Housing Element included public land pipeline development projects in the Adequate Sites Inventory. The Housing Element determined that 7,891 units of capacity existed in these planned and approved projects listed in Appendix 4.2. In 2025, 2 projects identified in this list that include 1,649 units reached the below stages: - Entitlements Approved: 1,553 Low Income units - Permits Issued: 95 Low Income units and 1 market rate units for a total of 96 units - Certificates of Occupancy Issued: No activity in 2025 - Covenanted: 37 Very Low Income units, 58 Low Income units and 1 market rate units for a total of 96 units The Housing Element also identified additional means of meeting the RHNA, including public land programs. The Housing Element established a potential list of candidate sites on Public Land that could potentially create up to 10,000 units of capacity in Appendix 4.8. In 2025, 9 projects identified in this list that include 2,016 units reached the below stages: - Entitlements Approved: 1,553 Low Income units - Permits Issued: 5 Extremely Low Income units, 16 Very Low Income units, 228 Low Income units, and 214 market rate units for a total of 463 units - Certificates of Occupancy Issued: 20 Very Low Income units and 201 market rate units for a total of 221 units - Covenanted: 5 Extremely Low Income units, 63 Very Low Income units, 144 Low Income units, and 178 market rate units for a total of 390 units Combined, the 4.2 and 4.8 sites permitted 463 units in 2025. PUBLIC LAND FOR AFFORDABLE HOUSING	Identify publicly owned housing opportunity sites and issue RFPs to develop the sites by 2023, and annually thereafter	10/15/2029	6th Cycle	Continuous	In 2025, the Mayor's Office partnered with cityLAB, a research institute at UCLA, to launch a competition to develop housing on small, city-owned property. This initiative aims to build housing on underutilized city-owned land and ultimately produce demonstration projects for other similar parcels of land. In 2025, the Mayor's Office worked with the City Council to introduce a motion to direct LAHD to issue an RFQ for development on various city-owned parcels of land. Eleven city-owned sites will be disposed of for housing development. PUBLIC LAND FOR AFFORDABLE HOUSING	Rezone PF (Public Facility) zoned land to allow affordable housing by-right by 2024 (see Program 121 and 48)	2/11/2025	6th Cycle	Completed	The CHIP ordinance (approved by the City Council in December 2024) introduced incentives for Public Land Projects, which must be on land zoned Public Facility (PF) or on land owned by a public agency at the time of project filing. These projects are provided a flexible affordability requirement of 80% covenanted units restricted to Moderate Income or lower. The 20% market-rate component provides opportunity for cost recovery, a developer incentive to produce more projects in Higher Opportunity Areas, and also allows residents of the project whose income increases to remain on-site. Public Land Projects are guaranteed multiple-family uses and the most generous incentives within AHIP, usually permitted an unlimited density, 4.5 FAR (4.65 in Moderate and Higher Opportunity Areas), no mandated residential parking, and three stories of additional height. They may also seek additional waivers ministerially if approved for that procedure by City Council resolution. This project type is especially helpful for publicly owned land that is difficult to develop because of zoning or site restrictions, as the generous base incentives and council process for seeking ministerial waivers unlock residential potential across most properties. PUBLIC LAND FOR AFFORDABLE HOUSING	Maintain a publicly accessible citywide inventory of publicly owned sites	10/15/2029	6th Cycle	Continuous	The CAO used to assess sites for potential affordable housing development. However, the CAO reorganized and no longer has an asset management group. GSD manages the asset management system for city-owned properties but not publicly owned sites. In 2025, the Mayor's Office worked with GSD to create an internal service portal for departments to upload existing vacant or underutilized city land. The portal launched in the summer of 2025, and reminders will be sent to all department GMs on a quarterly basis to update the portal. This portal will help the city identify city-owned land that may be appropriate and feasible for affordable housing or interim housing production. Real Estate Access for Community Housing (R.E.A.C.H.) Pilot: In June of 2024, the City Council authorized the CAO to implement an online pilot program for private-property owners to express their interest in voluntary leasing, master leasing, or selling their property to the City for use as interim, permanent affordable, and supportive housing, or homeless facilities. Mayor's Office also supported the request for federal funding (Community Project Funding) for several housing projects in the city. STREET OUTREACH (UNIFIED HOMELESSNESS RESPONSE CENTER)	Increase the number of people engaged who are linked to housing resources by City Funded Outreach Teams	10/15/2029	6th Cycle	Continuous	City-funded outreach programs in Calendar Year (CY) 2025 have continued to demonstrate strong impact and sustained engagement with our unsheltered neighbors. To date, outreach teams have served a total of 11,876 individuals, with 8,848 individuals actively engaged through a combination of referrals, service connections, and ongoing relationship-building. This is an increase from 7,425 individuals engaged in 2024. Building on the foundation established in CY 2024, outreach teams have played a critical role in supporting ISP operations, contributing to an increased volume of referrals and stronger coordination across systems. Teams continue to maintain consistent engagement with individuals experiencing homelessness, ensuring that as beds and resources become available, referrals can be efficiently transitioned into placements. These outcomes reflect the dedication, persistence, and collaborative efforts of our outreach staff, whose work remains essential to advancing housing pathways and improving access to services for our most vulnerable community members. NEW REVENUE TO INCREASE AFFORDABLE HOUSING	Increase funding to support affordable housing throughout the city in a way that prioritizes those most in need and supports AFFH, including prioritizing affordable production in Higher Opportunity Areas.	10/15/2029	6th Cycle	Continuous	The City was awarded funding to support affordable housing development. On December 10, 2025, the Strategic Growth Council recommended the AHSC Round 9 applications, awarding approximately $173M to support the construction of 432 housing units, along with bicycle, pedestrian, and transit infrastructure improvements within a one-mile radius of the project sites. See Program 8 for more details. Measure A (a 2024 LA County Ballot Measure) has also allocated funding for the Los Angeles County Affordable Housing Solutions Agency (LACAHSA), which has made new resources available to the City. 2025 was a critical year in programming two new sources of local revenue dedicated to the development and preservation of affordable housing as well as myriad homelessness prevention program. The City of Los Angeles received its first allocation of Eligible Jurisdiction funding from the Measure A sales tax through LACAHSA in 2025, allowing the City Council to approve its first expenditure plan for these funds. The FY 2025-26 LACAHSA Expenditure Plan programmed over $135 million in funding for affordable housing projects and renter protections, including $87 million for the production and preservation of affordable housing. On April 11, 2025, City Council approved a motion instructing LAHD and other departments to report back on how to implement programs funded by LACAHSA to ensure greater access to funds (CF 25-0400). On January 14, 2025, the City Council provided recommendations to LAHD initiated by motion (C.F. No. 24-0544) to develop a middle-income affordable rental housing program to support the issuance of bonds for the construction, preservation, and protection of new middle-income affordable rental housing. The motion distinguished this effort from that previously analyzed in C.F. No. 20-1598, asking that a middle-income program be based on a broader range of affordability that includes low-income units, covenanting these units locally, applying to new construction only (no acquisition of existing units), etc. The report was transmitted in October 2025, and Council will consider creating a Middle Income Affordable Housing Pilot Program in 2026. The Affordable Housing Linkage Fee also continues to be a critical local source of affordable housing funding. See Program 10 for more details. Finally, the most significant source of new funding for affordable housing production and preservation is Measure ULA, a graduated transfer tax on real estate transactions above $5 million. As of the writing of this report, since its inception the tax had generated over $1 billion in revenue, with monthly revenue collection continuing to trend upward. Drawing from FY 2024-25 and 2025-26 ULA Expenditure Plans, the Homes for LA NOFA provides more than $316 million in ULA funding for the production and preservation of affordable housing in the City. NEW REVENUE TO INCREASE AFFORDABLE HOUSING	Adopt a council resolution each legislative cycle that supports state and federal initiatives that increase funding for affordable housing development and preservation in Los Angeles.	10/15/2029	6th Cycle	Continuous	The City Council adopted support and/or sponsorship of the following housing funding issues in its 2025-2026 State Legislative Program: 1) Supplemental Appropriation for disaster funding to support recovery from the January 2025 wildfires as outlined in the Governor's letter to Congressional leadership seeking $39.7 billion in funding; 2) Legislative or administrative action to amend the Encampment Resolution Funding (ERF) Program to provide recipients of the third round of ERF with flexibility relative to the expenditure deadlines established in the program. Regarding affordable housing in general, the Council also supported SB 21 (Durazo) which allowed for the demolition of single-room occupancy units without full replacement of demolished units if the units are converted to affordable housing. NEW REVENUE TO INCREASE AFFORDABLE HOUSING	Advocate for state and federal funding sources to include priority scoring for projects located in high resource areas and advocate against measures that would inhibit the City's ability to build Affordable Housing in Higher Opportunity Areas. To serve the needs of R/ECAP and other High Segregation & Poverty areas, advocate for the creation and expansion of programs that integrate housing funding with broader community development investments leveraged with state and federal funding programs (e.g. AHSC, IIG, etc.).	10/15/2029	6th Cycle	Continuous	The "Big City Mayors" is a statewide coalition of mayors from California's 13 largest cities by population, including Los Angeles. This coalition advocates for much needed funding to address the state's homeless and housing affordability crises. In Summer 2025, BCM pushed for sustained funding for the state's Homeless Housing, Assistance and Prevention (HHAP) program.	Other	1	https://www.youtube.com/watch?v=PO1I0ul2hNQ
INNOVATIVE PARKING / MOBILITY STRATEGIES IN HOUSING	Incorporate updated parking recommendations and strategies into Community Plans, Specific Plans, the revised zoning code and Transit Neighborhood Plans.	10/15/2029	6th Cycle	Continuous	In 2025, the Citywide Housing Incentive Program (CHIP) became effective and included several strategies to require less parking. The Mixed Income Incentive Program (containing incentives for projects on major corridors, near transit, and within high-opportunity areas) allows all eligible projects to not propose residential parking. The Affordable Housing Incentive Program (containing incentives for 100 percent affordable housing projects and other affordable housing project types) also does not require residential parking for a vast majority of projects and, in some cases, allows a reduction in parking for project-affiliated commercial or institutional uses. The new 1A zoning code eliminates the (P) parking zone entirely, and as community plans continue to update into the new code, parking minimums will be reduced while requirements for EV charging infrastructure and more pedestrian amenities will continue to be introduced. On September 18, 2025, City Council voted in favor of instructing City Planning and other departments to conduct a feasibility analysis on eliminating off-street parking requirements citywide (CF 25-0642). Three supporting ordinances that are needed to enable the proposed TDM Ordinance (two ordinances updating development review fees for the Los Angeles Department of Transportation in two different sections of the Municipal Code and an ordinance establishing a Mobility Investment Trust Fund) were adopted in July 2025 and became effective August 10, 2025. MOBILE HOME PARKS	Assist 100 mobile park tenants by 2029	10/15/2029	6th Cycle	Continuous	In 2025 LAHD spent several weeks staffing the emergency centers to answer questions of constituents impacted by the Palisades fires. Some of those were from mobile home parks in the area. LAHD also updated our records to reflect the elimination of the previously state-law-required RSO exemption for mobile home parks with 12-month leases. State law was amended to prohibit this RSO exemption for all units starting January 1, 2025 regardless of length or date of lease (Civil Code § 798.17(i), (j), (k)). All these tenants now have greater protections. In the City's New Zoning Code (Chapter 1A), Mobile Home Park is a defined use and receives a permission level in every adopted Use District (zone), it's one of four defined uses in our Residential Use Category. LACP made notable changes by removing the public benefit approval process for Mobile Home Parks from Chapter 1 by allowing Mobile Home Parks by right (with light landscape standards) in most residential use districts and the majority of the commercial mixed use districts. Mobile Home Park are not allowed in Industrial Mixed or Industrial Use Districts. As the new code is applied in more community plan areas, these new permission levels for establishing new Mobile Home Parks will apply to more areas in the City. REPLACEMENT UNIT PROGRAM FOR SELECTED SITES	In order to mitigate the loss of affordable housing units, require new housing developments on selected sites to replace all affordable housing units lost due to new development.	2/11/2025	6th Cycle	Completed	In February 2025, the Housing Element Sites and Minimum Density Ordinance (HESMD) took effect. HESMD includes a requirement that prohibits the demolition of units on Housing Element Sites that have been occupied or vacant within the previous five years unless they are replaced pursuant to the RPO. The Resident Protections Ordinance (RPO) also became effective in February 2025. The RPO codifies and expands upon housing replacement and occupant protection laws that were initially introduced through the state's Housing Crisis Act of 2019 (HCA), which is currently set to expire in 2030. The RPO goes above and beyond what is required in the HCA by setting a 1:1 replacement policy for units subject to rent or price control, such as units subject to the City's Rent Stabilization Ordinance (RSO). This is an increase from what was required under prior practice and was a key policy studied and recommended by the 2021-2029 Housing Element. The RPO also prioritizes deeper affordability levels, specifically Extremely Low and Acutely Low income, when units are replaced. Additionally, when the Right to Return is afforded to the occupant of the unit being lost, additional replacement and affordability requirements that go above and beyond the HCA are applicable. The occupant exercising the Right to Return is afforded a replacement unit that is a Comparable Unit, which has the same number of bedrooms (up to 3 bedrooms) and the same number of bathrooms. The affordability of the replacement unit is also set at either their prior rental rate or at an affordable rent, whichever is lower. REPLACEMENT UNIT PROGRAM FOR SELECTED SITES	Adopt policy and implementation guidance upon Housing Element Adoption in 2021.	10/15/2029	6th Cycle	Continuous	Following the adoption of the Housing Element, the City began enforcing a replacement unit requirement for Housing Element Sites. In 2022, the City developed a Zoning Information (ZI) file and identified housing element sites in Zimas, the city's public-facing parcel-based zoning information database. An enhanced replacement policy (including 1:1 replacement of RSO described in the objective above) became effective in February 2025, with the adoption of the Resident Protections Ordinance (RPO). During the last year, a variety of implementation materials have been made available to both City staff and the public to provide guidance regarding the applicability of the Housing Crisis Act (HCA) and the RPO. Several of these materials have been neatly housed on a revamped Housing Crisis Act and Resident Protections webpage and include: a Replacement Unit Requirements and Occupant Protections Fact Sheet, a No Net Loss Supplemental Form, and a Housing Development Project Applicability Matrix. These materials are intended to help staff and members of the public determine the applicability of replacement requirements and occupant protections on projects. Planning Department staff plan to produce and release additional implementation materials that will further help the public and staff implement HCA and RPO provisions. Some projects that pre-date the RPO due to vesting are still processed under HCA RUDs. In 2025, LAHD's Land Use team completed 311 HCA and RPO RUDs. ENFORCEMENT OF NO NET LOSS AND AFFORDABLE HOUSING REPLACEMENTS REQUIREMENT	Consider extending SB 330 requirements in 2030.	2/12/2025	6th Cycle	Completed	As part of the RHNA Rezoning (Program 121), the City developed a Resident Protections Ordinance (RPO) which became effective in February 2025. The RPO codifies SB 330 (the Housing Crisis Act (HCA)) replacement requirements and occupant protections for housing projects beyond the sunset date in state law. Subsequently AB 130 was signed by the Governor in September 2025, making the HCA permanent for housing and non-housing projects. The City will remove the 2030 sunset date currently included in the RPO via a future Housing Code Amendment focused on technical clean-ups to streamline housing which is anticipated to move forward in 2026. ENFORCEMENT OF NO NET LOSS AND AFFORDABLE HOUSING REPLACEMENTS REQUIREMENT	Change to 1:1 requirements as part of the Density Bonus update by 2024.	2/12/2025	6th Cycle	Completed	As part of the RHNA Rezoning (Program 121), the City developed a Resident Protections Ordinance (RPO) which became effective in February 2025. The RPO enhances state HCA requirements in several ways, one of which is a 1:1 replacement for RSO protected units. When RSO units are demolished for new development, the RPO requires 100% of those units to be replaced, up from 65% under the prior framework established in Government Code 65915(c)(3). Studying 100% (or 1:1) replacement was a key policy of the Housing Element (Policy 2.2.1) that the RPO delivers on (Programs 28 and 29). During the RPO adoption process, City Council instructed the City Planning Department and LAHD to report back on the possibility of implementing a 2:1 replacement policy for RSO units in low resource areas (CF 21-1230-S8). The departments are currently preparing that report-back. All four organizations are rooted in local communities and provide culturally-competent outreach and education to encourage tenants to participate in REAP by making their reduced rent payments directly to the City, assist the tenants in navigating intersecting issues such as harassment or RSO violations, and explain all the protections that apply to the tenants (LAHD also has a fifth outreach contractor specifically for property owners). Through five Outreach Service Providers, tenants in high-segregation and poverty areas, as well as areas facing displacement, have been contacted via US Mail, telephone, site visits, and email a total of 10,591 times. DISASTER RESILIENCE AND RECOVERY	Support property owners in safely rebuilding residential properties after a disaster.	10/15/2029	6th Cycle	Continuous	In response to the devastating Palisades Fire in January 2025, Governor Gavin Newsom and Mayor Karen Bass issued a series of Emergency Executive Orders. These orders streamline and expedite the permitting process to allow for the rapid rebuilding and repair of homes, businesses, and other structures that were destroyed or damaged as a result of the disaster. The orders establish criteria for by-right rebuilds, called Eligible Projects, that are not subject to the California Environmental Quality Act (CEQA) or the Coastal Act. The Mayor's EO1 established the One-Stop Rebuilding Center to guide residents through the rebuilding process and allow them to file all City permits needed to begin rebuilding their homes and businesses in an expedited and streamlined process. Representatives from the following departments are onsite: Bureau of Street Services, Bureau of Sanitation, Department of Transportation, Housing Department, Department of Building and Safety, Department of City Planning, Los Angeles Fire Department, Bureau of Contract Administration, and Bureau of Engineering. In February 2025, the Planning Development Services Center (DSC) established the Palisade Rebuild and Recovery Center at the West Los Angeles location in response to the devastating Palisades Fire to facilitate quick and streamlined rebuilding of the Palisades community and bringing businesses back in operation as quickly as possible. The Planning Department is assisting in these key ways: Fast-tracking all Eligible Projects as defined by the Executive Orders from Governor Newsom and Mayor Bass. The West Los Angeles Palisade Rebuild and Recovery Center has served 1,287 customers and facilitated 145 permits for rebuilding since February 2025. In addition to the orders related to physical rebuilding and recovery, Mayor Karen Bass also issued: (1) Emergency Order 4, which aids in the relocation, co-location, and temporary operation of educational and child care facilities that were adversely impacted by the wildfire; (2) Emergency Order 6, which establishes Los Angeles's first-ever plan check Self-Certification pilot program to reduce time spent on the permitting process; (3) Emergency Order 7, suspending plan check and permit fees; (4) Emergency Order 9, which suspended SB9 projects in the Palisades; (5) Emergency Order 10, to streamline rebuilding for commercial properties; and (6) Executive Directive 13, which launched a pre-approved standard plan pilot program for single-family homes. As of March 3, 2026, the City has received 3,703 applications for 1,597 unique addresses. 2,051 permits have been issued for 930 unique addresses. 2,484 plans have been approved, and 1,219 are under review. DISASTER RESILIENCE AND RECOVERY	Support property owners in safely rebuilding residential properties after a disaster. Support tenants in finding and maintaining safe, permanent housing following a disaster. Ensure that hazard information from safety documents is integrated into land use decisions.	10/15/2029	6th Cycle	Continuous	In response to the Palisades Fire in January 2025, LAHD conducted extensive work to support rebuilding and recovery efforts. In the immediate aftermath of the fires, LAHD Code Enforcement compiled an initial spreadsheet of multi-family, RSO units, ADUs, mobile home park units, condominiums, and single-family properties located in census tracts in and around the Palisades fire area and compared the data with Cal Fire Damage Inspection (DINS) data. LAHD's Rent and Policy teams worked with the City Council to implement renter protections: 1) Non-Payment of Rent Eviction Protection for Tenants Impacted by the January 2025 Wildfires, if the tenant's place of employment was lost, their working hours were reduced, they were laid off, or they had a loss of income due to impacted clients; 2) Eviction Protection for Additional Tenants and Pets due to the Wildfires, if the tenant notified the landlord in writing, including proof of displacement. LAHD staffed tables at the Disaster Recovery Center (DRC), answering constituents' questions on housing-related matters and referring them to other resources for further assistance. LAHD also provided staff to the DRC as Disaster Service Workers. LAHD supported property owners in safely rebuilding residential properties by having staff available at the One-Stop Rebuilding Center, ready to assist constituents affected by the fires seeking to rebuild their properties. Rebuilding efforts have been expedited by allowing self-declarations for replacement unit determination clearances. LAHD has not collected Code Enforcement fees from impacted Palisades multi-family rental properties which are not yet reoccupied and not yet collecting rent. The City further supported tenants impacted by the fires in multiple ways. Through the City's eviction defense program, Stay Housed LA provided legal assistance to zip codes located in the areas likely affected by the Palisades fires. Within these zip codes, SHLA provided legal assistance to 115 households, which included 11 full-scope cases and 104 limited-scope cases from January to September 2025. During this period, 88 households received $1.3 million in rental assistance. Finally, 14 legal clinics and "know-your-rights" workshops were hosted, tailored specifically to tenants' rights after a disaster. The City received a $1 million allocation of Rapid Unsheltered Survivor Housing (RUSH) federal grant funds to provide assistance to people who are unhoused or at risk of homelessness. In close collaboration with CIFD, LAHD is working to launch a $14.6 million emergency round of the United to House LA Income Support Program that will serve extremely low- and very low-income households that have a senior and/or person with a disability and that are at risk of homelessness due to impacts from the local emergencies this year. DISASTER RESILIENCE AND RECOVERY	Ensure that hazard information from safety documents and databases are integrated into land use decisions.	4/1/2025	6th Cycle	Completed	The Safety Element of the General Plan was updated and adopted by the City Council on October 31, 2025. This update was a targeted amendment to incorporate the most current, FEMA-approved 2024–2029 Local Hazard Mitigation Plan (LHMP) into the Safety Element and to update associated references. The Safety Element provides a contextual framework for understanding the relationship between hazard mitigation, disaster response, and initial recovery. It offers a high-level overview of how the City plans for disasters and directs readers to other implementation documents for more detailed information, including the City's LHMP and the Emergency Operations Plan. The City of Los Angeles completed its first Climate Vulnerability Assessment (CVA) in April 2025 as an important step toward ensuring that the City's climate adaptation and resilience efforts prioritize climate equity. City Planning led this effort in coordination with the Emergency Management Department and the Climate Emergency Mobilization Office to ensure alignment with their respective climate planning initiatives. The CVA examined the anticipated impacts of climate change across the City and identified the areas and communities most vulnerable to those impacts. The CVA's analysis of climate hazards included extreme heat, extreme precipitation and flooding, drought, wildfires, sea level rise, and public health. The CVA supports several implementation programs of the Plan for a Healthy LA, the City's Health Element, primarily Program 40: Climate Adaptation and Preparedness Plan (CAPP) and collaboration. It also supports the climate equity and resilience policies of the Safety Element. The CVA report is publicly accessible online; additionally, an accompanying Storymap and Hazard Overview Summary handouts have been made available to share the CVA's findings in easily digestible, visual formats. Furthermore, the CVA will help inform the development of a forthcoming Climate Action and Adaptation Plan for the City. The City also continues to develop the Local Coastal Program (LCP) for Venice, which will address potential hazards associated with coastal areas and establish policies and implementation measures to avoid or reduce coastal hazards, including sea level rise. In 2025, the City of LA was awarded a grant from the California Coastal Commission to support staff resources and consultant work to inform LCP policy development, including an update to a prior sea level rise vulnerability assessment to align with the most recent state guidance. EXPEDITE AFFORDABLE HOUSING PROJECTS	Prioritize affordable housing projects to expedite processing of permits and any related entitlements. Reduce the need for entitlements and reduce entitlement and permit processing times for affordable housing projects by up to 12 months, as part of Programs 48 and 121, by 2024.	12/19/2025	6th Cycle	Continuous	The Citywide Housing Incentive Program (CHIP) and the Housing Element Sites and Minimum Density Ordinance became effective on February 11, 2025; both expedite affordable housing projects using different criteria. CHIP streamlines review for affordable housing projects, scaling review processes based on the number of requested incentives and waivers. Projects eligible for by-right processing are reviewed by LADBS, while projects reviewed ministerially by LACP undergo a newly introduced process called Expanded Administrative Review. Projects providing 80-100% affordable housing through the Affordable Housing Incentive Program can request up to five incentives and one waiver through Expanded Administrative Review. The streamlining procedures introduced with the CHIP ordinance seek to expedite processing for affordable housing projects; 91% of projects proposed in the first 10 months of CHIP (Feb-Dec 2025) are by-right or ministerial cases. The Housing Element Sites and Minimum Density Ordinance provides multi-level streamlining for projects on the Housing Element Sites list that meet minimum density and affordability thresholds. Seven projects using Housing Element Sites streamlining were proposed in 2025. On December 19, 2025, the Affordable Housing Streamlining Ordinance codified the main provisions of Executive Directive 1 (ED1), issued by the Mayor's Office in 2022. Eligible 100% affordable housing projects receive priority Planning Department processing, Planning Department building permit clearances, and Planning Department approvals through the AHS Administrative Review Process. EXPEDITE AFFORDABLE HOUSING PROJECTS	Adopt amendments to the Affordable Housing Incentives Program Guidelines to facilitate better understanding of the various affordable housing incentive programs by 2024.	10/15/2029	6th Cycle	In Progress	Funding from the REAP 1.0 grant program was used to hire a consultant to assist in revising the Affordable Housing Incentive Guidelines. In 2022, initial work began to review relevant materials and brainstorm the intent and structure of the revised document in light of ongoing updates to the City's affordable housing incentives in the CHIP Ordinance. A preliminary draft and revised draft of an Affordable Housing User Guide, which was designed to assist applicants in choosing various incentive pathways that may suit there needs has been provided by consultants. Separately, the City Council approved a set of Fair Housing Requirements for Affordable Housing concurrent with its approval of the Resident Protections Ordinance in early 2025, which replaced the old Affordable Housing Incentive Guidelines. This new set of requirements applies to all affordable housing units in mixed-income development projects. EXPEDITE AFFORDABLE HOUSING PROJECTS	Assist 50 affordable housing projects per year through the Priority Housing Program.	10/15/2029	6th Cycle	Continuous	The City Planning department approved seven PHP projects in 2025.While this number is lower than the Housing Element objective of 50 per year, much of the affordable housing proposed in the City in 2025 was via the ED1 and AHIP program. These cases have their own streamlined review timelines, but are not formally part of the PHP. The City approved 152 projects including 11,055 units under ED1 in 2025. Over 3,000 units permitted in 2025 under the program with 31% in High and Highest Resource areas.	Other	159	Internally Tracked

IMPLEMENT CEQA STREAMLINING MEASURES	Allow for streamlined environmental review (e.g. SCEA required for Infill and Transit Priority Projects).	10/8/2025	6th Cycle	Completed	LACP entered 2025 fully capable of releasing CEQA cases using streamlining for SCEA, SCPE, Housing Element CEQA Streamlining Checklist, and Class 32 CE Infill Exemption programs as CEQA clearances. LACP published updates to the Housing Element CEQA Streamlining Checklist form on 9/29/2025 and also released a revised version of the Checklist Instructions on 8/12/2025. A new law, AB 130, went into effect on 6/30/2025, which included a new statutory exemption (SE) for streamlining housing projects. LACP published a guidance memo for this on 10/8/2025. As there is lag time for a new process, the first completed AB 130 SE cases were not completed and filed until January 2026. Nevertheless, 53 Class 32 Infill Exemption cases were completed and filed in 2025, and two Housing Element CEQA Streamlining Checklist cases were completed and filed in 2025. UNAPPROVED DWELLING UNITS (UDU)	Process 65 applications per year to preserve 100 affordable units and prevent tenant displacement as a result of zoning code violations related to unapproved rental units.	10/15/2029	6th Cycle	Continuous	The City processed five applications, approving one unit. As previously reported, the number of applications for this program may be declining over time due to a number of factors such as changes to state ADU laws which have facilitated legalization of unpermitted ADUs, as well as the staffing shortages which reduced the number of multifamily inspectors in recent years. UNAPPROVED DWELLING UNITS (UDU)	Identify requirements that pose compliance difficulties for legalization projects and adopt amendments to the Zoning Code to alleviate continued challenges to legalization and expedite the process, by 2024	10/15/2029	6th Cycle	Continuous	In June 2021, Council instructed City Planning to prepare a report back on the feasibility of amending UDU provisions of the code to encourage more use of the program. The motion has since expired. Since the UDU provisions of the LAMC were first implemented, state law has created more pathways for legalizing unpermitted ADUs, diminishing the need for the local program. In 2023, LADBS released an information bulletin regarding Accessory and Junior Accessory Dwelling Units in permitted and unpermitted buildings. This bulletin clarifies the city's procedures given AB 2553, and provides minimum requirements for conversions of existing buildings to ADUs or JADUs, permitting of existing unpermitted ADUs or JADUs, and permitting of unpermitted ADU or JADUs constructed before January 1, 2020. As part of the Missing Middle work program, the City will explore code amendments to address policy issues with Unpermitted Dwelling Units (UDUs). The ADU ordinance update contemplated in the Missing Middle program will incorporate all relevant state law changes regarding legalizing unpermitted units into the LAMC. UNAPPROVED DWELLING UNITS (UDU)	Conduct proactive outreach on the benefits of the UDU program to landlords, particularly when tenant displacement would otherwise occur, through the SCEP Program (Program 22) when inspecting multifamily rental units and zoning code violations are identified.	10/15/2029	6th Cycle	Continuous	Inspectors performing SCEP inspections regularly do proactive outreach on other relevant policies, including UDU regulations, when zoning code violations are identified. LAHD's Code Enforcement Division has focused on the State Law regarding Delayed Enforcement rather than UDU directly. In addition, most staff will promote the conversion to an ADU and not UDU as ADU's are By-right under today's State and Local Law.	Other	1	N/A
IMPROVEMENTS TO DEVELOPMENT PROCESSING	Increase the number of cases processed as ADM Clearances and Ministerial cases, while decreasing the percent of projects processed as discretionary entitlements through a variety of efforts.	10/15/2029	6th Cycle	Continuous	The City is continuing several efforts to increase the share of projects processed by-right or ministerially, especially for residential projects containing restricted affordable units. The Citywide Housing Incentive Program (CHIP) became effective on February 11, 2025. CHIP streamlines review for affordable housing projects, scaling review processes based on the number of requested incentives and waivers. Projects eligible for by-right processing are reviewed by LADBS, while projects reviewed ministerially by LACP undergo a newly introduced process called Expanded Administrative Review. Projects providing 80-100% affordable housing through the Affordable Housing Incentive Program can request up to five incentives and one waiver through Expanded Administrative Review. The streamlining procedures introduced with the CHIP ordinance seek to expedite processing for affordable housing projects. 91% of projects proposed in the first 10 months of CHIP (Feb-Dec 2025) are by-right or ministerial cases. The Housing Element Sites and Minimum Density Ordinance also became effective on February 11, and makes over 31,000 sites eligible for ministerial processing provided a project meets minimum density and affordability requirements. The Affordable Housing Streamlining Ordinance, the codification of Executive Directive 1, became effective on December 19, 2025, and ensures that 100% affordable projects will continue to be eligible for multi-level review streamlining citywide. The City is continuing its Priority Housing Program for projects setting aside at least 20% of units for lower-income households, as well as streamlining for permanent supportive housing and ministerial approval for ADUs. IMPROVEMENTS TO DEVELOPMENT PROCESSING	Development of a multidepartmental case clearance system by 2026.	10/15/2029	6th Cycle	Continuous	The City continues its development of BuildLA, a one-stop-shop platform for applicants. An improved online portal was in the beta testing stage in 2024. The online portal is still in development, but is anticipated to better facilitate project review, streamline virtual development services, and provide a more customer friendly interface for tracking the progress of projects through development review when it has full functionality. BuildLA allows applicants to schedule in person and virtual appointments. All of the Planning Department's Development Services Section (DSC) and Specialized Services (including the Affordable Housing Services team) offer online appointment options. Applicants can also drop in to a virtual public counter, which is open from 9 - 11 AM daily. The virtual counter offers customers 15-minute slots to ask quick questions, thereby reducing the number of calls, emails and in-person appointments with DSC staff. In 2025, City Planning served 9,935 customers on the Virtual counter. The DSC and Specialized Services have been the lead on a number of Department memos, Fact Sheets and web pages outlining implementation procedures for various state and assembly bills and serves as a resource for the Department and the public. The following web pages and resources such as fact sheets and forms, were updated in 2025: Executive Directive (ED) 1 and revised Guidelines, Housing Crisis Act (web page, matrices and info sheet), Affordable Housing Services Section (referral forms, including 7 new referrals for the new CHIP Ordinances and related Chapter 1A forms). In 2024, Planning's DSC shifted from a Google Form that allowed applicants to submit Clearance Summary Worksheet (CSW) of building permit requests online to the City's Online Application System (OAS). In 2025, the CSW requests were completed through OAS. This is part of a multi-year process to move more services online, significantly streamlining the tracking and issuance of building permit clearances by Planning. Working thorough OAS allowed for more data storage and further improved the customer experience. OAS has continued to expand the number of types of services available online, including updates to the TOC and Affordable Housing Referral forms. Also, the Planning Department has developed a new automated table that tracks the total number of projects proposed and approved under the newly-enacted Executive Order 1 ("ED1") that streamlines approvals for projects that consist entirely of affordable housing units ("100% affordable"). We are continuing to work with our sister agencies to maintain the Affordable Housing Tracking System (AHTS) and provide technical support on integrating Planning data into the system. In 2024, the AHTS was expanded to include the tracking of additional project types. As part of the FY 25-26 Budget, the City Council and Mayor transferred responsibility for reviewing projects for compliance with LA's Zoning Codes from the Department of Building and Safety to City Planning. This change is intended to improve operational efficiency and streamline project review, creating a "one-stop shop" for planning and zoning services. DBS continues to oversee all aspects of permit intake and issuance. As part of this process, LA City Planning completed a technical Zoning Review Transfer Ordinance updating the code to reflect inter-departmental roles and functions. (CF 25-0572). In a September 3, 2025 report to the Planning and Land Use Management Committee, City Planning responded to the above motion and identified the need for technical amendments to the Los Angeles Municipal Code (LAMC) to clarify departmental authorities and ensure consistent and streamlined processes without any disruption of service. The draft Zoning Review Transfer Ordinance was released for public review on October 23, 2025 and the legislative adoption process is anticipated to take place throughout 2026. DEVELOPMENT AND DESIGN STANDARDS	Develop new frontage regulations and CPIOs in all Community Plans adopted by 2029.	10/15/2029	6th Cycle	Continuous	On September 9, 2025, the City Council approved the Harbor-Wilmington Community Plan, introducing five new frontage districts to the City's zoning code. Applying the new frontage districts within the plan area elevates design expectations for all projects, effectively implementing objective design standards. In 2025, City Planning released a white paper with recommendations and a user-friendly guide illustrating options for Accessory Dwelling Unit (ADU) duplex, triplex, fourplex, and bungalow court residential development in a variety of lot conditions and configurations based upon local existing conditions. The program involved stakeholders in crafting solutions to ensure that low-rise housing reflects the latest research and offers citywide solutions that are economically viable, ecologically sound, and leave a lasting legacy of thoughtful low-rise design tailored to community needs, for potential use in rezoning efforts and policy development. ZONING CODE REVISION	Adopt ordinances and a brand new Zoning Code that establishes clear and predictable regulations.	10/15/2029	6th Cycle	Continuous	The City of Los Angeles adopted a new zoning code (Chapter 1A of the LAMC) in October 2024. The zoning structure focuses on the physical design of a building as well as its use and consists of five key parts or "districts": Form, Frontage, Development Standards, Use, and Density. Form, Frontage, and Development Standards regulate the built environment, while Use and Density refer to the activities allowed on a site. The code will continue to be amended and new zoning districts will be added as more community plan updates are adopted.	Other	1	New Zoning Code Webpage: https://planning.lacity.gov/zoning/new-code

FACILITATE HOUSING INNOVATION	Adopt various amendments to the Zoning Code to accommodate innovative multifamily housing types.	10/15/2029	6th Cycle	Continuous	As a part of the Rezoning Program (#121), the Citywide Housing Incentive Program (CHIP) ordinance was adopted by City Council and became effective in February 2025. As noted in Programs 4, 13, 15, and 16, the CHIP facilitates innovation for a variety of housing types including missing middle, shared equity, shared housing, senior housing, public land, and faith-based housing. The CHIP subprogram Mixed Income Incentive Program (MIIP) scales incentives according to proximity to transit, introducing the Corridor Transition Area that incentivizes lower-scale mixed affordability housing near transit and offers pre-approved open space typologies, such as the courtyard or paseo. The Affordable Housing Incentive Program scales incentives according to the underlying zone's maximum density, proximity to transit, and areas of opportunity. Both MIIP and AHIP allow multi-family development in lower-density areas, facilitating opportunities for lower-scale multi-family housing types where the underlying zoning or current State Density Bonus incentives do not permit. The CHIP also offers greater bonuses for multi-family residential projects that provide multi-bedroom units to ensure a range of unit types for larger households citywide, but especially in high-resource areas. The Adaptive Reuse Ordinance was adopted by Council on December 10, 2025, and became effective February 1, 2026. The Ordinance builds upon the successful Adaptive Reuse program initially applied in Downtown LA and expands eligibility citywide. Incentives that facilitate adaptive reuse are also included in the Citywide Housing Incentive Program (CHIP) Ordinance (Programs #48 and 121), which introduces a new Unified Adaptive Reuse project type for projects seeking to utilize a density bonus on sites with adaptive reuse projects and grants incentives for projects which retain and rehabilitate the facade of a Surveyed Historic Resource. In Fall 2025, City Planning launched Missing Middle LA—a new initiative to make both for-sale and rental housing more accessible by streamlining the city's review and removing barriers to building smaller, neighborhood-scale homes, also known as missing middle housing. The program will implement and build upon recent state laws allowing duplexes (SB 9), small-lot townhomes (SHRA), and for-sale ADUs (AB 1033) (CF 25-0753) in all residential zones. Additionally, Missing Middle LA will develop a city-specific program that goes beyond the provisions of SB 9 or the SHRA in exchange for compliance with design standards or the provision of public benefits. ACCESSORY DWELLING UNITS	Continue to produce new information to assist homeowners and ADU builders in understanding their options. Partner on programs to incentivize and accelerate the production of Affordable ADUs.	10/15/2029	6th Cycle	Continuous	In August 2025, City Planning released an update to the ADU Implementation memo (previously released in December 2024) to account for new guidance provided by HCD and address some technical corrections. As part of the Missing Middle LA work program, the department is contracting with a consulting firm to develop a Low-Rise Missing Middle Development Financial and Site Feasibility Online Resource to help members of the public visualize and design potential development options under the revised ordinances. While the Housing Element identified the Affordable Housing Linkage Fee as a potential resource for funding affordable ADUs, this program never received final approval and was decommissioned in 2025. Made possible by the Bloomberg Philanthropies Mayors Challenge, the LA ADU Accelerator Program pairs older adults with homeowners willing to provide a stable home by offering their accessory dwelling units (ADUs) as rentals. In 2024, the Bureau of Engineering, in coordination with Building and Safety, developed a new free, pre-approved ADU standard plan called the You ADU. It is available on the LADBS ADU website. As of December 31, 2025, a total of 91 ADU Standard Plans have received pre-approval for utilization by applicants. Between January 1, 2025, and December 31, 2025, 9 projects utilizing these standard plans were submitted for building permits, 4 projects utilizing these standard plans were issued a building permit, and 4 projects utilizing these standard plans were issued a Certificate of Occupancy. On September 10, 2025, City Council instructed the Department of Building and Safety and other departments to report back on proposals for expedited process for HCD-approved building plans (Standard Plan Program) (CF 25-0754). PLAN FOR HOUSING GROWTH AND PLACE-BASED STRATEGIES IN COMMUNITY PLAN AREAS	Identify targeted growth areas and incorporate appropriate land use designations and policies in the adoption of 16 Community Plans and at least 3 neighborhood plans by 2029. (see timelines below). Prioritize rezoning at densities that allow creation of affordable housing in areas near transit, jobs and in Higher Opportunity Areas, while balancing the preservation of stable multifamily neighborhoods. Create and incorporate tailored place-based land use strategies and programs in each plan (see below for a range of implementation tools). Ensure that updates to Community Plans and neighborhood plans are consistent with Citywide Housing Priorities.	10/15/2029	6th Cycle	Continuous	Community Plan Updates present an opportunity to plan for housing growth and place-based strategies. For comprehensive status updates on the City's community plan updates and how they support community-level affordable housing programs, see Program 81. Below are updates on how the community planning program's milestones in the past year furthered Program 65 goals, along with a summary of Community Plan Updates that are currently in progress and anticipated to be adopted by 2029. Adopted Plans: The updated Downtown and Hollywood Community Plans incorporate growth near transit, allowing for increased density and floor area ratios for projects that include affordable housing units via tailored Community Benefit Programs. The Hollywood Community Plan increased density and floor areas near the Regional Center and corridors while also preserving lower-scale neighborhoods. The Downtown Community Plan looks to leverage Downtown LA's concentration of local transit options and regional connections, thoughtfully accommodate future growth centered on equity and providing housing for people of all incomes, and sustain Downtown as a collection of unique neighborhoods to promote a dynamic, healthy, and sustainable area. Under legal review prior to final adoption: - The Boyle Heights Community Plan provides increased density, FAR, and height along four Metro fixed-rail transit stations while preserving rent-controlled units in neighborhoods further away from major transit stops by right-sizing floor area. The anticipated adoption date is summer 2026. Implementing ordinances and report-back requests from City Council are pending final approval for the Boyle Heights Community Update Plan. - The Cornfield Arroyo Seco Specific Plan (CASP) incentivizes on-site affordable housing units and place-based community benefits, as well as improving the clarity and transparency of regulatory standards. The anticipated adoption of this program is 2026. Implementing ordinances are pending final approval for the Cornfield Arroyo Seco Specific Plan update. - The Harbor Community Plans, which include two Metro station areas within the Community Plan Areas, utilize the Community Benefits Local Affordable Housing Incentive Program in targeted commercial areas, which provides greater development potential by providing affordable housing. The Harbor Plans were adopted by City Council in September 2025 and are currently under legal review pending final adoption.Community Plan Updates in progress: - The Southwest Valley Community Plans Update and Southeast Valley Community Plans Update include zoning changes that would result in greater development potential through an increase in height, floor area ratio, and/or density from what is allowed today. This strategy is applied to portions of major corridors and surrounding transit-served areas in order to provide increased opportunities for housing that include affordable housing units. - The Orange (G) Line Transit Neighborhood Plan will provide increased height, floor area, and density through updated zoning and land uses around three Metro stations. It will also develop regulatory tools and strategies aimed at creating more housing options and job opportunities in proximity to transit to reduce automobile dependency and greenhouse gas emissions. Each station area is planned with contextual intensities, land uses, design standards, and other strategies. - The Westside Community Plans Update includes zoning and land use updates to four Community Plans on the Westside in a geography including five existing Metro Rail stations and three future Metro Rail stations. In 2025, City Planning released updated land use and zoning maps that incorporate the Housing Element Rezoning Program (MIIP) incentives into the zoning for the Community Plans. ACHIEVING WATER USE EFFICIENCY WITH CONSERVATION PROGRAMS	Achieving water use efficiency and increasing water savings through outreach, education, and incentives in order to achieve the goal of 100 gallons per capita per day (GPCD) by 2035.	10/15/2029	6th Cycle	Continuous	In 2025, LADWP continued its ongoing water conservation programs, launched new programs, and updated existing ones to encourage more participation. LADWP continues its home water use report program for all single-family residential customers. Reports are delivered via mail or email and are accessible via an online dashboard to single-family residential customers, indicating their water use compared to similar households and suggesting ideas on how customers can save water. Recognizing customer challenges in the design of turf replacement projects, LADWP provides over 1,000 landscape design templates in a searchable online library available to all customers. LADWP also partners with nonprofit organizations through its Community Partnership Outreach Grant and offers up to two $90,000 at-large water conservation grants. Grantees for 2025 provided educational workshops and outreach on water-wise techniques to communities, promoted conservation through a gamified app to establish water-saving habits, and participated in community events promoting water conservation programs and incentives. The Citywide Water Use Efficiency Loan Program, where LADWP will provide $3 million in upfront funding in the form of a 0% interest loan to City Departments to implement water use efficiency projects, such as turf conversions, cooling tower upgrades, or the installation of water-efficient devices continues to provide city departments upfront funding with low interest loans. Furthermore, a new agreement was made with SoCalGas for the direct installation of water-efficient fixtures in newly constructed homes. The partnership with SoCalGas has proven to be cost-effective due to the cost-sharing of administration and labor fees. These programs are meant to provide water savings through fixture and appliance upgrades in order to reach LADWP's water use efficiency goal of 100 gallons per person per day by the year 2035. INCENTIVES TO CONSERVE ENERGY	Seek out and install cost-effective electric solutions that will improve the performance of customers' homes and give them additional control over their energy expenses throughout the eight-year period.	10/15/2029	6th Cycle	Continuous	The Department's collaboration with Southern California Gas Company (SoCalGas) focuses on evaluating and implementing effective programs aimed at reducing natural gas, water, and electricity usage among customers within their joint service territory. Each year, water and energy efficiency kits are distributed to income-qualified customers residing in disadvantaged communities in Los Angeles through this collaboration between LADWP and SoCalGas. Each kit contains two CA-compliant 9W LED bulbs, two water-efficient showerheads, three faucet aerators, and inserts with information to access other LADWP water and energy efficiency programs and rebates. The kits are provided free to customers and help save over 840 million gallons of water, reduce natural gas usage in Los Angeles by approximately 500,000 net therms, and save close to 1.8 million kWh in annual energy usage per year. The Consumer Rebate Program (CRP), available at www.ladwp.com/CRP, extends rebates to residential customers, promoting the efficient use of energy. This program not only assists customers in reducing their bills but also encourages resource conservation, environmental protection, and enhanced home comfort. The products eligible for rebates under this program are cool roofs, energy-efficient windows, energy-efficient HVAC systems, variable speed pool pumps, and whole house fans. In 2025, CRP introduced a tiered rebate system to encourage the purchase and installation of heat pump HVAC systems that meet higher efficiency levels. In addition, CRP expanded its program offerings by including heat pump water heaters in its list of eligible products.	Other	1	www.ladwp.com/CRP

CITY PLANTS	Provide free shade trees for residents and property owners along with information on where to plant the trees for maximum energy efficiency benefits throughout the eight-year period.	10/15/2029	6th Cycle	Continuous	The City Plants program continues to make trees available without constraints to maintaining, improving, and developing housing. Free shade trees are available to owners of any residential building in the city. The trees ultimately provide energy bill savings and cooling to housing during extreme heat events. In 2024, City Plants launched the Pilot Private Property Planting Program (P5) to expand tree access. Through P5, residents who sign a liability waiver and tree care agreement will receive a free professional tree assessment, species selection guidance, and tree planting services from City Plants' expert partners. This enhanced service is designed to enable residents—especially those in underserved communities and individuals with disabilities—to enjoy the many benefits of trees on private property. The pilot phase included virtual property assessments and will transition to in-person implementation in 2025. In 2025, City Plants successfully adopted 6,053 trees, delivered 4,637 trees, and hosted 118 events across Los Angeles. More information is available at www.ladwp.com/FreeTrees. HOUSING AND ECOLOGY, URBAN DESIGN STUDIO LANDSCAPE ORDINANCE UPDATE	Integrate Landscape Ordinance and Low Impact Development Ordinance into project review process.	10/15/2029	6th Cycle	Continuous	In 2025, City Council recommended approval of the Landscape and Site Design Ordinance and directed the City Attorney to prepare the ordinance as to form and legality. The Landscape and Site Design Ordinance includes both mandatory and elective design standards in the form of a point-based system to encourage sustainable building materials, building orientation to optimize passive cooling, and the integration of nature-based solutions in building and site design to encourage low-impact development. The Urban Forest Management Plan (UFMP) is in development and is anticipated to be reviewed and adopted in 2026. It will describe best practices and current conditions and establish goals, as well as strategic and implementation plans, for canopy expansion and urban forest health and sustainability. The Landscape and Site Design Ordinance included development standards related to tree preservation, maintenance planning, and tree planting in alignment with draft concepts in the UFMP. It also included the creation of a Health and Urban Forest Equity Priority Areas ZI to incorporate tree canopy equity data and priorities from the draft UFMP into the ordinance. The new zoning code also contains a number of zoning tools that aim to implement conservation and ecological goals formerly contained in the Los Angeles River Overlay (RIO). As new community plans are updated, the new zoning tools will apply to different parts of the city. The Boyle Heights and Downtown community plans both contain river frontage districts that encourage river-adjacent developments to include pedestrian access to the river, better integrating housing and the nearby ecological resource. The Downtown plan became effective in February 2025. The Boyle Heights plan was approved in September 2024 and is pending legal review. A local list of plant species will be adopted with the Harbor Plan Updates. As of November 2024, the ordinances were awaiting a hearing at the PLUM Committee, which would be followed by final consideration and adoption by the City Council. The City of Los Angeles' adopted budget for Fiscal Year 2025-2026 eliminated funding for City Planning's Wildlife Work Program. At this time, adoption of the Wildlife Ordinance would require City Council action and allocation of staff resources to implement the new regulations. AFFORDABLE HOUSING IN THE COASTAL ZONE (MELLO ACT IMPLEMENTATION)	Adopt amendments to the Zoning Code in 2021 to implement inclusionary and replacement housing requirements in the Coastal Zone (Mello Act Ordinance) that result in 250 very low income units; 100 low income units; 75 moderate income units over the course of this Housing Element Cycle.	10/15/2029	6th Cycle	In Progress	The original motion presented by Councilmember Bonin, which instructed the Planning Department to amend the Zoning Code, expired in November 2023. The existing Interim Administrative Procedures (IAP) remain in place. Additionally, as part of the city's Rezoning Program, the Resident Protections Ordinance (effective February 11, 2025) strengthened replacement requirements citywide by requiring a 1:1 replacement of demolished rent-controlled units. COMMUNITY LEVEL AFFORDABLE HOUSING PROGRAMS	By 2029, establish community-level affordable housing programs through the adoption of Community Plan updates and other neighborhood plans.	10/15/2029	6th Cycle	Continuous	Community Plan updates include zoning updates that help to remove barriers to the production of affordable housing in various ways. A guiding principle of all Community Plans is to facilitate affordable housing production. Community Plan updates listed below all include comprehensive zoning and refreshed policy text updates to help support residential and mixed-use projects that intend to generate housing for all income levels. The City's new zoning system addresses form, scale, and massing while providing streamlined opportunities for infill development. Plans apply the code and change the land use to encourage appropriate growth, especially along mixed-use corridors served by transit in proximity to jobs, neighborhood amenities, and recreational opportunities, all of which help to incorporate place-based land use strategies. The City has made significant progress on its Community Plan program in 2025, as detailed below: Adopted plans: - The Downtown Community Plan's implementing ordinances (zone changes, etc.) became operative on January 27, 2025. The Downtown Community Plan Implementation Overlay (CPIO) establishes incentives to produce housing that is affordable to a variety of income levels and household types, applying tailored building floor area and height incentives that match each neighborhood context and development pattern. It also includes an inclusionary housing requirement. - The Hollywood Community Plan's implementing ordinances (zone changes, etc.) became operative on February 11, 2025. Note: This plan uses the old zoning code. The Hollywood CPIO establishes four subareas: Regional Center, Corridors, Multi-Family Residential, and Character Residential, to tailor and replace the existing TOC Guidelines.Under legal review prior to final adoption: - The Boyle Heights Community Plan was adopted on September 25, 2024, and its implementing ordinances have been referred to the City Attorney for finalization. It is anticipated that the implementing ordinances will be adopted and become operative in mid-2026. The plan update targets future housing growth near transit and corridors while safeguarding residential neighborhoods. Its local incentive program requires family-sized units, includes incentives for Acutely Low Income units, and also includes inclusionary housing requirements for the river-adjacent area. - The Cornfield Arroyo Seco Specific Plan (CASP) amendment was adopted on October 30, 2024, and its implementing ordinances have been referred to the City Attorney for finalization. It is anticipated that the implementing ordinances will be adopted and become operative in 2026. The update increases overall housing capacity, strengthens affordable housing requirements, and establishes a local community benefits program, including incentives for public land projects. - The Harbor Los Angeles Community Plans Update was adopted on September 9, 2025, and its implementing ordinances have been referred to the City Attorney for finalization. The Harbor Plans include new zoning, land use designations, and policy text with an environmental justice lens, and they utilize the Community Benefits Local Affordable Housing Incentive Program in targeted commercial areas, which provides greater development potential by providing affordable housing.Status of plans in progress: - As part of the Southwest Valley Community Plan Update, City Planning staff is preparing the Draft Environmental Impact Report, which is required by CEQA. - In the Valley region, the Orange Line and East San Fernando Valley TNPs would incentivize mixed-use and affordable housing while maintaining access to employment opportunities by increasing allowable building intensities in formerly industrially zoned areas. The Orange Line TNP released updated draft land use designations and zoning (including base and bonus development incentives for affordable housing), initiated the environmental clearance process, and is scheduled for a public hearing in 2026. The East San Fernando Valley TNP continued initial outreach and research in 2025. - As part of the Southeast Valley Community Plans Update, which includes five future light rail transit stations, City Planning released draft land use designations in 2024. Staff is working on updating the draft land use designations based on feedback to date, and they will be accompanied by draft zoning in the next release, which would include base and bonus development proposals. - The Westside Community Plans Update includes zoning and land use updates to four Community Plans on the Westside, in a geography including five existing Metro Rail stations and three future Metro Rail stations. In 2025, City Planning released updated land use and zoning maps that incorporate the Housing Element Rezoning Program MIIP Program incentives into the zoning for the Community Plans, further codifying and implementing the affordable housing strategies implemented through the City's Housing Element. COMMUNITY LEVEL AFFORDABLE HOUSING PROGRAMS	Achieve an increased production of affordable housing units in updated Community Plan and neighborhood plan areas, over current production levels.	10/15/2029	6th Cycle	Continuous	Updated Community Plans establish community level affordable housing programs in Community Plan Implementation Overlays (CPIOS). Projects processed under CPIO entitlements seek incentives under these community level local programs, rather than State DB or other citywide incentives. In 2025, there were 1,486 housing units proposed for entitlement via CPIO projects, including 1,160 affordable (13 ELI, 9 VLI, 932 Low, and 206 Moderate Income Units) housing units. Over the same time period, LA City Planning approved CPIO entitlements for 4,139 housing units, including 3,804 affordable (13 ELI, 18 VLI, 3368 Low Income, and 402 Moderate Income Units). COMMUNITY LEVEL AFFORDABLE HOUSING PROGRAMS	Through annual monitoring, identify plans that are not producing the amount of anticipated units and propose amendments.	10/15/2029	6th Cycle	In Progress	City Planning is providing annual reporting on this topic via the APR, and expects to analyze outcomes in 2026. The CHIP Ordinance became effective in February 2025 (Program 121) and allows relief from community level program standards which were identified as limiting project feasibility, additionally the program offers an alternative review pathway for projects including ministerial review to encourage more unit production. Changes included directing members of the public to work with Planning Development Services Center staff to complete the form, and allowing decision makers to make the necessary findings (rather than applicants). OFFICE OF THE CITY ATTORNEY DISPUTE RESOLUTION PROGRAM (DRP)	Refer and resolve 20 housing-related disputes annually.	10/15/2029	6th Cycle	Continuous	In 2025, the Dispute Resolution Program (DRP) resolved 222 landlord-tenant disputes (covering LA County). The City Attorney's Office provides free Community Mediation and Public Safety Mediation services to residents and businesses in Los Angeles. The process is voluntary, confidential, and completely free of charge. Composed of attorneys and legal professionals with years of experience in civil and criminal law, the CLC takes preventative and proactive measures to address a variety of issues that affect neighborhoods and establishes partnerships to resolve problems that enforcement, alone, cannot adequately address. Collaborating with community members, city departments, outside government agencies and law enforcement partners, the CLC identifies and resolves challenging legal issues faced by many city neighborhoods. Additionally, this division identifies emerging concerns and works with City Hall to address them.	Units	222	https://cityattorney.lacity.gov/drp

JUST CAUSE EVICTION PROGRAM	Present a Just Cause Eviction report to the City Council by 2023 in order to stabilize neighborhoods and, prevent tenant displacement and arbitrary evictions for tenants in an estimated 220,000 non-RSO rental units.	1/7/2023	6th Cycle	Completed	As previously reported, the City's Just Cause Evictions Protections Ordinance (JCO) Ordinance No. 187737) went into effect on January 27, 2023, providing eviction protections under City law to all non-RSO residential rental units for the first time. To support ongoing costs associated with administering the ordinance, the Mayor and City Council approved an annual Just Cause Enforcement fee on January 7, 2025. TENANT ANTI-HARASSMENT	Beginning in 2021, prevent and deter harassment and constructive eviction of tenants through illegal actions by implementing the newly adopted Tenant Anti-Harassment Ordinance. Partner with community-based organizations to target outreach to areas with high displacement risk (as identified through Program 122) and in Low-Resource and High Segregation & Poverty areas.	10/15/2029	6th Cycle	In Progress	The Tenant Anti-Harassment Ordinance (TAHO) prohibits landlords from harassing tenants in order to coerce vacancies. The Ordinance identifies 17 harassment behaviors that are prohibited. When harassment complaints are filed with LAHD, a Housing Investigation & Enforcement Investigator is assigned to conduct an initial assessment of the evidence provided. If adequate evidence is submitted, the case is referred to LAHD's TAHO Task Force which carries out comprehensive investigations and enforcement of harassment violations in the City. In 2025, the TAHO Task Force grew its team with new dedicated positions. The increased staffing has accelerated the Task Force's work flow to investigate and make determinations on enforcement measures to take. LAHD's primary enforcement measure, In 2025, 57 cases were referred to the TAHO Taskforce. Of these, 21 were referred to the City Attorney, which includes 8 that were referred to the Criminal Branch and 13 for Administrative Citation Enforcement. The remaining 36 are either pending further investigation or were not found to be instances of harassment. In February 2025, the City Council adopted the Resident Protections Ordinance (RPO), a component of the City's larger rezoning program, which includes stronger penalties against bad actors when certain thresholds of harassment violations are met. If a landlord is issued three TAHO citations over a ten-year period or one citation in a designated higher displacement risk area as identified in the Displacement Assessment Risk Tool (Program 122), or suffers a final judgement in civil or criminal court for unlawful eviction, the landlord would be prohibited from applying for demolition permits anywhere in the city for five years. This required LAHD to create a citywide Anti-Harassment Violators Database. Throughout the year, the Task Force worked on developing the necessary infrastructure to establish a Database. These steps included: identifying staff needs, technology needs, updating workflow guidance, producing the documentation such as the notice of determination letter, and meeting with the appropriate City departments who will also be involved with the functioning of the database and enforcement actions. The Database is expected to launch in 2026. In April 2025, the City released a Request for Proposals (RFP) to select a legal service provider to file private right of action harassment lawsuits to expand the City's capacity to conduct TAHO enforcement. The City Attorney's Office has been the primary agency for legal referrals by the TAHO Task Force, but the addition of a legal service provider will support the growing case numbers. The TAHO Task Force will be able to make direct referrals to the legal service provider when the evidence of harassment submitted by tenants justifies possible legal action to occur due to the severity and complexity of cases. In fall 2025, LAHD selected the legal service provider and began the process to execute a new contract for the new year. The City's pathways for TAHO enforcement have continued to grow since the adoption of the ordinance in 2021. Pathways for enforcement in 2025 included the following: 1) issuance of TAHO Citations; 2) referral to the City Attorney's office for civil litigation; 3) referral to the City Attorney's office for criminal prosecution; and 4) referral to another federal, state, or local enforcement agency. The integration of the legal service provider to conduct private right of action harassment lawsuits will add a fifth pathway to the City's enforcement measures. Once the contract has been executed, the TAHO Task Force will have a new partner in protecting the City's most vulnerable renters from displacement. From January - December 2025, the LAHD received approximately 7,292 complaints alleging violations of the Tenant Anti-Harassment Ordinance (TAHO). Since the ordinance's effective date through 2025, 48 cases have been referred to the Office of the City Attorney for further review. The Resident Protections Ordinance (RPO) became effective in February 2025 and introduced three options to comply: (1) pay the local formula amount in the RPO, (2) relocate a tenant to a comparable unit with relocation payment, or (3) pursue the state formula with a consultant. EVICTION DEFENSE PROGRAM	Conduct outreach to 200,000 tenants through 'Know-Your-Rights' workshops and legal referrals each year. Provide full and limited-scope legal service to 6,000 low-income tenants per year. Prioritize outreach and service delivery in High Segregation & Poverty Areas and areas facing displacement pressure by partnering with organizations with a trusted history of serving these communities.	10/15/2029	6th Cycle	Continuous	In CY 2025, the City's Eviction Defense Program (EDP) provided eviction defense and prevention services to a significant number of Angelenos. During that time, the EDP provided legal assistance to approximately 8,714 households, including: - Full-scope legal representation for 1,912 tenants and limited-scope representation for 6,802 tenants - Emergency UD Rental Assistance to 756 applicants totaling $5,515,189 - Outreach and education reaching 99,417 total tenants - Tenant navigation services to 33,870 residents - 165 educational workshops. Additionally, since the City Council passed a suite of permanent tenant protections upon the termination of the local Emergency Declaration, the LAHD has built out several public dashboards with data collected by the Department. One of these dashboards collects all eviction "warning" notices, which is a new requirement the City imposed on landlords who intend to file a formal eviction against their tenant. Having this advanced notice that an eviction may be imminent provides the City with an opportunity to intervene. In cases where the landlord cites the reason as nonpayment of rent and the outstanding debt is under the Fair Market Rent for the unit size, LAHD informs the landlord that as of 2023 there is a threshold for nonpayment of rent that must be exceeded before such an eviction can be legal. The City is also able to monitor trends at the neighborhood and even building level and potentially compare against other data, such as TAHO complaints. In 2025, LAHD received 46,010 eviction warnings, down from the 71,552 eviction warnings in 2024. Key presentation subjects included the City's New Fee for Rental Units governed by the Just Cause for Eviction Ordinance (JCO) and the correct procedure for Filing a Notice to Terminate Tenancy with the Los Angeles Housing Department (LAHD). In a collaborative effort, the Rent division partnered with the Code and Compliance division to host targeted webinars. These included sessions like "How to Prepare for a Housing Inspection" and a JCO overview specifically for exempt units. Furthermore, the Rent division provided additional presentations to staff within the Mayoral and Council Districts.	Other	40	https://housing.lacity.gov/all-events-list

TENANT/COMMUNITY OPPORTUNITY TO PURCHASE	Report to City Council on the potential for a citiwide COPA/TOPA ordinance by 2025.	10/15/2029	6th Cycle	In Progress	As previously reported, the City began taking preliminary steps to implementing a citywide COPA/TOPA program. In August of 2024, the United to House LA (ULA) Citizens Oversight Committee passed and the City Council subsequently approved program guidelines for a capacity building program that would 1) facilitate and support tenant participation in building management; 2) provide training and resources to ensure long-term stability of non-profit and tenant-managed properties; 3) support residents and property managers in implementing and sustaining non-profit, land trust, cooperative and tenant-led management and/or ownership models; 4) facilitate equitable access to participation in ULA Production Programs. These programs will be paid for with ULA funds. To begin implementation of this capacity building program, in November of 2024, LAHD released an RFP to contract with a consultant who would provide training and capacity building for community groups and community land trusts related to tenant ownership models. In August 2025, LAHD selected Liberty Hill as its capacity-building consultant. LAHD is working with the consultant to align the scope of work and timeline with other funding efforts. For example, LAHD seeks for the contract to be coordinated with the ultimate recipients of its Homes For LA NOFA's Social Housing programs. Four programs within that NOFA, funded by the Alternative Models for Permanent Affordable Housing funds and Acquisition and Rehabilitation of Affordable Housing funds, require tenant governance, and the capacity-building contract will support tenant governance requirements through training and other resources. Once the NOFA winners are selected (by February 2026), LAHD and the consultant will launch the capacity-building resource. COMPREHENSIVE HOMELESS STRATEGY	Make adjustments or additions based on emerging challenges and opportunities. **(Part 2)**	10/15/2029	6th Cycle	Continuous	**City Attorney's Office (OCA):** The Office of the City Attorney (OCA) supports the City's comprehensive homeless strategy in the following ways: 1) OCA's Homeless Engagement and Response Team (HEART) administers the LA County Homeless Court Program. The Homeless Court helps unhoused individuals or individuals at risk of experiencing homelessness clear traffic and pedestrian tickets by engaging in services instead of paying expensive fines and fees. Below is a key data from CY 2025: - 1,287 homeless persons engaged (referrals received) - 1,848 petitions for dismissal granted - approximately $1 million in fines/fees suspended 2) In March of 2024, HEART spearheaded the official launch of Community Outreach Court (COC), in partnership with the LA Superior Court, the LA County Public Defender, the LA County Alternate Public Defender, and other community partners. In CY 2025, HEART received 133 misdemeanor referrals for COC. 3) Since launching as a pilot project in September 2023, COC has offered services, including expungements, ticket relief, warrant recall, social support and housing assistance, and has engaged approximately 800 people who are unhoused or at-risk of being unhoused. COC is the first program of its kind in the City which aims to address criminal misdemeanor matters affecting unhoused Angelenos in a community setting. The goal of COC is to help people experiencing homelessness and those at-risk of being homeless navigate the criminal court process by offering an array of legal aid services, including: - Clearing eligible bench warrants; Expunging eligible convictions; Resolving eligible misdemeanor cases and citations; Resolving outstanding fines and fees and case-related collection issues; and Connecting participants to reentry resources and job opportunities. 4) OCA continues to defend the City against lawsuits that challenge individual low barrier navigation centers, “A Bridge Home” and “Tiny Home Village” shelters, and the Office defeated legal challenges to the Mayor’s emergency declarations concerning homelessness and housing production and the City's affordable housing/homelessness emergency ordinance - which OCA is currently defending on appeal. 5) OCA participates in and provides legal advice to a number of homelessness-intervention task forces and programs, including the Mayor's Inside Safe Initiative. OCA negotiates and drafts occupancy agreements with motels to house persons experiencing homelessness, leases and subleases for the City's interim shelter programs (including "A Bridge Home" and "Tiny Home Village" sites), and provides legal advice with respect to issues that arise from the City's use of such motels. OCA also prepares environmental clearance documents for each City interim housing project, and documents every new funding commitment, lease, or lease amendment associated with these facilities. 6) Community Law Corps (CLC) assists Council Offices with tenant-related issues by making referrals to the proper agencies in concert with LAHD, DBS, and others. CLC also works with tenants who contact OCA about a wide variety of nuisance-related issues affecting their tenancy rights. OCA’s Civil Administrative Citation Enforcement (Civil ACE) team works directly with tenants facing potential displacement, assists tenants and landlords in utilizing the Office's Dispute Resolution Services, and Civil ACE works in concert with other agencies to resolve health and safety issues affecting tenants and their ability to remain safely housed. 7) OCA’s affinity groups have hosted events and activities to support the unhoused including “Women Uplifting Women” held at the Downtown Women's Center, “Food from the Bar” Volunteer day at a local food bank, and an office-wide canned & dry goods food drive. The City Attorney personally hosted “Coffee with the City Attorney” for local housing advocates to discuss ways to collaborate with the City on the creation of more affordable housing across the City. The code amendment was effective December 2025. On December 19, 2025, The Affordable Housing Streamlining Ordinance (CF 23-0623-S1) codified the main provisions of Executive Directive 1 (ED1) issued by the Mayor’s Office in 2022. DOMESTIC VIOLENCE SHELTER PROGRAM	Provide 1,500 individuals with access to public services annually.	10/15/2029	6th Cycle	Continuous	In 2025, CIFD issued a Request for Proposals (RFP) to transform the existing network of victim service providers into an expanded, integrated system known as the Survivor Services Program (SSP). Through this process, the SSP grew from 10 to 16 service providers, delivering a range of short- and long-term supports across a continuum of care. Providers ramped up programming for survivor populations between January and June 2025. Beginning July 1, 2025, providers entered their first full year of funding for these programs. Service providers report performance metrics, including the number of clients served, through CIFD's Human Services Data System. In 2025, services were provided to 1,651 individuals. PROBLEM SOLVING INTERVENTIONS	Reduce the number of people experiencing homelessness through ongoing training to frontline staff providing assistance.	10/15/2029	6th Cycle	Continuous	In 2025, the Problem-Solving Unit maintained 96 funded FTEs in agencies across the City and County of LA to implement the Problem-Solving Intervention across all three population systems for households experiencing literal homelessness, at imminent risk of homelessness, or fleeing domestic or intimate partner violence. The Unit reinforced core Problem-Solving practices through monthly trainings focused on effective Problem-Solving strategies, including reality testing, progressive engagement, mediation, negotiation, and appropriate use of Assistance Funds, with dedicated time for interactive practice. A total of 842 homeless service providers and key partner staff (Legal, Health, Justice, Faith-Based Organizations, and smaller non-profits) participated in trainings, supporting the diversion or exit of over 4,000 households from the homeless services system. The intervention remained highly cost-effective; more than half of positive housing outcomes required no financial assistance. A total of 4,406 households were diverted or exited from the homeless services system through Problem-Solving strategies. The Unit also advanced prevention efforts through continued collaboration with DPSS on the Predictive Analytics Project for CalWORKs families at risk of homelessness and sustained partnerships with the City's Family Source Centers through six co-located Problem-Solving positions. LAHSA also operates a Homeless Prevention team, supporting Homeless Prevention programs across the County. See Program 99 for more details. EMERGENCY SHELTER AND TRANSITIONAL HOUSING FACILITIES	Create 1000 permanent supportive and transitional housing units from nonresidential uses such as hotels and motels.	10/15/2029	6th Cycle	Continuous	Interim Housing provides a safe, Low-barrier, Housing First, and supportive temporary housing solution to people experiencing homelessness, while they are assessed and connected to a broad range of housing resources and in an effort to resolve their homeless situation as quickly as possible. Interim housing is a broad category that includes emergency shelter, winter shelter shelters, and transitional housing beds, units, and/or hotel/motel vouchers. While in interim housing, individuals receive a safe place to sleep 24/7, 3 meals a day, and supportive services to transition to permanent housing. FAMILY SOLUTIONS SYSTEM	Initiate seven regional Family Solution Systems throughout the Los Angeles Continuum of Care (CoC).	7/1/2024	6th Cycle	Completed	Initially, six Family Solution Centers were implemented on February 1, 2013. The Homeless Family Solution System (HFSS), the regionally coordinated system of care for families experiencing or at risk of homelessness, evolved and was integrated into the Coordinated Entry System (CES) for Families. Within this broader CES system, eight Family Solution Centers (FSCs)—one in each of the eight Service Planning Areas (SPAs) of the Los Angeles Continuum of Care (CoC)—became operational on July 1, 2024, and continue to serve as the primary access points for the CES for Families. FSCs function as the "front door" of the CES for Families. Each FSC carries out the core site-based screening, access, and referral functions for the CES for Families. These programs encompass a broad range of approaches to resolving housing crises, starting with diversionary approaches through problem-solving conversations. Beyond that, FSCs refer participants to interim and permanent housing, assist participants with achieving document readiness for housing, and refer them to mainstream benefits and supportive services that further participants' housing plans and wellbeing. FSCs provide supportive services in a Housing First, Low Barrier, and Harm Reduction approach to people experiencing homelessness. These programs operate in close collaboration with LAHSA and other CES agencies within and beyond the SPA served and for the populations served (adults, families, and/or youth). FSCs are often the first point of engagement with homeless services for a family experiencing homelessness. The goal of the FSC is to efficiently direct participants connecting with the homeless services system to the appropriate intervention. This includes the utilization of both problem-solving approaches and dedicated case management within the FSC. It also includes providing connections to vital services, including housing services in the way of prevention, interim, and permanent housing programs, and supportive service referrals for health, mental health, substance use, and mainstream benefit services, all with the ultimate goal of moving families into or toward safe and stable housing. LAHSA regularly serves at least 1,200 households (ranging from 1 to 8+ people per household) annually in problem-solving, prevention, crisis housing, housing navigation, and time-limited subsidy (rapid rehousing) programs. In recent years, Family Solution Centers were funded by State Homeless and Housing Assistance Program (HHAP) funds administered by LAHSA; however, due to delayed and reduced HHAP, an alternative funding source needs to be identified to sustain the FSCs across the CoC going forward. HOMELESSNESS PREVENTION AND RAPID RE-HOUSING PROGRAM (HPRP)	Increase the number of persons or households enrolled in RRH and those who have moved into permanent housing.	10/15/2029	6th Cycle	Continuous	The Homeless Prevention team at LAHSA consists of two coordinators that together support Homeless Prevention programs across the county for all populations. At the close of CY 2025, Homeless Prevention Programs served a total of 676 families with minor children and 924 adults. Many providers saw a high number of referrals along with rising rental arrears, while rental costs continued to increase. At the same time, funding cuts and staff shortages reduced providers' capacity, meaning they were able to serve fewer participants than before. LAHSA is working closely with prevention partners to explore strategies and identify additional resources to help continue preventing homelessness for families and individuals in our community. LAHSA remains committed to serving our unhoused neighbors through case management and rental assistance under the Time-Limited Subsidy (TLS) program, formerly known as Rapid/Recovery Rehousing. The primary goal of the TLS program is to ensure participants achieve housing stability and are able to maintain permanent housing upon transitioning out of the program. To support this goal, TLS provides tailored case management services that focus on increasing participants' income through employment assistance and connections to community benefits. Throughout the enrollment period, participants undergo routine assessments to determine their need for a higher level of care, including potential Permanent Supportive Housing (PSH) opportunities. The first PSH eligibility assessment occurs 90 days after a participant is housed. If deemed eligible, participants are matched with a PSH opportunity, ideally allowing them to remain in their current unit and avoid disruption to their established routines. Program Expansion & System Improvements In Fiscal Year 2024-2025, the TLS program continues to serve single adults, families, youth, and survivors of domestic/intimate partner violence (DV/IPV), including individuals transitioning from encampment resolution efforts. With over 7,000 program slots, TLS plays a critical role in providing stable housing solutions across Los Angeles County. To enhance accessibility, LAHSA conducted a comprehensive program analysis to identify system improvements. Currently, in the adult system, referrals to TLS come from Housing Navigation (HN) programs assigned to Interim Housing (IH) sites. However, beginning in Fiscal Year 2025-2026, LAHSA will implement a new referral pathway, allowing any participant with an approved landlord application to be referred to TLS. This adjustment enables referrals from any location within LA County that has access to the Homeless Management Information System (HMIS). By broadening the referral network, this change will expand access to rental assistance and supportive services for individuals who have secured a unit but require additional support to maintain their housing stability. Unit Acquisition Efforts Recognizing the challenges of securing appropriate housing, our Unit Acquisition (UA) team remains instrumental in expanding housing opportunities for TLS participants. The UA team continues to actively acquire viable rental units while serving as a key resource for housing navigators who work directly with participants in need of housing solutions. While housing navigators will continue to lead housing search efforts, the UA team plays a vital role in securing available units, ensuring more individuals and families can transition into stable housing efficiently. JOB TRAINING AND PLACEMENT FOR HOMELESS INDIVIDUALS	Provide educational/vocational training and employment placement/ retention services to 1000 homeless persons annually.	10/15/2029	6th Cycle	Completed	LAHSA administered and oversaw the LA County-funded Employment Services Program from January to June in the 2025 calendar year. The program was ramped down due to local funding challenges. While in operation, the program served roughly 800 households experiencing homelessness who were enrolled in programs through the Coordinated Entry System during the 2024-25 fiscal year. The majority of households served were from Time Limited Subsidy (TLS) programs, where there was an emphasis on gaining or increasing household income to support housing retention. Since the program's end, LAHSA has pivoted to strengthening employment linkage for people experiencing homelessness with Work Source Centers and employers. MISSING MIDDLE	Assess and facilitate efforts to find alternative housing solutions for senior citizens.	10/15/2029	6th Cycle	Continuous	As part of the Rezoning Program (#121), the Citywide Housing Incentive Program (CHIP) ordinance was drafted and recommended for adoption by City Council in December 2024 and became effective in February 2025. CHIP's Mixed Income Incentive Program (MIIP) introduced the Corridor Transition Area, located behind Opportunity Corridors and near jobs and transit, to incentivize lower-scale missing middle housing typologies such as courtyard apartments, bungalow courts, and townhomes through development incentives and performance-based standards, including pre-approved open space typologies and street-facing entry requirements. In late 2025, City Planning held a public meeting to kick off the Missing Middle program, which will include a number of ordinances set to be released in 2026. This program will include various code amendments to support homeownership and rental opportunities that facilitate the development of missing middle housing typologies. These amendments will include implementation of AB 1033 (CF 25-0753), to allow the sale and conveyance of Accessory Dwelling Units (ADUs), and an update to the City's Small Lot Subdivision Ordinance to align with recent state law and support the growth of townhomes and other more affordable homeownership typologies. The City's new zoning code also establishes residential infill zoning districts that allow smaller lot sizes, narrower lot widths, increased height, reduced setbacks, and row house configurations to support smaller-scale infill development in low- and medium-density areas, with initial rollout through the Harbor Community Plan (approved by City Council in September 2025, currently under legal review) and future application through the Southwest and Southeast Valley and Westside Community Plans. COORDINATED ENTRY SYSTEM (CES)	Decrease the average need and acuity level of persons or households who have obtained permanent housing (acuity score).	10/15/2029	6th Cycle	Continuous	The acuity level of households is measured by five different assessments. The assessment used for each household depends on their population (Adults, Families, Youth) and the program assessing them. For example, households already occupying a unit through a time-limited subsidy are assessed with the Housing Acuity Index (HAI), regardless of their population. However, households that are still unhoused but in a shelter or working with an outreach team are assessed with a population-specific tool: the VI-SPDAT or LA HAT for adults, VI-FSDPAT for families, or the Next Step Tool for Youth. This year, we also introduced an additional assessment tool for adults, the LA Housing Assessment Tool (LA HAT). This tool resulted from work prompted by the Ad Hoc Committee of Black People Experiencing Homelessness and research conducted by the CES Triage Tool Research and Refinement group led by USC. It is important to note that the scoring ranges for each tool are different, as are the thresholds needed to be considered for Permanent Supportive Housing (PSH). The threshold score needed to be considered for PSH can be found in the CES PSH Prioritization and Matching Guidance here: https://www.lahsa.org/documents?id=7658-ces-psh-prioritization-and-matching-guidance-approved-10-25-23-. Households may be assessed using multiple tools at different times in their journey; therefore, the scores below can include multiple assessments per household. Of those who moved into housing in 2025, the average acuity by assessment type was: - LA Housing Assessment Tool for Adults: 14 - VI-SPDAT for Adults: 11 - VI-FSDPAT for Families: 11 - Next Step Tool for Youth: 10 - Housing Acuity Index: There are three separate scoring areas within this tool, with each area's score being considered independently as an indication of PSH need. The average in each sub-area is: -- Housing Area: 11 -- Resources Area: 28 -- Parenting & Child Services Area: 11.5	Other	1	https://www.lahsa.org/documents?id=7658-ces-psh-prioritization-and-matching-guidance-approved-10-25-23-.
COORDINATED ENTRY SYSTEM (CES)	Decrease the average length of time from housing match to actual housing move-in (days). Increase the number of households matched to permanent supportive housing resources through CES.	10/15/2029	6th Cycle	Continuous	In 2025, 5,981 households were matched, or invited to apply, to permanent supportive housing (PSH) supported by the Housing Authority of the City of Los Angeles (HACLA). In the same time period, 2,948 households moved into PSH with HACLA. Of those matched, 5,367 households were invited to apply to Site-Based PSH, with 2,507 households moving into those resources. Those who moved in took, on average, 151 days to move into the resource from the time they were matched. It is important to note that for new buildings, matching begins roughly 60 days before a unit can be occupied. This is an increase from 2024, when matching started 30 days before a building could be occupied. This timeline was increased to support property management and housing authorities in their application review timeline. Of those matched, 614 households were invited to apply to Tenant-Based PSH, with 441 households moving into those resources in 2025. Those who moved in took, on average, 370 days to move into the resource from the time they were matched. This is a much longer period of time than for Site-Based PSH because Tenant-Based PSH provides the household with a voucher and then the household, along with their case manager, must identify an appropriate unit where the voucher can be used. This housing search process can be lengthy given the low vacancy rates of affordable housing in Los Angeles. ACCESS NEW RESOURCES AND SERVICES FOR THE HOMELESS	Regular reports on financial management.	10/15/2029	6th Cycle	Continuous	In FY24-25, the LAHSA Grants Management & Compliance Department (GMC) continued to demonstrate a commitment to improving program outcomes by strengthening provider oversight and building departmental capacity. This is driven by an active contract management approach with a focus on continuous review of service provider performance to identify challenges and implement real-time solutions. Regular provider engagement meetings further support this effort by facilitating discussions on program successes and barriers, and by collaboratively developing strategies to improve participant outcomes. The department also maintains robust monitoring practices to ensure compliance with program and funder requirements, utilizing multiple oversight methods, including regular onsite visits. In addition, in FY24-25, GMC, in conjunction with the Data team, worked to enhance LAHSA KPI and fiscal dashboards, making them more robust and improving analytical capabilities, thereby increasing the quality, accuracy, and usefulness of information available to both LAHSA and service providers. These dashboards and datasets were also shared in real time with stakeholders and the public. Furthermore, LAHSA prioritizes continuous training and professional development for both staff and providers. Throughout FY 24–25, GMC implemented a series of targeted training sessions focused on strengthening the capacity of the team to use the fiscal and KPI dashboards to effectively manage their portfolio. LAHSA also conducted monthly provider training sessions covering a range of topics related to compliance and program administration. Collectively, these efforts promote accountability, support continuous improvement, and lead to better outcomes for our unhoused population.	Other	1	Internally Tracked
ACCESS NEW RESOURCES AND SERVICES FOR THE HOMELESS	Regular reports on contract management and program implementation	10/15/2029	6th Cycle	Continuous	To enhance accessibility, LAHSA conducted a comprehensive program analysis to identify system improvements. Currently, in the adult system, referrals to TLS come from Housing Navigation (HN) programs assigned to Interim Housing (IH) sites. However, beginning in Fiscal Year 25-26, LAHSA will implement a new referral pathway, allowing any participant with an approved landlord application to be referred to TLS. This adjustment enables referrals from any location within LA County that has access to the Homeless Management Information System (HMIS). By broadening the referral network, this change will expand access to rental assistance and supportive services for individuals who have secured a unit but require additional support to maintain their housing stability. HC 25 was completed in February 2025 due to a 30-day postponement due to the California wildfires. There were over 5,400 volunteers who registered to Count throughout the Los Angeles Continuum of Care. On March 20, LAHSA released raw preliminary results of the Unsheltered Count. HOMELESS MANAGEMENT INFORMATION SYSTEMS (HMIS) DATA COLLECTION	The standard performance target for Emergency Shelter sites is the maintenance of an average bed utilization rate of 95%.	10/15/2029	6th Cycle	Continuous	In calendar year 2025, LAHSA developed and instituted a Bed Inventory system to be able to accurately track in real time the utilization of shelter beds. In rolling out the system, LAHSA implemented a centralized matching process for shelter beds to ensure that beds were filled as quickly as possible from people in the areas near the shelter who have expressed interest in accessing a bed at that particular facility. This ensures that programs have participants queued up for intakes as soon as beds become vacant. This system has inceased visibility and resulted in documented improvements in utilization of 95% or greater across those beds to which LAHSA matches. Within the City of LA, the average bed utilization rate is 80% across all city IH programs including those to which LAHSA does not match. ZONING AND DEVELOPMENT STANDARDS FOR HOMELESS HOUSING	Adopt amendment to zoning code to facilitate by-right siting of shelter and transitional housing facilities by 2025.	10/15/2029	6th Cycle	Continuous	Consistent with Government Code Sec. 8698.4, during a locally declared shelter crisis, providers can establish shelters on city owned land in any zone through a streamlined approval process. These standards are codified in the LAMC in Sec. 12.80 and 12.81. The City Council has renewed the City's declared shelter crisis annually since it was first enacted in 2018 (CF 15-1138-S33). In 2025, the City Council approved a code amendment that harmonizes the local Emergency Shelter code sections with the definition of Homeless Shelter found in state law (CF 24-1587). The code amendment became effective December 2025. This code amendment further supports the by-right development of shelters and is consistent with the City's longstanding policy to rely on Section 8698.4 as broadly as possible to serve persons experiencing homelessness. RHNA RE-ZONING	Citywide Rezoning to meet RHNA Targets by 2024.	10/15/2029	6th Cycle	Completed	The City's RHNA allocation required the City to create 456,643 housing units, including 184,721 units at lower income levels. The Housing Element identified a shortfall of 255,432 units. The CHIP Ordinance combined with the Hollywood and Downtown Community Plan Updates generated 563,594 units of total added capacity including 97,938 Very Low Income units, 97,938 Low Income units and 118,039 Moderate Income units (see Table C of this report). The capacity generated by the Rezoning program exceeds the city's rezoning need. In a June 18, 2025 letter HCD found the rezoning program and Housing Element to be in substantial compliance with State Housing Element Law. On February 11, 2025 three ordinances composing the Citywide Rezoning Program became effective. The program consists of the Citywide Housing Incentive Program (CHIP), Housing Element Sites and Minimum Density (HESMD) and Resident Protections Ordinance (RPO). As previously reported in 2024, the Downtown Los Angeles Community Plan (adopted December 2024 and effective January 2025), the Slauson Transit Neighborhood Plan (effective August 2024), and the Hollywood Community Plan (adopted December 2024 and effective February 2025) were completed by the City's February 11, 2025 deadline to complete its rezoning for its RHNA shortfall. HCD sent a letter on June 18, 2025 confirming the City's rezoning met its shortfall. Notwithstanding that the City met its rezoning shortfall and the Objective of Program 121 and has completed that action, the Program also includes ongoing actions to be undertaken throughout the 2029 plan horizon. As specifically included in the Program, it includes anticipated updates to more than a dozen Community Plans and specific plans. Some of those are under legal review prior to effectuation, including the Harbor Community Plan Updates (approved September 2025) the Cornfield Arroyo Seco Specific Plan Amendment (approved October 2024) and the Boyle Heights Community Plan (approved September 2024), while others have been initiated and environmental preparation is underway, including the Southwest Valley community plans and the Orange Line Transit Neighborhood Plan. On December 10th, 2025 the Citywide Adaptive Reuse Program was adopted, and became effective on February 1, 2026. ANTI-DISPLACEMENT STRATEGIES	Identify areas facing displacement to better target tenants' rights outreach and education efforts, affordable housing preservation, and affordable housing subsidy programs.	10/15/2029	6th Cycle	Continuous	The City developed the Displacement Assessment Risk Tool (DART) in 2024, and continues to refine it. The analytical mapping tool is used to identify areas most at risk based on a range of metrics including, but not limited to: household demographics, tenant complaints, eviction warning notices filed, code violations, recent ownership change, and zoning capacity for parcels. Three primary parcel-level indices were formulated: renter threat, habitability severity, and redevelopment potential. In addition, DART allows the analysis to scale up to higher geographies such as census tracts, neighborhods, zip codes, community plan areas, and council districts.	Other	1	The City's Displacement Assessment Risk Tool (DART) is maintained internally by LAHD
ANTI-DISPLACEMENT STRATEGIES	Incorporate findings into existing tenant rights' and affordable housing programs by 2023.	10/15/2029	6th Cycle	In Progress	The Resident Protections Ordinance (RPO) (effective 2/11/25) established consequences for chronic tenant harassment, with harsher penalties for areas with a high-risk of displacement as determined by the City's Displacement Assessment Risk Tool (DART). The Los Angeles Housing Department (LAHD) started to use the DART in conjunction with the City's Tenant Anti-Harassment Ordinance (TAHO) enforcement procedures. Tenant complaints that allege harassment are referred to LAHD's TAHO Task Force. As part of the Task Force's investigation, it uses DART to assess the displacement risk level at the relevant address. When the Task Force determines that a property owner has violatied harassment laws, it can issue TAHO Citations that carry financial penalties. Because of the RPO, when certain thresholds for harassment are met (such as three citations within 10 years), owners are placed into the newly created Violators Database. Owners, including all beneficial owners of the property, are prohibited from getting demolition permits on properties within the City for five years. If the property is located in an at-risk zone as determined by DART, only one TAHO Citation at the property means the owner will be added to the Violators Database. LAHD worked throughout the calendar year to develop the necessary infrastructure to operationalize the Violators Database so it will become effective in 2026. The RPO also codified replacement requirements and occupant protections beyond state law, including requiring 1:1 replacement for units subject to the Citys' Rent Stabilization Ordinance (RSO), as contemplated in Program 29. The RPO also prioritizes deeper affordability levels, specifically Extremely Low and Acutely Low income when units are replaced. Additionally, tenants exercising the Right to Return are afforded a Comparable Unit, which has the same number of bedrooms (up to 3 bedrooms) and the same number of bathrooms. The affordability of the replacement unit is also set at either their prior rental rate or at an affordable rent, whichever is lower. In addition to the Right to Return, the RPO also codified the Right to Remain, the Right Return if Demolition Does Not Proceed, and the Right to Relocation. These repalcement policies along with strengthend tenant Protections are designed to reduce displacement and reduce the impact of new development on residents. In 2025, EDP hosted 165 educational workshops, provided navigation services for 33,870 residents, and eviction and defense services for 8,714 households at risk of eviction. Based on data analyzed by the Housing Department, 93% of households that received legal representation had a favorable outcome - including 56% of households that were able to stay in their homes and 38% of households that received a soft landing and avoided homelessness Updating the Rent Stabilization Ordinance (RSO) allowable rent increase formula for the first time since 1985. City Council took action to prohibit rent increases beyond 4%, even in high inflationary times, which will help stabilize tenants who would have otherwise faced rent increases of up to 8%. The RSO regulates approximately 651,000 rental units in Los Angeles, representing nearly 74% of the City's multi-family housing stock (Program 32) Within the first ten months of the Citywide Housing Incentive Program (CHIP), approximately 223 project applications, proposing 26,872 units, were proposed. Of the total proposed units, 59% are proposed in Higher Opportunity Areas and 37% would be set aside as covenanted affordable. The CHIP is a core component of the Citywide Rezoning Program (Program 121), which includes the Resident Protections Ordinance (RPO) and Housing Element Sites and Minimum Density Ordinance (HESMDO) which all went into effect February 11, 2025. The Adaptive Reuse ordinance was also adopted by City Council in December 2025, and became effective in February 2026 after legal review. TRANSIT ORIENTED COMMUNITIES	Provide incentives to encourage transit oriented, mixed-income development to permit 5000 above market and 1,750 covenanted lower income (ELI, VLI, LI) units annually	10/15/2029	6th Cycle	Continuous	In 2025, the Planning Department approved 42 Transit Oriented Communities (TOC) cases, consisting of 1,474 total units. These included 1,195 market rate units, 150 Low Income, 53 Very Low Income, and 76 Extremely Low Income units. As part of the Rezoning Program (#121), the Citywide Housing Incentive Program (CHIP) Ordinance was adopted by City Council and effective on February 11, 2025. The CHIP subprogram, the Mixed Income Incentive Program (MIIP), introduced new incentives for sites near transit through the Transit Oriented Incentive Areas (TOIA). Developed based off the transit critera described in the existing TOC program, which is set to expire in 2026, the TOIA incentives are scaled based on proximity to Major Transit Stops and offer density bonuses starting at 100%. Since February 2025, the Planning Department approved 24 TOIA cases, consisting of 2,771 total units. These included 36 Very Low Income, 31 Low Income, and 236 Extremely Low Income units. INCLUSIONARY ZONING FEASIBILITY STUDY	Conduct a feasibility study for inclusionary zoning in 2021-22.	10/15/2029	6th Cycle	In Progress	LAHD and LACP completed the first phase of study for a potential citywide inclusionary zoning policy, releasing a report which was heard by council in June 2023. Phase 2 of the inclusionary study, which the City has contracted AECOM to conduct, is anticipated to be initiated once the impact of the recently adopted affordable housing incentive programs (CHIP) can be assessed. INCLUSIONARY ZONING FEASIBILITY STUDY	Develop policy recommendations on inclusionary zoning in 2022.	10/15/2029	6th Cycle	In Progress	The Citywide Housing Incentive Program (CHIP) became effective February 11, 2025. A citywide inclusionary study will be initiated when the effectiveness of the CHIP program can reasonably be assessed. In 2025, the City has continued work that would contribute to a future Inclusionary Zoning policy via its work on Program 10 - Affordable Housing Linkage Fee. Initiated in 2022, updates to the Affordable Housing Linkage Fee Market Area maps have been completed as part of the Affordable Housing Linkage Fee 5-Year Map Update. Once adopted, it is anticipated these maps would be used to inform any future citywide inclusionary requirement. In addition, two Community Plan Updates (Downtown, effective in 2025 and Boyle Heights, adopted in 2025 and pending legal review) both include inclusionary housing requirements that apply to certain housing developments, in addition to the incentive-based affordable houing systems in the plans. NEIGHBORHOOD SUSTAINABILITY & EQUITY	Provide new solar roofs and energy efficiency retrofits to income qualifying households in the Watts neighborhood.	10/15/2029	6th Cycle	Continuous	HACLA Clean Energy Projects: San Fernando Gardens "Smart Climate Solutions": HACLA recently celebrated the completion of a Resiliency Center at San Fernando Gardens featuring a dedicated backup solar energy system. The Center provides a cooled safe haven for residents during extreme heat events and grid. Additionally, HACLA installed 448 energy-efficient air conditioning units, ceiling fans, and "cool roofs" to improve indoor air quality and temperature control. See this great work here. Air conditioners have also been installed at Pico Gardens and are in progress at Nickerson Gardens. The Watts Rising Transformation: Through a $33 million investment from the California Strategic Growth Council, the Watts Rising Collaborative is establishing Watts as a a global model for urban sustainability. Key highlights includes the Solar Watts project, which has equipped over 50 homes with solar power, and the successful electrification of the Watts DASH bus fleet. Electric Mobility: HACLA has expanded affordable, zero-emission transportation through EV car-sharing programs at Rancho San Pedro, Pico Gardens, and for Section 8 FSS residents citywide. Furthermore, low- to no-cost Electric Bicycle Lending Program at Rancho San Pedro and Nickerson Gardens reduce air pollution while providing residents with mobility. Infrastructure for a Sustainable Future: Major developments at Jordan Downs and One San Pedro redevelopment are setting new benchmarks for public housing. Jordan Downs is the City's second LEED Neighborhood Development and is building to LEED Platinum while One San Pedro will meet LEED Gold requirements. Combined, these sites will feature thousands of units with 100% building electrification, solar-ready roofs and widespread EV charging infrastructure to support a permanent carbon-free lifestyle. Portfolio-Wide Efficiency: HACLA's city-wide retrofit campaign has already reduced water consumption by 27% through LED lighting and high-efficiency fixtures. HACLA's Toilet Sensor Project, which uses real-time monitoring to detect leaks and trigger maintenance alerts, recently won the Advancing Water Efficiency in Affordable Housing award at the 21st Annual Green Gala & California Green Building Awards. LIVABLE COMMUNITIES INITIATIVE	Secure funding to identify opportunities.	12/31/2025	6th Cycle	In Progress	In 2025, City Planning secured REAP 2.0 SRP grant funding through SCAG to conduct a nexus study analyzing the nexus and proportionality for public right-of-way improvements that could be required of private development projects. Work on the nexus study began in fall 2025. The existing "highway dedication and improvement" section of the zoning code contains requirements that may burden housing development without providing high-priority public right-of-way improvements. The nexus study will inform a future update of the zoning code, which is intended to right-size requirements and set clear expectations, with the goal of streamlining housing development and prioritizing a high-quality pedestrian realm that supports active transportation, particularly in densifying neighborhoods. Although this work does not incorporate all aspects of the proposed Livable Communities Initiative program, its objectives -- of planning for housing, mobility, and sustainability improvements together -- are aligned. The report outlined proposed program components and resource needs, and was approved by the Housing and Homelessness Committe in August of 2024 and has been referred to other committees including PLUM, Transportation Committee, Budget, Finance and Innovation, and Economic Development and Jobs. FORECLOSURE REGISTRY	Maintain a database of contact information of all residential properties within the City of Los Angeles that are subject to Ordinance No. 183, 281 (Amended 2014).	10/15/2029	6th Cycle	Continuous	In 2025, 2700 new Notices of Default (NOD), i.e. initial foreclosure filings, were recorded in the City of Los Angeles, a 10% decrease from 2024 recordings. However, a total of 3,769 properties were registered with the LAHD Foreclosure Registry, representing an increase of 2.2% over 2024 registrations (3687). This was a result of increased outreach, a greater focus on getting REOs (foreclosures) registered in addition to initial filings (NODs), and also included prior-recorded still active NODs and REOs that re-registered, pursuant to the Foreclosure Registry Ordinance	Other	3,769	https://housing.lacity.gov/partners/foreclosure-registry-program https://cityclerk.lacity.org/onlinedocs/2012/12-0647-s6_ord_183281.pdf
MOBILITY IMPROVEMENTS IN LOWER-INCOME AREAS	Have at least 75% of existing transportation investments (through Vision Zero, Great Streets, Active Transportation, Stress Free Connections, Safe Routes to Schools, Safe Routes for Seniors, and AHSC Programs) serve Mobility Equity Zones through 2030.	10/15/2029	6th Cycle	Continuous	As of 2025, 72 of 83 (86%) capital transportation projects led by LADOT were at least partially located within neighborhoods in the top two quintiles of the Transportation Equity Index. In 2025, LADOT strengthened its equity framework to better align transportation investments with Mobility Equity Zones. Building on the city-adopted Community Health and Equity (CHE) Index, LADOT developed the Mobility Action Plan (MAP) Transportation Equity Index by adding transportation-specific indicators such as car-light households, transportation cost burden, and transit job access. This index will guide the city's five-year transportation short-range plan under MAP and is already informing investment alignment. LADOT also advanced equity-driven delivery through reforms to the Residential Speed Hump Program. In November 2025, City Council approved a shift from a request-based application process to a safety- and equity-focused prioritization methodology. As a result, 100 percent of 2025 program locations were at least partially located within areas in the top two quintiles of the Transportation Equity Index. MOBILITY IMPROVEMENTS IN LOWER-INCOME AREAS	Collaborate with community-based organizations to provide culturally relevant constituent engagement for major transportation investments.	10/15/2029	6th Cycle	Continuous	LADOT adheres to a robust community engagement framework for major transportation investment projects; adopted by Council in 2024 (outlined here: https://cityclerk.lacity.org/onlinedocs/2024/24-0173_misc_11-14-24.pdf). Culturally responsive engagement is a central piece of this engagement strategy (LADOT's Community-First Engagement model), specifically partnerships with community members and CBOs. In 2025, LADOT partnered with CBO's across 8 major capital projects to ensure that project content was accessible and culturally relevant to community members across Los Angeles. In addition to CBO partnerships, in 2025 LADOT also established a community ambassador pilot program. Ambassadors are recruited to support engagement efforts in their neighborhoods and typically reside and have long-term relationships with other community members and groups. One example is the Mobility Action Plan (MAP), a citywide planning effort currently being developed that will guide how the City prioritizes and delivers major transportation investments through a five-year short-range plan. Engagement is a core part of developing the MAP. In 2025, LADOT established a 15-member Community Advisory Board composed of residents from equity priority areas and priority populations to provide early and ongoing input on plan priorities. Based on this input, LADOT then partnered with five CBOs and deployed street ambassadors and a street team to conduct in-person outreach in equity priority areas, bringing the MAP engagement process directly into communities most impacted by transportation decisions. After community votes held in 2023 and 2024, LA Civil Rights awarded contracts to four community-based nonprofits (grantees) in its first cohort in 2025. Cohort I programming is still in progress, and two of the four grantees are combating housing insecurity and homelessness in the Boyle Heights REPAIR Zone: East LA Community Corporation (ELACC) and Proyecto Pastoral at Dolores Mission (Proyecto Pastoral). LA Civil Rights administers contracts for these organizations, which total $775,000, and measures ELACC's provision of rental housing counseling paired with direct cash assistance for up to 100 low-income residents, as well as rental aid to approximately 70 families provided by Proyecto Pastoral, preventing displacement. Following the City's 2024 authorization of L.A. Please update the status of the proposed uses listed in the entity's application for funding and the corresponding impact on housing within the region or jurisdiction, as applicable, categorized based on the eligible uses specified in Section 50515.02 or 50515.03, as applicable.

Total Award Amount	$1,500,000.00	*Total award amount is auto-populated based on amounts entered in rows 15-26.*

Task	$ Amount Awarded	$ Cumulative Reimbursement Requested	Task Status	Other Funding	Notes
Housing Element Staffing, Outreach, and Resources	$700,000.00	$653,336.22	Completed	None	The Los Angeles Housing Department (LAHD) increased its capacity with additional staff to support the completion of the 2021-2029 Housing Element and the implementation of its programs. Support in the implementation of Housing Element Programs included, but not limited to: Program #21 - RHNA Re-Zoning, Program #86 - Tenant Anti-Harassment, Program #122 Anti-Displacement Strategies, Program #16 New Models for Affordable Housing, Program #22 - Systematic Code Enforcement Program (SCEP), and Program #38 Rent Escrow Account Program (REAP).
New Housing Development Software System	$550,000.00	$497,335.50	Completed	Other	LAHD created a new Prevailing Wage Compliance Package System to automate the previously laborious, manual compliance approval process for affordable housing construction that resulted in an increase in productivity. The transition from paper-based processes to digital workflows reduced the stress of managing stacks of paperwork, resulting in cleaner and a more organized workspace for staff. Furthermore, developers benefit rom the streamlined approach by experiencing quicker project completions and improved communication. This was especially vital in response to the Mayor's Executive Directive Number 1 (ED 1), 'Expedition of Permits and Clearance for Temporary Shelters and Affordable Housing Types,' issued in December 2022. The goal of ED 1 is to expedite the process for building affordable housing to rapidly address the homleesness and housing affordability crisis in the city. Specifically, ED 1 directed LAHD to "track, and process all affordable housing projects and expedite payments thereon."
Public Land Development Program	$250,000.00	$209,324.88	Completed	None	LAHD sought to support the development of affordable housing on the city's public land by streamlining entitlements and expanding opportunity sites. After a preliminary inventory and analysis was conducted, the results showed that no city-owned parcels would be suitable and feasible during the LEAP grant program timeline. An opportunity later arose to conduct a geotechnical study for a potential suitable city-owned parcel in the neigborhood of Hollywood. Unfortunately, the results were inconlusive and the site could not be recommended for affordable housing development. Program Activity #3 was the most challenging for the city to complete due to the lack of suitable city-owned land.
