**Council File No:** 22-0560

**Comments for Public Posting:** The city has been plagued with scandal after scandal. I support the long overdue changes to the municipal lobbying ordinance. I also support the Raman Amendment, which addresses a number of deficiencies in the original transmission from the ethics commission. Our city is owed this change. Please vote yes.

## Communication from Public

**Comments for Public Posting:** I am a board member of the Tarzana Neighborhood Council, in addition to being a board member of the Neighborhood Council Sustainability Alliance. It is imperative that we support the Municipal Lobbying Ordinance Reforms including the Raman amendment. The public deserves transparency and deserves to know if a lobbyist is speaking before a neighborhood council, commission, or city council. 45 Neighborhood Councils have passed statements of support with at least one neighborhood council in each council district supporting. BONC, LANCC, and the Neighborhood Council Budget Advocates have all supported these reforms. With this much community support, there is a consensus, a mandate to pass strong lobbying reforms that protect our special city from the undue influence that has plagued our City Hall officials for far too long. We are volunteers with great passion to mobilize effective and moral leadership that can meet this adaptive challenge by passing the Raman amendment.
