**Council File No:** 22-1154-S1

**Comments for Public Posting:** We need to be moving further away from things like this. It's about time for the city to pause, look into what will help the environment and citizens rather than continuing on an endless path off how to sell more and more and more ad space.

## Communication from Public

**Comments for Public Posting:** Please do not schedule the digital kiosk ad program for hearing/Council consideration. It is a blight and injustice to our way of life to have screens constantly distract a way of life. Los Angeles needs revenue, but this is not a way to solve the problem by taking away any semblance of trees and scenery that refresh our minds and give us serenity. It is hard enough living in LA without addition of more screen advertising.
