Comments for Public Posting: It should be noted that on 8/22/22 the MidCity West Neighborhood Council had a "Special" meeting in order to approve a last minute CIS in favor of this initiative they are asking the City Council to pass. It should also be noted that only 22 of the 36 members showed up along with a good number of stakeholders. FIVE stakeholders spoke AGAINST the neighborhood councils desire to pass the CIS. The members of the neighborhood council who were present all choose to IGNORE the stakeholders who spoke and pass this CIS. If stakeholders don't matter to a neighborhood council, what's their function? This initiative should not be rushed through & passed by the City Council and it should be brought to the voters.
