

Communication from Public

Name: Climate Reality Project, San Fernando Valley
Date Submitted: 06/29/2022 12:05 PM
Council File No: 22-0600-S20
Comments for Public Posting: The Climate Reality Project, San Fernando Valley Chapter would like to express strong support for both 22-0060-S20 and 22-0060-S61. The use of goats for vegetation management is effective and efficient. Not only does it mitigate fire risks and control invasive species, but it eliminates the use of gas-powered machinery for brush and weed control. Please move these council files as expeditiously as possible.
