Comments for Public Posting: Dear Los Angeles City Council: In regards to Abortion access for out-of-state women who seek Abortion Care Services in our state and city. This is a complicated and controversial issue for many people. Personally, I don't believe that our tax dollars should be used for the purposes of seeking abortion with the exception of cases involving rape or incest. I would like for the city council to think about this before voting on this motion without public input being considered. - Thank you, Lionel Mares.

Comments for Public Posting: This is wrong. Even if someone agrees with abortion it's clear that this policy would encourage people to leave their communities to not only access abortion but also profit from the action of illegal and unsafe abortions. This means that the issue of human trafficking for the purpose of abortion, forced abortion, and unsafe abortion would all be crimes where city laws are unenforceable. This is not only an moral issue but also a legal issue. Not all abortions are equal. The issue of removing deterrence for abuse and criminal abortions is very dangerous. Please vote NO and hold whoever accountable for trying to bring about loopholes for criminals and traffickers to seek haven in LA.
