Comments for Public Posting: Imagine spending \$1.5M on a Drupal backed website and then when it is found out that you are not performing even your most basic of services having the audacity to say it is because you have no money and ask for a tax hike. This would be the funniest thing I've ever heard if it wasn't for all the suffering animals. Seriously, WTF? Was having a celebrity animal photographer more important than the thousands of hours of dog walking that money could have paid for? You guys should be ashamed of yourselves and need to take a really hard look at what you are doing and if you don't understand how much things should cost you need to ask someone that does.
