Comments for Public Posting: Regarding the Historical Cultural Monument designation and using the surrounding untouched acreage for a park so that all persons are able to access the land for recreation purposes. This is a no brainer. LAUSD has open unused classrooms, all of which are excellent quality. Why not take advantage of them? It does not make sense to build another school. North Hills actually needs an open space (park) so all persons can utilize it.

Comments for Public Posting: I am writing today in support of the historic house and park at 15526 Plummer St. North Hills has many schools and yet from Nordoff to Brand Blvd there are no parks. If Valor schools chooses to use the historic house for their offices, then would the community of North Hills and surrounding areas be able to stroll the property and view this historic home? We would like to see this home in the same model as the Andres Pico Adobe in Mission Hills. San Fernando City has the Lopez Adobe House and it is open to the public. There was a comment by Brian Perry, about the opportunity to heal the historical racism that was in 1910. What Brian doesn't understand is, most of the property owners near this property are Latinos and have worked hard for dreams of owning a home in a good environment. For this reason, our council members should grant this community with a park and a historic home for our children and grandchildren to visit without Valor having the home under lock and key. Thank you Wilfred Negrete 15503 Superior St North Hills, CA., 35 year owner of my home.
