Comments for Public Posting: Tonight at Vanc, I learned about the proposed changes to the MLO. As a long time member of the neighborhood council system, I cannot believe that Council President Krekorian has chosen to respond to the many neighborhood councils, including those in his own district, by creating a ordinance that is worse from what we already have. Hasn't the city been through enough? You can't simply believe we will swallow this tale that is somehow better or morally right? Why in these troubled times when the city's disgrace is still upon us do you seek to exempt lobbyists (and they ARE lobbyists, Paul!) from the municipal lobbying law? How do you expect the city to be better when you are directly contributing to the dreck before us. How long before these changes erupt in scandal. Mr. Krekorian I had respected you as a thoughtful leader, but this shows you belong in history with the likes of Huizar and Martinez if you continue this foolish plan. It's not too late to change course. I hope you do so.
