DISCUSSION

The LAPD is seeking retroactive approval to apply for and accept an \$885,000 grant award for the 2022-23 CTFGP Law Enforcement Grant from the CHP for the period of July 1, 2022 through June 30, 2023.

The CHP's CTFGP supports the education, prevention, and enforcement of laws related to driving under the influence of alcohol and other drugs, including cannabis. For 2022-23, the CHP has extended the funding opportunity to law enforcement agencies to educate the public regarding the dangers of impaired driving, enforce impaired driving laws on the roadway, improve agency's effectiveness through training, and develop new strategies. The grant opportunity focuses on public education and outreach, Driving Under the Influence (DUI)/Driving Under the Influence of Drugs (DUID) enforcement efforts, and officer training focused on detecting and removing impaired drivers from the roadway.

The LAPD Traffic Group was awarded \$885,000 to implement the DUI Apprehension Program, which will primarily focus on DUID enforcement efforts and training that assists officers in detecting and removing impaired drivers from the roadway. The program objectives will be met by increasing officer training, modernizing equipment, augmenting enforcement operations, and conducting business community outreach. The grant funds will be used to provide officer training in the following courses: Impaired Driver Apprehension Program; Advanced Roadside Impaired Driving Enforcement; and Drug Recognition Expert (DRE) Certification courses. The training courses will be conducted by current LAPD officers on an overtime basis. The grant will also fund two DRE trailers and two trucks, as well as a bathroom trailer that will be used during DUI/DUID investigations and DRE task forces.

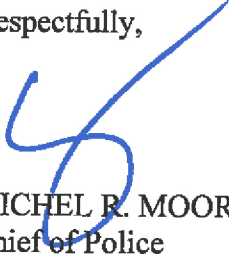

Under the grant agreement, the State will reimburse the City for expenses incurred as follows:

Expense Category	Amount
Sworn Overtime	\$ 497,925
Civilian Overtime	7,200
Travel	12,000
Equipment	337,875
Contracts/Consultants	30,000
Total	\$ 885,000

A Professional Services Agreement will be executed with a phlebotomy service provider to draw and collect blood samples from individuals arrested during DRE certification and enforcement task forces within the grant performance period, for an amount not to exceed \$30,000. The Department will select the vendor using a competitive bid process.

If you have any questions regarding this transmittal, please contact Senior Management Analyst Stella Larracas, Officer in Charge, Grants Section, at (213) 486-0380.

Respectfully,

Project Description

The Los Angeles Police Department's (LAPD or Department) Traffic Group (TRFG) Driving Under the Influence (DUI) Apprehension Program will primarily focus on providing training to personnel to improve the quality of DUI and Driving under the influence of Drugs (DUID) investigations. Furthermore, the Department will conduct high visibility task forces staffed by officers trained as Drug Recognition Experts (DREs) who will saturate an area of the City on identified dates (i.e., April 20th, commonly referred to as 420) and at events prone to the use of cannabis. The task forces will be prefaced by business outreach, wherein officers will provide education to cannabis dispensaries. Finally, the program will fund a 3D Scanner to assist with the most serious and intricate DUI-related traffic crashes.

Problem Statement

The City of Los Angeles (City) has a population of approximately four million community members and covers 468 square miles. Within the City, there are approximately 7,500 miles of street, 10,750 miles of sidewalks, and 40,000 intersections.

INCREASED DUI-RELATED FATAL TRAFFIC COLLISIONS.

As the City continues to address substantial societal issues, such as the ongoing pandemic and the role of policing within the communities of the City, the LAPD remains dedicated and focused on addressing traffic enforcement and traffic safety through a data-driven approach.

In 2019, the Department established the Community Online Reporting Service (CORS) to offer community members the ability to report minor crashes online as opposed to reporting a crash in person or telephonically. Many of the incidents reportable on CORS are often reported for insurance purposes and the initial criteria was limited to hit and run traffic crashes with no follow-up investigations. In January 2021, the Department expanded the CORS criteria to include the following types of traffic crashes:

- Minor Damage
- Visible Injury
- Complained of Pain Injury
- Hit and Run Misdemeanor

It should be noted that traffic crash reports submitted through CORS are not entered into the Computer Aided Mapping System (CAMS), which captures all traffic crash statistical information investigated by Department personnel. Only statistical data from CAMS is submitted to Statewide Integrated Traffic Records System. Consequently, there has been a significant decrease in the number of injury-related crashes because visible and complained of injury crashes are no longer entered into CAMS.

As pandemic preventive measures were slowly lifted throughout 2021, community members returned to work and school and began resuming their daily routine. As a result, traffic congestion has increased followed by an increase in the following crash categories (See Attached Table 1: 2019-2021. Types of Traffic Crashes):

- Fatal traffic crashes increased 26% from 233 in 2020 to 294 in 2021;
- Severe injury traffic crashes increased 30% from 1,140 in 2020 to 1,479 in 2021;
- DUI-related fatal traffic crashes increased 13% from 16 in 2020 to 18 in 2021;

Schedule A

- DUI-related severe injury traffic crashes increased 31% from 51 in 2020 to 67 in 2021;
- DUI-related all injury traffic crashes increased 61% from 509 in 2020 to 818 in 2021;
- Hit and Run fatal traffic crashes increased 45% from 51 in 2020 to 74 in 2021;
- Hit and Run severe injury traffic crashes increased 24% from 241 in 2020 to 299 in 2021;
- Hit and Run all injury traffic crashes increased 56% from 4,173 in 2020 to 6,529 in 2021;
- Nighttime fatal traffic crashes increased 5% from 101 in 2020 to 106 in 2021; and,
- Nighttime severe injury traffic crashes increased 26% from 297 in 2020 to 374 in 2021.

In 2019, 16 percent of drivers arrested for driving under the influence were for DUID and 84 percent for DUI. In 2021, 26 percent of drivers arrested for driving under the influence were for DUID and 74 percent for DUI (See Attached Table 2: 2019 – 2020. Types of DUI Arrest).

An analysis of arrests made at DUI checkpoints is another indicator of the increased number of DUID offenders on the roadways in the City (See Attached Table 3: 2019-2021. Types of DUI Arrest at DUI Checkpoints). In 2019, only 42 percent of those arrested at DUI checkpoints were for drugs or a combination of alcohol and drugs, and 58 percent were strictly for alcohol. By 2021, the percentage of arrests for drugs or a combination of alcohol and drugs had increased to 45 percent, while alcohol arrests decreased to 55 percent.

INSUFFICIENT NUMBER OF DRE-RELATED TRAINED OFFICERS.

Although the Department has made progress over the past three years in providing SFST, ARIDE and DRE training, the total number of personnel trained is still lacking. In the 2014 California's Strategic Highway Safety Plan, the California Highway Patrol (CHP) recommended that law enforcement agencies within California maintain the following training standard for traffic and patrol officers to have a meaningful impact with DUI enforcement efforts:

- SFST Recommendation: 100 percent of officers trained in SFST.

Current Status: Although every Department officer receives abbreviated (less than eight hours) training in SFST at the Police Academy, only 847 (17.6%) of the 4,825 traffic and patrol officers have attended the 24-hour SFST training.

- ARIDE Recommendation: 50 percent of traffic and patrol officers trained in ARIDE.

Current Status: 1,380 (28.6%) of the 4,825 traffic and patrol officers have received ARIDE training.

- DRE Recommendation: 10 percent of traffic and patrol officers trained in DRE

Current Status: 298 (6.2%) of the 4,825 traffic and patrol officers have received DRE training.

Proposed Solutions

The Department is proposing to meet or exceed the grant program goals by increasing officer training, modernizing equipment and increasing enforcement operations on dates and at locations where driving under the influence of drugs will be prevalent.

Officer Training

The Department is fortunate to have the capability to provide all DRE-related training internally. The Department currently has 22 SFST/DRE Instructors who will provide the following training:

Schedule A

Impaired Driver Apprehension Program Course

The Department will present seven IDAP Courses. Four will be funded by the Department and three will be grant-funded. Grant funding will be used to hire the instructors on a cash overtime basis to present the courses. At no time will the students be on an overtime basis. The IDAP Course combines the 24-hour SFST curriculum with the 16-hour ARIDE curriculum. A total of 140 officers will receive SFST training.

Advanced Roadside Impaired Driving Enforcement Course

The Department will present four ARIDE Courses. Two will be funded by the Department and two will be funded by the grant. Grant funding will be used to hire the instructors on a cash overtime basis to present the courses. At no time will the students be on an overtime basis. A total of 220 officers will receive ARIDE training. 140 officers will receive the training through IDAP and 80 through the standalone ARIDE course.

Drug Recognition Expert Course

The Department will present four DRE Courses. Two will be funded by the Department and two will be grant-funded. Grant funding will be used to hire the instructors on a cash overtime basis to present the courses. At no time will the students be on an overtime basis. A total of 60 officers will receive DRE training.

Drug Recognition Expert Certification Task Forces

The Department will conduct 12 DRE Task Forces to certify the officers who were recently trained as DREs. Eight will be funded by the Department and four will be grant-funded. Grant funding will be used to hire the instructors on a cash overtime basis to oversee the DRE evaluations conducted during the task forces. At no time will the students be on an overtime basis. A total of 60 officers will be certified through the DRE Task Forces. A vendor will be contracted to provide phlebotomy services for the task forces. The phlebotomist will work a minimum of four hours and a maximum of eight hours at a rate of \$60 per hour.

Drug Recognition Expert Recertification Training

The Department will conduct eight DRE Recertification Courses. Four will be funded by the Department and four will be grant-funded. Grant funding will be used to hire the instructors on a cash overtime basis to present the courses. At no time will the students be on an overtime basis. A total of 80 officers will receive recertification training.

Drug Recognition Expert Instructor Course

The Department will conduct one DRE Instructor Course, which will be funded by the Department. A total of 15 officers will receive DRE instructor training.

Business Community Outreach

The Department will conduct six business outreach events where officers will visit marijuana dispensaries with the goal of building rapport, so that the Department can provide educational messages to the dispensaries in a positive setting.

The dispensaries will be provided educational materials, such as signs, posters and handouts that can be distributed to their customers. The primary focus of the education is to remind community members not to smoke marijuana and drive. If an understanding can be achieved with the dispensary owners that driving while under the influence of marijuana is dangerous and the owners are willing to convey that message to their customers, it will be viewed as a major success.

Schedule A

Modernization of Equipment

The Department's Multi-Disciplinary Collision Investigation Team (MCIT) is tasked with the investigation of complex and serious traffic crashes, which are often DUI-related. In 2021, 40 percent of the MCIT investigations were DUI-related. Similar to the CHP's Multi-Disciplinary Accident Investigation Team, MCIT needs modern and state of the art equipment to investigate traffic crashes. A 3D Scanner will assist MCIT with investigations, resulting in the prosecution of DUI-related cases.

Enforcement

The Department will conduct six high visibility enforcement task forces on identified dates (i.e., April 20th, commonly referred to as 420) and at events prone to the use of cannabis, such as cannabis conventions at the Los Angeles Convention Center, Banc of California Stadium, Shrine and concerts at the Los Angeles Coliseum and Crypto Center. The task forces will be staffed by three supervisors, 16 officers and three detention officers. Officers assigned to the task force will be paired together and will focus efforts on apprehending drivers who are DUI/DUID. Apprehended drivers will be transported to the command post where the appropriate chemical tests will be administered, and arrested drivers will be booked at one of the Department's detention facilities.

Performance Measures

The proposed program will focus on DUID enforcement efforts and to increase training that assists officers in detecting and removing impaired drivers from the roadway with an overarching goal of increased training/education, prevention, and the enforcement of laws related to driving under the influence of alcohol and other drugs, including cannabis and cannabis products. Below are the identified objectives, activities, and proposed timeline.

Objectives:

1. Reduce the number of persons killed in traffic crashes by five percent from base of 294 in 2021 (July 1, 2021 through June 30, 2022).
2. Reduce the number of persons severely injured in traffic crashes by five percent from base of 1,479 in 2021.
3. Reduce the number of persons killed in DUI-related traffic crashes by five percent from base of 18 in 2021.
4. Reduce the number of persons severely injured in DUI-related traffic crashes by five percent from base of 67 in 2021.
5. Reduce the number of persons killed in hit and run traffic crashes by five percent from base of 74 in 2021.
6. Reduce the number of persons severely injured in hit and run traffic crashes by five percent from base of 299 in 2021.
7. Reduce the number of persons killed in nighttime traffic crashes by five percent from base of 106 in 2021.
8. Reduce the number of persons severely injured in nighttime traffic crashes by five percent from base of 374 in 2021.
9. Increase the number of DUID arrests by five percent from a base of 1,058 in 2021.

Schedule A

Schedule A

Project Performance Evaluation

The LAPD will evaluate the proposed program in both qualitative and quantitative data to show project effectiveness and impact on the community.

Phase 1 – Program Preparation

1st Quarter of the Grant Cycle

- The Department will develop operational plans to implement the "best practice" strategies outlined in the objectives section
- Issue a press release announcing the grant kick-off by July 31, 2022

Phase 2 - Program Operations

Throughout Grant Year

- All training will be conducted from the second quarter throughout the remainder of the grant.
- All grant-related purchases will be made this quarter.
- The Department will work to create media opportunities throughout the grant period to call attention to the innovative program strategies and outcomes.

Phase 3 – Data Collection & Reporting

Throughout Grant Year

- The Department will collect and report data quarterly that supports the progress of goals and objectives.
- Statistical data relating to the grant goals and objectives will be collected, analyzed, and incorporated in the Quarterly Progress Reports (QPRs).
- The Department will compare actual grant accomplishments with the planned accomplishments and will include information concerning changes made by the Grant Director in planning and guiding the grant efforts.

Phase 4 – Final Quarterly Progress Report

Within 60 Calendar Days following the Closure of the Grant

Using the data compiled during the grant, the Department will complete a Closeout Review with the fourth/final QPR. The Closeout Review will provide a brief summary of the grant's accomplishments, challenges and significant activities. The narrative will address whether goals and objectives were met, exceeded, or an explanation of why objectives were not completed.

Auditing

The Department will use auditing practices developed to prevent fraud and waste. A Fraud Prevention Audit form has been developed to be used by a Department supervisor who will audit the grant. The form provides the auditor with a specific and concise checklist of items to be inspected at each detail. Audits will be conducted on a periodic, but routine basis throughout the span of the grant.

Schedule A

Grant fraud is a paramount concern of the Department. Spontaneous and unannounced audits of grant-funded details is a key strategy in preventing fraud. Historically, grant-related fraud has been discovered at other agencies when an employee request to be compensated with grant funded overtime when not present for the detail.

Department supervisors who are not involved in a scheduled grant-funded detail will arrive unannounced to verify the employees who are being compensated with grant overtime are present at said event. This is especially imperative at the beginning and ending of the detail to verify employees are not arriving late or departing early while being compensated with grant overtime funds.

Program Sustainability

The grant augments and supplements existing programs within the Department. The funding provided through this grant improves the Department's DRE Program by providing funding to DRE Instructors to provide additional training, which will result in additional officers trained in SFST, ARIDE and DRE. Without the funding, the Department would continue to provide DRE-related training, but at a decreased rate.

Administrative Support

This program has full support of the City. Every effort will be made to continue the activities after the grant conclusion.

Staffing Levels

The Department currently has 9,494 sworn personnel with 298 DREs and 22 DRE Instructors. Due to the specialty nature of the grant, the majority of the overtime will be staffed by DREs or DRE Instructors.

Program and Fiscal Staff Qualifications

The proposed program will be staffed with a program manager and a grants analyst. The Program Manager, Officer Donald Inman, is the Traffic Group's Grant Coordinator who, over the past 20 years, has managed 37 OTS grants worth approximately \$67 million. During this period, multiple State and internal audits have been performed to ensure proper grant management and no major discrepancies have been identified. An LAPD Grants Analyst will be assigned to the proposed program to submit all financial and progress reports as well as manage all grant administration duties.

The LAPD has been awarded and has successfully managed grants ranging from \$100,000 to \$16,000,000 from various local, state, and federal entities including CHP, OTS and DOJ. The LAPD Grants Section consists of a Grants Manager and six Grants Analysts to oversee and report on over 30 active grants.

High Visibility Enforcement Task Force – Overtime to staff the high visibility enforcement task forces with appropriate personnel. The majority of personnel assigned to the task forces will be officers trained as DREs.

The Department will conduct six high visibility enforcement task forces on identified dates (i.e. April 20th, commonly referred to as 420) and at events prone to the use of cannabis, such as cannabis conventions at the Los Angeles Convention Center, Banc of California Stadium, Shrine and concerts at the Los Angeles Coliseum and Crypto Center. The three supervisors will consist of one officer in charge of the task force and two field supervisors. The officer in charge has ultimate control of the task force and has final say in all operations related to the task force. The two field supervisors will monitor the officers in the field and will address all risk management issues that might arise. The supervision meets the Department standard for span and control of the task force.

The officers assigned to the task force will be paired together to work as a team on either motorcycles or in a marked police vehicle. The officers will be directed to patrol a defined area to located drivers under the influence of alcohol, drugs, or combination of the the two. Arrested suspects will be transported to the command post trailer where they will perform the required tests, be afforded the opportunity to give the required chemical test, processed and transported to a Department jail to be booked.

Schedule B-1

Budget Narrative

Detention officers assigned to the task force will be stationed at the Department jail facility in close proximity of the command post. The detention officers will receive the suspects transported from the command post. Once in the jail facility, the detention officers will be responsible for the suspects to ensure they receive medical treatment (if needed), searched, fingerprinted, processed and housed.

Equipment

Trailers \$180,000.00

DRE Trailers – Two cargo style trailers will be purchased to assist the Department in achieving the grant's objectives. Both trailers will be capable of providing a secluded and stable platform to conduct DUI/DUID examinations. The trailers will also serve as command posts for the various task forces funded by the grant. One trailer will be used to support the instruction provided by the DRE Unit and the other trailer will be used to support the high visibility enforcement task forces. The enforcement trailer will also be used at DUI checkpoints to provide a DRE examination room for personnel assigned to the checkpoint. The trailers will be added to the Department's fleet and will be serviced, maintained and repaired by LAPD's Motor Transport Division (MTD).

The cargo style trailers will act as a command post and testing site at the grant-funded DRE Certification and High Visibility Enforcement Task Forces, and serving the same purpose at other Department coordinated DUI enforcement activities. The trailers will provide a controlled environment where DRE evaluations will be conducted, blood withdraws will be performed and suspects will be prepared to be processed at a Department jail.

The cost (\$90,000 per trailer) will include the following:

- 20-30 Foot Long
- 8-8.5 Foot Wide
- 6.5-7 Foot Tall
- Tandem Wheel, Dual Axle
- 3-4 Foot Wide Side Access Door
- LED Interior/Exterior Lights
- Electric Brakes
- Hydraulic Self-Leveling
- Radial Tires
- 1-Piece Aluminum Roof
- Built-In Onan Generator
- Interior Cabinets
- Awning
- Bathroom
- Air Conditioning
- Trailer Wrap
- Title and Licensing
- Tax

Schedule B-1

Budget Narrative

Trucks \$140,000.00

Trucks – Two pick-up style trucks will be used to transport the two DRE trailers. The trucks will only be used to support DUI and DUID education and enforcement efforts. The trucks will be added to the Department's fleet and will be serviced, maintained and repaired by MTD.

The pick-up style trucks will primarily be used to tow the two trailers purchase through the grant, and to support any other Department coordinated DUI enforcement activities.

The cost (\$70,000 per truck) will include the following:

- One-Ton Pick-Up Truck
- Tow Package
- Towing Hitch Receiver
- Vehicle Wrap
- Police Light Bar and Emergency Strobes
- Police Radio
- Bed Liner
- Title and Licensing
- Tax

Bathroom Trailer \$17,875.00

Bathroom Trailer – One bathroom trailer will be used in conjunction with the DRE trailers to provide personal relief to Department personnel assigned in DUI and DUID education and enforcement events. The trailers will be added to the Department's fleet and will be serviced, maintained and repaired by MTD.

The trailer mounted, one-stall bathroom is essentially a restroom on wheels. It will be pulled to DRE and DUI-related events by a truck or other towing vehicle and will be deployed at DRE Certification and High Visibility Enforcement Task Forces. The enclosed restroom includes a toilet and sink with running water. The bathroom will be made accessible to officers and suspects alike.

DRE Certification and High Visibility Enforcement Task Forces are conducted throughout the City and access to restrooms is often limited. Suspects arrested for driving under the influence of alcohol after consuming a large quantity of alcohol often need to relieve themselves. Having a restroom located at the command post provides suspects the capability of urinating in the portable bathroom, which typically results in a more cooperative suspect.

Since the trailer will become a part of the Department's fleet of vehicles, MTD will maintain and service the trailer.

Breakdown of Costs (Estimate):

- Bathroom Trailer - \$16,000
- Registration - \$375
- Sales Tax - \$1,500

Consultants/Contracts

Phlebotomist \$30,000.00

Phlebotomist – A phlebotomy service provider will be contracted to draw and collect blood samples from suspected DUID drivers arrested during DRE certification and enforcement task forces.

A phlebotomist will be present at the DRE Certification and High Visibility Enforcement Task Forces to perform blood withdraws from suspects arrested for being under the influence of alcohol, drugs or a combination of the two. The timely evidentiary blood withdraws are crucial for criminal convictions.

The standard practice for personnel who have a suspect arrested in need of a blood withdraw is to obtain it at one of the Department three primary jails where medical dispensaries area present. Due to the routine demands on the medical staff at the dispensaries, over an hour may elapse while waiting to obtain a blood sample. Since many drugs dissipate quickly in the bloodstream, such as marijuana, the time elapse between completing a DRE examination and obtaining the blood sample is imperative.

Schedule B-1

Budget Narrative

The contracted phlebotomists will be present at the command post (trailer) of the task forces. Upon completing the DRE examination, the blood withdraw performed by the phlebotomist will typically occur within minutes. The presence of the phlebotomist is a crucial factor in obtaining criminal prosecutions of suspects arrested at the task forces.

A phlebotomist be used at all task forces, regardless if it is grant-funded. Phlebotomists typically work between five to eight hours each day of the task force. 460 phlebotomy hours X \$65 per hour = \$29,965 (rounded to \$30,000).
